€5,000,000,000

Euro Medium Term Note Programme

Under the Euro Medium Term Note Programme described in this base prospectus (the “**Base Prospectus**”) (the “**Programme**”), Mundys S.p.A. (“**Mundys**” or the “**Issuer**”) may, from time to time, subject to compliance with all applicable laws, regulations and directives, issue medium term debt securities in either bearer or registered form (respectively, “**Bearer Notes**” and “**Registered Notes**” and, together, the “**Notes**”). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed €5,000,000,000 (or the equivalent in other currencies).

The Notes may be issued on a continuing basis to one or more of the Dealers named below or any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis (each a “**Dealer**” and together, the “**Dealers**”). References in this Base Prospectus to the relevant Dealer, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, shall be to all Dealers agreeing to subscribe for such Notes.

This Base Prospectus has been approved by the Central Bank of Ireland (the “**Central Bank**”), as competent authority under Regulation (EU) No. 2017/1129 of 14 June 2017 (as amended, the “**Prospectus Regulation**”). The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of either the Issuer or the quality of the Notes that are the subject of this Base Prospectus and investors should make their own assessment as to the suitability of investing in the Notes. Additionally, such approval relates only to the Notes which are to be admitted to trading on the regulated market of the Irish Stock Exchange plc trading as Euronext Dublin (“**Euronext Dublin**”) or other regulated markets for the purposes of Directive 2014/65/EU (as amended, “**MiFID II**”). Application has been made to Euronext Dublin for Notes issued under the Programme to be admitted to the Official List and trading on its regulated market. Notes may be listed or admitted to trading, as the case may be, on other or further stock exchanges or markets agreed between the Issuer and the relevant Dealer in relation to the Series. Notes which are neither listed nor admitted to trading on any market may also be issued.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of the Notes, the issue price of the Notes and certain other information completing the terms and conditions which are applicable to each Tranche (as defined under “*Overview of the Programme*”) of Notes issued under the Programme will be set out in final terms (the “**Final Terms**”) which, with respect to Notes to be listed on Euronext Dublin, will be filed with the Central Bank.

This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Notes which are to be admitted to trading on a regulated market in the European Economic Area and shall expire on 19 June 2025. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Investing in the Notes involves certain risks. For a discussion of these see the section entitled “Risk Factors” beginning on page 8.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) or with any securities regulatory authority of any State or other jurisdiction of the United States, and the Notes may include Bearer Notes that are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes may not be offered or sold or, in the case of Bearer Notes, delivered in the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act (“**Regulation S**”) in the case of Registered Notes, or as defined in the U.S. Internal Revenue Code of 1986, as amended, and regulations thereunder in the case of Bearer Notes). See “*Forms of the Notes*” for a description of the manner in which Notes will be issued. Registered Notes are subject to certain restrictions on transfer. See “*Subscription and Sale and Transfer and Selling Restrictions*”.

The Programme is currently rated BB+ by S&P Global Ratings Europe Limited (“**S&P**”), BB by Fitch Ratings Ireland Limited (“**Fitch**”) and Moody’s Investors Service España S.A. (Sociedad Unipersonal) (“**Moody’s**”) rates the Programme (P)Ba2. Each of Moody’s, S&P and Fitch is established in the European Union and registered under Regulation (EC) No.1060/2009 (as amended) (the “**EU CRA Regulation**”) and as such is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with the EU CRA Regulation. The ratings of the Programme issued by Moody’s, S&P and Fitch have been endorsed by Fitch Ratings Ltd, Moody’s Deutschland GmbH and S&P Global Ratings UK Limited, respectively, in accordance with the Regulation (EC) No. 1060/2009 as it forms part of UK domestic law by virtue of European Union (Withdrawal) Act 2018 (the “**UK CRA Regulation**”) and have not been withdrawn. As such, the ratings issued by each of Fitch, Moody’s and S&P may be used for regulatory purposes in the United Kingdom in accordance with the UK CRA Regulation. Tranches of Notes to be issued under the Programme will be rated or unrated. Where a Tranche of Notes is to be rated, such rating will not necessarily be the same as the rating assigned to the Issuer or to Notes already issued. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Whether or not a rating in relation to any Tranche of Notes will be treated as having been issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the relevant Final Terms. **A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.**

Bearer Notes will be represented on issue by a temporary global note in bearer form (each a “**Temporary Global Note**”) or a permanent global note in bearer form (each a “**Permanent Global Note**”) and, together with the Temporary Global Notes, the “**Bearer Global Notes**”). Registered Notes will be represented by registered certificates (each a “**Certificate**”), which term shall include where appropriate registered certificates in global form (“**Registered Global Notes**”), and together with the Bearer Global Notes, the “**Global Notes**”), one Certificate being issued in respect of each registered Noteholder’s entire holding of Registered Notes of one Series (as defined under “*Overview of the Programme*” and “*Terms and Conditions of the Notes*”). Global Notes may be deposited on the Issue Date (as defined herein) with a common depositary or a common safekeeper (as applicable) on behalf of Euroclear Bank SA/NV (“**Euroclear**”) and Clearstream Banking, SA (“**Clearstream, Luxembourg**”). The provisions governing the exchange of interests in Global Notes for other Global Notes are described in the section entitled “*Forms of the Notes*” of this Base Prospectus.

