

## ANDREA MANGONI

Born on [REDACTED]

### Professional Experience

#### 2016 to date: doValue

He joined doValue as Chief Executive Officer and lead the turnaround, the IPO and the strong AUM and profitability growth of the company.

Today, with 165 billions of asset under management, doValue is the undisputed leader in the No Performing Exposure market in southern Europe (Italy, Spain, Greece and Portugal).

2015 (from May to November): General Manager at Fincantieri.

#### 2013-2015: Sorgenia

As Chairman and Chief Executive Officer, he successfully run the financial restructuring and the operational turnaround of this electricity generation company, the bigger no performing borrower in the country with approximately 3 billion Euro net debt.

#### 2009-2013: Telecom Italia

He joined Telecom Italia as Group Chief Financial Officer. From 2009 to 2010, in addition of the CFO position, he was Executive Chairman of TI Sparkle, the company responsible for the management of the Telecom Italia's international network and wholesale business.

He left the Group Chief Financial Officer position in 2012 and became Managing Director for International Business (Tim Brazil, Telecom Argentina and TI Sparkle) and Chief Executive Officer at TIM Brazil.

#### 1995-2009: Acea

From 1995 to 1998 he was responsible, as Head of Finance, of the IPO of the company. From 1998 to 1999, when he became Chief of Strategy, he was head of Planning and Control. In 2001 he became Chief Financial Officer and from 2003 to 2009 he was Chief Executive Officer.

Before Acea he worked for the InterAmerican Development Bank (IDB), where he dealt with restructuring and privatization project in Argentina and Brazil.

He graduated at the University of Rome in 1988 with a thesis on Evaluation and financing of private investments in public infrastructure.

He is fluent in English and Spanish.

## Experience in the Renewable Energy industry

From 2009 to date he is founding shareholder (33%) of Byom and Chairman of the company.

Byom's main activities are:

- 1) construction project management of renewable energy plants (approximately 70MW of PV power plants),
- 2) structuring and financing of investment in PV power plant and wind farm (Byom structured and negotiated project finance and leasing contract for approximately 400 Million Euro),
- 3) direct investment, with a controlling stake in SPVs with a 31MW total portfolio,
- 4) operational management (145MW under management),
- 5) technical management, supporting renewable energy companies in dealing with Terna and the electricity distribution companies (connections, technical standard etc.) and with the Gestore dei Servizi Energetici (compliance with the feed in tariff regulation, performance monitoring etc.).

From 2013 to 2015, as Chief Executive Officer at Sorgenia, he sold approximately 50MW of renewable energy to Glenmont and MacQuarie.

As Chief Executive Officer of Acea, he launch the PV investment plan of the company. An important component of the PV portfolio was sold to Terra Firma afterwards.

He is fluent in English and Spanish.