The Issuer may agree with any Dealer that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes set out herein (the “**Conditions**”), in which event a Drawdown Prospectus (as defined below), if appropriate, will be made available which will describe the effect of the agreement reached in relation to the Notes.

The Issuer accepts responsibility for the information contained in this Base Prospectus and, to the best of its knowledge, the information contained in this Base Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information.

This Base Prospectus is to be read and construed in conjunction with any supplements hereto and with all documents which are deemed to be incorporated herein by reference and, in relation to any Tranche of Notes, should be read and construed together with the applicable Final Terms. See “*Incorporation by Reference*” below. This Base Prospectus shall, save as specified herein, be read and construed on the basis that such documents are so incorporated and form part of this Base Prospectus.

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, the Arrangers, the Dealers or any other member of their group or BNY Mellon Corporate Trustee Services Limited (the “**Trustee**”) that any recipient of the Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient shall be taken to have made its own investigation and appraisal of the financial condition of the Issuer and the Group.

No representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Arrangers, the Dealers or any of their respective affiliates or the Trustee as to the accuracy or completeness of this Base Prospectus or any further information supplied in connection with the Programme or the Notes or their distribution. None of the Arrangers, the Dealers or any of their respective affiliates or the Trustee accepts any liability in relation to the contents of this Base Prospectus or any document incorporated by reference in this Base Prospectus or the distribution of any such document or with regard to any other information supplied by, or on behalf of, the Issuer. Each investor contemplating purchasing Notes must make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer and the Group.

Furthermore, with respect to Notes described as “Step Up Notes” and “Premium Payment Notes”, none of the Arrangers, the Dealers, the Trustee or any of their respective affiliates will verify or monitor whether such Notes satisfy investors’ requirements or standards for investment in assets with sustainability characteristics or the consistency of the KPI 1 Condition, KPI 2 Condition, KPI 3 Condition and related definitions with the investment requirements and expectations of any potential investor in such Notes.

No person is or has been authorised by the Issuer to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by any of the Issuer, the Arrangers, the Dealers or the Trustee or any of their respective affiliates.

Neither the delivery of this Base Prospectus, nor the offering, sale or delivery of any Notes shall in any circumstances create any implication that, since the date of this Base Prospectus or the date upon which it has been most recently amended or supplemented, there has not been any change, or any development or event, which is materially adverse to the condition (financial or otherwise), prospects, results of operations or general

affairs of the Issuer or the Group. The Arrangers, the Dealers and the Trustee expressly do not undertake to review the financial condition or affairs of the Issuer or the Group during the life of the Programme or to advise any investor in the Notes of any information coming to their attention. Investors should review, *inter alia*, the most recently published financial statements of the Issuer when deciding whether or not to purchase any Notes.

The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. None of the Issuer, the Arrangers, the Dealers or the Trustee represents that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by any of the Issuer, the Arrangers, the Dealers or the Trustee which would permit a public offering of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except in circumstances that will result in compliance with any applicable laws and regulations, and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons who obtain this Base Prospectus or any Notes must inform themselves about and observe any such restrictions. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States, the European Economic Area (including Italy and France), the United Kingdom, Canada, Japan, Switzerland, Hong Kong and Singapore. For a description of these and certain further restrictions on offers and sales of the Notes and distribution of this Base Prospectus, see “*Subscription and Sale and Transfer and Selling Restrictions*”.

This Base Prospectus has been prepared by the Issuer for use in connection with the offer and sale of Notes in reliance upon Regulation S outside the United States to non-U.S. persons or in transactions otherwise exempt from registration. Its use for any other purpose in the United States is not authorised. It may not be copied or reproduced in whole or in part nor may it be distributed or any of its contents disclosed to anyone other than the prospective investors to whom it is originally submitted.

MiFID II product governance / target market – The Final Terms or Drawdown Prospectus, as the case may be, in respect of any Notes may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID II Product Governance rules under EU Delegated Directive 2017/593, as amended (the “**MiFID II Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules.

UK MiFIR product governance / target market – The Final Terms or Drawdown Prospectus, as the case may be, in respect of any Notes may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any distributor (as defined above) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arrangers nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97, as amended (the “**Insurance Distribution Directive**”), where that

customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014, as amended (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended (the “**EUWA**”), or (ii) a customer within the meaning of the Financial Services and Markets Act 2000 (as amended, the “**FSMA**”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA, as amended by the Markets in Financial Instruments (Amendment) (EU Exit) Regulations 2018. Consequently no key information document required by the PRIIPs Regulation as it forms part of UK domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

NOTIFICATION UNDER SECTION 309B(1)(c) OF THE SECURITIES AND FUTURES ACT 2001 OF SINGAPORE, AS AMENDED OR MODIFIED FROM TIME TO TIME – Unless otherwise stated in the Final Terms in respect of any Notes issued or to be issued under the Programme, all Notes issued or to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

EU BENCHMARKS REGULATION – Amounts payable under the floating rate notes issued under the Programme may be calculated by reference to the Euro Interbank Offered Rate (“**EURIBOR**”), if so specified in the relevant Final Terms. As at the date of this Base Prospectus, EURIBOR is provided and administered by the European Money Markets Institute (“**EMMI**”). At the date of this Base Prospectus, EMMI is authorised as a benchmark administrator, and included on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (“**ESMA**”) pursuant to article 36 of the Benchmark Regulation (Regulation (EU) 2016/1011), as amended (the “**BMR**”).

The Notes have not been approved or disapproved by the U.S. Securities and Exchange Commission, any State securities commission in the United States or any other U.S. regulatory authority nor have any of the foregoing authorities passed upon or endorsed the merits of the offering of the Notes or the accuracy or the adequacy of this Base Prospectus. Any representation to the contrary is a criminal offence in the United States.

The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed €5,000,000,000 and, for this purpose, any Notes denominated in another currency shall be translated into Euro at the date of the agreement to issue such Notes, calculated in accordance with the provisions of the Dealer Agreement (as defined below). The maximum aggregate principal amount of the Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement and applicable laws and regulations in force from time to time.

The language of this Base Prospectus is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

FORWARD-LOOKING STATEMENTS

All statements other than statements of historical fact included in this Base Prospectus regarding the Group's business financial condition, results of operations and certain of the Group's plans, objectives, assumptions, expectations or beliefs with respect to these items and statements regarding other future events or prospects are forward-looking statements. These statements include, without limitation, those concerning: the Group's strategy and the Group's ability to achieve it; expectations regarding revenues, profitability and growth; plans for the launch of new services; the Group's possible or assumed future results of operations; research and development, capex and investment plans; adequacy of capital; and financing plans. The words "aim", "may", "will", "expect", "anticipate", "believe", "future", "continue", "help", "estimate", "plan", "intend", "should", "could", "would", "shall" or the negative or other variations thereof as well as other statements regarding matters that are not historical fact, are or may constitute forward-looking statements. In addition, this Base Prospectus includes forward-looking statements relating to the Group's potential exposure to various types of market risks, such as foreign exchange rate risk, interest rate risks and other risks related to financial assets and liabilities. These forward-looking statements have been based on the Group's management's current view with respect to future events and financial performance. These views reflect the best judgment of the Group's management but involve a number of risks and uncertainties which could cause actual results to differ materially from those predicted in such forward-looking statements and from past results, performance or achievements. Although the Group believes that the estimates reflected in the forward-looking statements are reasonable, such estimates may prove to be incorrect. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-thinking statements. Prospective investors are cautioned not to place undue reliance on these forward-looking statements. Neither the Issuer nor the Group undertakes any obligation to republish revised forward-looking statements to reflect events or circumstances after the date hereof. Prospective purchasers are also urged carefully to review and consider the various disclosures made by the Issuer and the Group in this Base Prospectus which attempt to advise interested parties of the factors that affect the Issuer, the Group and their business, including the disclosures made under "*Risk Factors*" and "*Business Description of the Group*".

The Issuer does not intend to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written or oral forward-looking statements attributable to the Issuer or persons acting on its behalf, are expressly qualified in their entirety by the cautionary statements contained throughout this Base Prospectus. As a result of these risks, uncertainties and assumptions, investors should not place undue reliance on these forward-looking statements as a prediction of actual results or otherwise.

DRAWDOWN PROSPECTUSES

The Issuer may agree with any Dealer to issue Notes in a form not contemplated in the section of this Base Prospectus entitled "*Form of Final Terms*". To the extent that the information relating to that Tranche of Notes constitutes a significant new factor in relation to the information contained in this Base Prospectus, and a supplement is not prepared, a separate prospectus specific to such Tranche (a "**Drawdown Prospectus**") will be made available and will contain such information. Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the Issuer and the Group and the relevant Notes or (2) pursuant to Article 6.3 of the Prospectus Regulation, by a registration document containing the necessary information relating to the Issuer and the Group, a securities note containing the necessary information relating to the relevant Notes and, if necessary, a summary note. In the case of a Tranche of Notes which is the subject of a Drawdown Prospectus, references in this Base Prospectus to information specified or identified in the Final Terms shall (unless the context requires otherwise) be read and construed as information specified or identified in the relevant Drawdown Prospectus.

INFORMATION RELATING TO STEP UP NOTES AND PREMIUM PAYMENT NOTES

The Issuer may also issue Notes which are categorised as Step Up Notes or Premium Payment Notes under the Programme. Unlike so-called "green bonds", Step Up Notes and Premium Payment Notes are not intended by the Issuer to be applied for the purposes of financing and/or refinancing, in whole or in part, "sustainable" or other equivalently-labelled projects but will be used for general corporate purposes. In such circumstances, prospective investors should have regard to the information set out under, or referred to in, Condition 5(k) (*Step Up Option and Premium Payment*) and the relevant Final Terms and must determine for themselves the

relevance of such information, together with any other investigation such investors deem necessary, for the purpose of any investment in such Notes and its suitability also in light of their own circumstances. No representation, warranty or undertaking, express or implied, is made by the Dealers or the Trustee or any of their respective affiliates as to the suitability of such Notes to fulfil environmental or sustainability criteria required by prospective investors.

The Issuer has published a “Sustainability-Linked Financing Framework” in December 2023, in accordance with, among others, the 2023 Sustainability-Linked Bond Principles (SLBP) published by the International Capital Market Association (ICMA), as well as the 2023 Sustainability-Linked Loan Principles (SLLP) as published by the Loan Market Association (LMA) and detailed below (the “**Sustainability-Linked Financing Framework**”).

Sustainalytics has reviewed the Issuer’s Sustainability-Linked Financing Framework and issued a second party opinion on 22 December 2023 (the “**Sustainability-Linked Financing Framework Second-party Opinion**”). The Issuer’s Sustainability-Linked Financing Framework and the related Sustainability-Linked Financing Framework Second-party Opinion are available on the Issuer’s website at <https://www.mundys.com/en/sustainability-linked-financing-framework-2022>.

In addition, in connection with the issue of Step Up Notes and Premium Payment Notes, the Issuer will engage an Assurance Provider to carry out the relevant assessments required for the purposes of providing an Assurance Report in relation to the Notes pursuant to Condition 5(k) (*Step Up Option and Premium Payment*). Also such documents will be accessible through the Issuer’s website (in the same section in which the related Sustainability-Linked Financing Framework Second-party Opinion is available). However, any information on, or accessible through, the Issuer’s website and the information in such opinions or report or any past or future Assurance Report is not part of this Base Prospectus and should not be relied upon in connection with making any investment decision with respect to any Notes issued under the Programme.

Prospective investors must determine for themselves the suitability, reliability and relevance of any such frameworks, opinions, reports, sustainability ratings, certifications (such as the Sustainability-Linked Financing Framework Second-party Opinion) and/or the information contained therein and/or the provider of any such document for the purpose of any investment in Step Up Notes and/or Premium Payment Notes. Currently, the providers of such opinions, reports, certifications and sustainability ratings are not subject to any specific regulatory or other regime or oversight.

In addition, no assurance or representation is given by the Issuer, the Dealers, the Trustee or any of their affiliates, as to the suitability or reliability for any purpose whatsoever of any opinion, report, certification or sustainability rating of any third party in connection with the offering of Step Up Notes and Premium Payment Notes under the Programme. Any such opinion, report, certification or sustainability rating and any other document related thereto (including, without limitation, the Sustainability-Linked Financing Framework) is not, nor shall it be deemed to be, incorporated in and/or form part of this Base Prospectus.

Furthermore, in the event that any such Notes are listed or admitted to trading on any dedicated “green”, “environmental”, “sustainable” or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Dealers, the Trustee or any of their affiliates that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer or any other person that any such listing or admission to trading will be obtained in respect of any such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Notes.

See also the Risk Factors headed “*Step Up Notes and Premium Payment Notes may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics*”, “*Step Up Notes and Premium Payment Notes include certain triggers linked to sustainability key performance indicators*” and “*Failure to meet the relevant sustainability targets may have a material impact on the market price of the Step Up Notes and the Premium Payment Notes and could expose the Group to reputational risks*” below.

THE NOTES MAY NOT BE A SUITABLE INVESTMENT FOR ALL INVESTORS

Each potential investor in the Notes must determine the suitability of that investment in the light of its own circumstances. In particular, each potential investor in the Notes should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal, premium or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of financial markets;
- (v) consider all of the risks of an investment in the Notes, including Notes with principal, premium or interest payable in one or more currencies, or where the currency for principal, premium or interest payments is different from the potential investor's currency; and
- (vi) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio. In making an investment decision, investors must rely on their own independent examination of the Issuer and the terms of the Notes being offered, including the merits and risks involved. None of the Arrangers, the Dealers or the Issuer makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should be able to bear the economic risk of an investment in the Notes for an indefinite period of time.

LEGAL INVESTMENT CONSIDERATIONS MAY RESTRICT CERTAIN INVESTMENTS

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk based capital or similar rules.

USE OF WEBSITES

In this Base Prospectus, references to websites are included for information purposes only. The contents of any websites (except for the documents or portions thereof incorporated by reference into this Base Prospectus to the extent set out on any such website) referenced in this Base Prospectus do not form part of this Base Prospectus unless that information is incorporated by reference into this Base Prospectus.

STABILISATION

In connection with the issue and distribution of any Tranche of Notes, the Dealer(s) (if any) disclosed as the stabilising manager(s) in the applicable Final Terms (or any person acting on its or their behalf) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes of a Series (as defined below) of which such Tranche forms part at a level higher than that which might otherwise prevail for a limited period. However, there is no assurance that stabilisation may necessarily occur. Any stabilisation action may

begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. All such transactions will be carried out in accordance with all applicable laws and regulations.

The Final Terms will also disclose whether or not each credit rating applied for in relation to a relevant Tranche of Notes has been (1) issued by a credit rating agency established in the EEA and registered (or which has applied for registration and not been refused) under the EU CRA Regulation, or (2) issued by a credit rating agency which is not established in the EEA but will be endorsed by a credit rating agency which is established in the EEA and registered under the EU CRA Regulation or (3) issued by a credit rating agency which is not established in the EEA but which is certified under the EU CRA Regulation.</p> <p>In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation unless (1) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the EU</p>

Risk Factors

Refer to “*Risk Factors*” below for a summary of certain risks involved in investing in the Notes. Prospective Noteholders should consider carefully all information contained in this Base Prospectus (including, without limitation, any documents incorporated by reference therein and any supplement thereto) and reach their own views, based upon their own judgment and upon advice from such financial, tax and legal advisers they have deemed necessary, before making any investment decision.

RISK FACTORS

In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control.

The Issuer has identified in this Base Prospectus a number of factors specific to the Issuer which could materially adversely affect its business and ability to make payments due under the Notes. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The risks that are specific to the Issuer are presented in 7 categories and those specific to the Notes are presented in 3 categories, in each case with the most material risk factors presented first in each category and the remaining risk factors presented in an order which is not intended to be indicative either of the likelihood that each risk will materialise or of the magnitude of their negative impact on the business, financial condition and results of operations of the Issuer and the Group.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

Words and expressions defined elsewhere in this Base Prospectus have the same meaning in this section.

MATERIAL RISKS THAT ARE SPECIFIC TO THE ISSUER AND THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE NOTES

Structural and strategic risks

The Issuer is primarily a holding company that does not have revenue-generating operations of its own, and is dependent on receiving dividends from its operating subsidiaries to make payments on the Notes or meet its other obligations. Such operating subsidiaries may not be able to make such payments in some circumstances or making such payments may result in increased costs for the Group.

As of the date of this Base Prospectus, the Issuer is a leading diversified global infrastructure group that does not conduct business operations of its own and has no significant assets other than the shares it holds in its direct subsidiaries and investments. The Group's revenue-generating activities are carried out by the Issuer's operating subsidiaries, principally Abertis Infraestructuras SA ("**Abertis**") and its consolidated subsidiaries (the "**Abertis Group**"), Mundys' subsidiaries (not included in the Abertis Group) operating toll road concessions in Chile and Poland (the "**Overseas Motorways**"), Mundys' subsidiaries operating airport infrastructure, such as Aeroporti di Roma S.p.A. ("**ADR**") and its consolidated subsidiaries (the "**ADR Group**") and Aéroports de la Côte d'Azur S.A. ("**ACA**") and its consolidated subsidiaries (the "**ACA Group**") and Mundys' subsidiaries carrying out mobility services, including Telepass S.p.A. ("**Telepass**") and its consolidated subsidiaries (the "**Telepass Group**") and Yunex GmbH ("**Yunex Traffic**") and its consolidated subsidiaries (the "**Yunex Group**").

The Group generates most of its revenues and EBITDA from the Abertis Group, of which Mundys owns 50% and which is consolidated on a line-by-line basis in the Issuer's consolidated financial statements. The following table shows the contribution of each business segment to the Group's revenues and the Group's EBITDA as of 31 December 2023, as well as the dividends from investees received by Mundys during 2023.

Repayment of the Issuer's indebtedness, including under the Notes, is dependent on the ability of its subsidiaries to make such cash available to it, by dividend distributions, debt repayment, loans or otherwise. See also " – *The Group is subject to liquidity risk and requires a significant amount of cash to service its debt, and its ability to generate sufficient cash depends on many factors beyond its control*". The Issuer's subsidiaries may not be able to, or may be restricted by the terms of their existing or future indebtedness, or by law, in their ability to make distributions or advance upstream loans to enable the Issuer to make payments in respect of its indebtedness, including the Notes. Each of the Issuer's subsidiaries is a distinct legal entity and, under certain circumstances, legal and contractual restrictions may limit the Issuer's ability to obtain cash from its subsidiaries. In the event that the Issuer does not receive distributions or other payments from its subsidiaries, it may be unable to make required principal and interest payments on its indebtedness, including the Notes.

The Issuer does not expect to have other relevant sources of funds, other than the distributions or other payments from its subsidiaries and the proceeds from any sales of its assets that the Group may from time to time carry out, which would allow it to make payments to holders of the Notes. See also " – *The Group may engage in acquisitions, investments and disposals from time to time*". All the existing and future liabilities of the Issuer's subsidiaries, including any claims of trade creditors and any preferred stockholders, will be effectively senior to the Notes. Any of the situations described above could have a material adverse effect on the Issuer's ability to service its obligations under the Notes. See also "—*The Group may incur additional indebtedness, including at the level of its subsidiaries, which could increase its risk exposure from debt.*" and " – *Risks relating to the Notes generally - None of the Issuer's subsidiaries will guarantee its obligations under the Notes, and the Notes will be structurally subordinated to all indebtedness of the Issuer's subsidiaries*".

Risks related to the Group's strategy.

From time to time, the Group adopts and implements strategic plans and guidelines to further develop its business, which may include specific targets with respect to its financial and operational performance and targets related to environmental, sustainability and governance matters. The current strategy of the Group allows for an expansion of its presence in the infrastructural sector and related businesses in OECD countries, with a focus on Western Europe, North America and Latina America, subject to compliance with the M&A, dividend, financial and responsible investment policies of the Group. Such plans are generally prepared based on prevailing macroeconomic projections as of the relevant plan's definition and strategic actions that need to be implemented. Any such plan is based on numerous assumptions and hypotheses, some of which relate to events not fully under the control of the Issuer. In particular, such plans may contain a set of assumptions, estimates and predictions that are based on the occurrence of future events and actions to be taken by, *inter alia*, the managers or Directors of the Issuer or its subsidiaries, in a specific period, which may include, among other

¹ €42 million dividends referred to Mundys' equity investments in Getlink SE.

things, assumptions of different natures subject to risks and uncertainties arising from the current economic environment, relating to future events and actions of Directors and the management of the Issuer or its subsidiaries that may not necessarily occur, as well as events, actions, and other assumptions including those related to the performance of the main economic and financial variables or other factors that affect their development over which the Directors and management of the Issuer and its subsidiaries do not have, or have limited, control. In addition, the Issuer may be unable to monitor and control effectively the implementation of any business or strategic plan by its subsidiaries. See also “ – *The Group may engage in acquisitions, investments and disposals from time to time*”.

Therefore, the Group is exposed to the risk that it may be unable to implement part or all of its growth strategy or that it may be unable to implement part or all of its growth strategy within the timeframe expected, that the assumptions on which the Group based its forecasts and growth strategy may be incorrect or that the growth strategy may not achieve the results expected. Factors that may cause actual results to differ materially from those in the plans prepared by the Issuer include (but are not limited to) the failure to manage changes in legislative and regulatory framework applicable to the business in which the Group operate (see also “ – *The Group is subject to extensive laws and regulations and exposed to changes in law.*”), traffic trends influenced in turn by macroeconomic events (e.g. movements in gross domestic product), global/local crises (e.g., financial, health, etc.), the possibility of divestitures or disposals, the transfer of certain assets and networks upon termination, revocation or non-renewal of concessions, the inability to achieve reductions of fixed costs including through cost synergies from the Group’s acquisitions, the impossibility to adequately implement the capex plan, the inability to have available financial sources of funding and also risks related to climate change (see also, “ – *The Group could be exposed to losses related to environmental, health & safety and social factors.*”).

Any such failure to develop, revise or implement the growth strategy or monitor the actions taken by the Group’s subsidiaries in a timely and effective manner could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group may not be able to implement its business strategies or expand into international growth markets and manage future growth effectively.

As of 31 December 2023, the Group operates 46 motorways concessions and 5 airports in 11 countries and provides tolling and mobility services in 24 countries. The revenues and market values of companies within the Group are exposed to risks inherent to the countries and business sectors in which they operate. The operations in some of the countries where the Group is present (including the Group’s operations in emerging markets) may be exposed to risks related to investments and business, such as:

- political and macroeconomic instability, including the risks arising from the ongoing conflicts;
- fluctuations in local economic growth;
- changes in inflation rates;
- changes to the related legislative and/or regulatory framework (e.g. renewals /reviews of concessions imposing less favourable conditions than existing ones, the termination for convenience of concession agreements);
- devaluation, depreciation or excessive valuation of local currencies;
- foreign exchange controls or restrictions on profit repatriation;
- changes in interest rates;
- changes in economic and tax policies;
- instances of fraud, bribery or corruption;
- social conflict; and

- climate change.

The Issuer cannot guarantee that the Group will not be subject to material adverse developments with respect to its international operations or that any insurance coverage or hedging transaction it has implemented will compensate it for any losses arising from such risks.

Furthermore, international expansion is not always successful and has inherent risks and costs. Any investments in foreign or domestic companies may result in increased complexity of the operations of the Group. The process of integration may require additional investments and expenses from the due diligence and preliminary activities related to new investment initiatives through to the post-deal integration phase. In particular, difficulties or failure in the assimilation or integration of the operations, services, corporate culture, quality standards, policies and procedures, failure to achieve expected synergies, and adverse operating issues that are not discovered prior to acquiring the relevant concession, as well as insufficient indemnification from the selling parties for legal liabilities incurred by the acquired companies prior to the acquisitions and the incurrence of significant indebtedness, could all make international expansion less successful. See also “– *The Group may engage in acquisitions, investments and disposals from time to time.*”. Furthermore, to the extent the Group or other third parties underestimated or failed to identify risks and liabilities associated with the acquisition of a new business or asset, the Group may incur, directly or indirectly, unexpected liabilities, such as defects in title, an inability to obtain authorisation approvals or licenses enabling the Group to use the underlying infrastructure as intended, environmental, structural or operational defects or liabilities requiring remediation as well as adverse effects on the Group’s reputation (see also “– *The Group could be adversely affected by events that might cause reputational damage*”). Also the diversion of the management team’s attention from their other responsibilities as a result of the need to deal with integration issues could also have an adverse effect on the Group’s business. In addition, the Group may have difficulty in hiring experts or qualified executives or employees willing or able to work in the countries in which it wishes to expand. The Group is exposed to these risks in all of its operations to some degree, and such exposure could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group may engage in acquisitions, investments and disposals from time to time.

The current strategy of the Group allows for an expansion of its presence in the infrastructural sector and related businesses in OECD countries, with a focus on Western Europe, North America and Latin America, subject to compliance with the M&A, dividend, financial and responsible investment policies of the Group. As a result the Group may from time to time engage in acquisitions and investments of interests (such as, *inter alia*, the acquisition from Siemens Mobility of a 100% stake in Yunex Group completed on 30 June 2022, the acquisition of a 56.76% stake in Blueridge Transportation Group from the group controlled by Actividades de Construcción y Servicios SA completed in December 2023 (see also “– *Business description of the Group – Business segments – Motorways - Business of the Abertis Group – Recent Developments in connection with the Abertis Group – SH-288 highway – Termination for convenience*” below), the awarding of the bid for the privatisation of four toll roads in Puerto Rico and the acquisition of the whole share capital of Autovia del Camino S.A. completed in February 2024) as well as disposals of interests (such as, *inter alia*, the disposal of Mundys’ entire stake in ASPI on 5 May 2022 and the sale of the investment (equal to 50%+1 share) in AB Concessões SA and in its direct holding company Autostrade Concessões e Participações Brasil Limitada completed in May 2024) and there can be no assurance that the Group will identify suitable acquisition opportunities, obtain the financing necessary to complete and support such acquisitions or investments, acquire businesses on satisfactory terms, or that any acquired business will prove to be profitable. In addition, acquisitions, investments and divestments involve a number of risks, including possible adverse effects on the Group’s operating income, risks associated with unanticipated events or liabilities relating to the acquired assets or businesses which may not have been disclosed during due diligence investigations, difficulties in the assimilation of the acquired operations, technologies, systems, services and products, risks arising from contractual conditions that are triggered by a change of control of an acquired company and legacy risks arising after the disposal of certain investments. For example, in connection with the disposal of ASPI, the Issuer has been notified notices of claim from the

purchaser in connection with ongoing litigation involving ASPI, as well as the contractual representation and warranties granted provided to such purchasers. For additional information, see “ – *Risks Relating to the Disposal of ASPI – Risks related to the provision of indemnities in the share purchase agreement relating the sale of the entire stake in ASPI*” and “*Business Description of the Group – Material Agreements – Relevant legal proceedings which may activate special indemnities under the Agreement*”. The occurrence of such circumstances could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group’s partnership operations could be adversely affected by its reliance on its partners’ financial condition and performance.

Most of the Group’s activities are conducted through partnerships, where the Group has less than a 100% interest in a particular entity with the remaining ownership interest being held by one or more third parties. The management and control of such entity may entail risks associated with multiple owners and decision makers, including the risks that:

- investment partners become insolvent or bankrupt, or fail to fund their share of any costs which might be incurred, resulting in the Group having to pay the investment partner’s share or bear the risk of losing the particular concession or other rights associated with the activity;
- investment partners have economic or other interests that may be inconsistent with the Group’s interests and may be in a position to take or influence actions contrary to the Group’s interests and plans (e.g. including veto powers of minority shareholders in companies controlled by the Issuer), which may create impasses on decisions and affect the Group’s ability to implement its strategies and/or dispose of the concession or other rights associated with the activity or entity;
- disputes may develop between the Group and investment partners, resulting in the Group incurring litigation or arbitration costs and distracting the Group’s management from its other main strategic, financial and operating priorities;
- investment partners may not have enough liquid assets to make cash advances that may be required in order to fund operations, maintenance and other expenses related to the particular infrastructure, which could result in the loss of current or prospective opportunities and may otherwise adversely affect the operation and maintenance of the infrastructure;
- an investment partner may breach the terms of a concession agreement, which may cause a default under such agreement and result in liability for the Group;
- the Group may, in certain circumstances, be liable for the actions of investment partners;
- where the Group has a minority stake, it must negotiate suitable arrangements with each of its proposed investment partners, which may prove to be time-consuming and could restrict the Group’s ability to act quickly or unilaterally;
- a default by an investment partner may constitute a default under the financing documents relating to the particular concession, which could result in acceleration of the relevant debt; and
- negative publicity or damaged reputation of relevant partners may limit access to funding sources for the relevant entity.

The occurrence of such circumstances could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Risks relating to market conditions.

The Group holds investments in both listed companies and unlisted companies. The value of the investments in listed companies is based on their market prices (which are subject to fluctuations due to changes in markets factors, such as share prices, interest rates, exchange rates and their volatilities, as well as changes in the credit spreads of the relevant issuer), whereas for investments in non-listed companies some of the methods used to

value the shareholdings are based on discounted cash flow or on valuation multiples of comparable listed companies. Therefore, changes in prices and market conditions can negatively impact the value of the financial assets held by the Group. A substantial weakening of equities and/or bond markets or changes in interest rates and/or currency exchange rates could negatively impact the value of the Group's investments. Furthermore, the operating costs which the Group incurs cannot be reduced with the same speed as a fall or unabated decline in financial markets and, in the case of inadequately efficient cost management, this could negatively impact the financial results of the Group. These circumstances could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group could be adversely affected by events that might cause reputational damage.

Various issues may give rise to reputational risk and cause harm to the Group. Reputational risk denotes the danger that an event or several successive events might cause reputational damage (public opinion), which might limit the Group's current and future business opportunities and activities (potential success) and thus lead to indirect financial losses (such as a reduction in investment opportunities, revenues, availability and cost of financing) or direct financial losses (such as penalties and litigation costs, as to which see also “– *The Group is subject to legal proceedings which could adversely affect its consolidated revenues, increase costs and cause reputational damages*” and “– *If an individual within the Group, or a third party acting on behalf of any Group entity, commits certain crimes, the Issuer or that Group entity may be subject to quasi-criminal liability and may face the application of sanctions*”). Damage to the Group's reputation or image could result in a direct effect on the financial success of the Group.

The issues that could give rise to reputational risk include catastrophic events on the Group's infrastructure and climate change related events (see also “– *Inspection and maintenance activities may be insufficient to detect and prevent structural problems in the infrastructure under management, and the Group's infrastructures may also be exposed to geotechnical instability*” and “– *The Group could be exposed to losses related to environmental, health & safety and social factors.*”), reputational loss for the Group in general, legal and regulatory requirements, antitrust and competition law issues, ethical issues, environmental issues, money laundering and anti-bribery laws, data protection laws, information security policies, or problems with products and services provided by the Group or by third parties on its behalf. Failure to address these issues appropriately could also give rise to additional legal risk, which could adversely affect existing litigation claims against the Group and the amount of damages asserted against the Group or subject it to additional litigation claims or regulatory sanctions. Any of the above factors could have a material adverse effect on the brand and reputation of the Group, which, in turn, could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

As the Group operates in many different countries with different cultures and jurisdictions, the way in which the Group chooses to address any issues faced by the Group may differ depending on the location. Furthermore, there can be no assurance that issues which may be positively received in certain jurisdictions would be positively received in other jurisdictions and the Group may suffer reputational loss as a result of any decisions made by the Group to address any such issues, which could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

External risks

Risks related to the impact of the global macroeconomic conditions.

The performance of the Group is influenced by national and international macroeconomic conditions and the conditions of the financial markets in general, and in particular, by the stability and trends in the economies of the geographical areas in which the Group conducts its activity.

A number of uncertainties have occurred in recent years and, to some extent, remain in the current macroeconomic environment, namely: (a) the COVID-19 virus health emergency's impact on global growth and individual countries; (b) the ongoing conflict between Russia and Ukraine following which countries and

multinational organizations such as the United States, the European Union, the United Kingdom, Switzerland, Canada, Japan, and Australia have announced and implemented sanctions of various types against Russia; (c) the boarder tensions in the Middle East, including those related to the continuing conflict between Israel and the Palestinian territory of Gaza which began on 7 October 2023 as well as the crisis in the Red Sea which has resulted in the blockage of the Suez canal; (d) trends in the economy and the prospects of recovery and consolidation of the economies of countries like the US and China, which have shown consistent growth in recent years; (e) the outcome of the commercial dispute between the US and China, which could have an effect on international trade and therefore global production; (f) the increase in financial instability as a result of high leverage in the global economy and sustained higher interest rates; (g) future development of the European Central Bank's ("ECB") monetary policy in the Euro area, the Federal Reserve System's monetary policy in the Dollar area, and the policies implemented by other countries aimed at promoting competitive devaluations of their currencies; (h) the sustainability of the sovereign debt of certain countries and related recurring tensions on the financial markets; and (i) risks related to an energy-fuelled inflation shock which resulted in lower economic growth in the Eurozone with some of its main economies, such as Germany, entering into recession during 2023. For additional information on how the inflation is linked with the tariff mechanics applicable to the Group's operations, see "*Business Description of the Group – Business Segments – Motorways*" and "*Business Description of the Group – Business Segments – Airports*" and "*Risks Relating to the Group's Main Subsidiaries and their Operations – The Group does not have discretion to increase the tariffs*."

In addition, the global economy, the condition of the financial markets, adverse macroeconomic developments in the Group's primary markets and any future sovereign debt crisis in Europe or the other jurisdictions in which the Group operates may all significantly influence the Group's performance. The Group's earning capacity and stability can be affected by the overall economic situation and by the dynamics of the financial markets.

All of these factors, in particular in times of economic and financial crisis, could result in an increase in the Issuer's and/or the Group's borrowing costs, in a reduction of, or reduced growth in the Issuer's and/or the Group's ordinary business, in the decline in the Issuer's and/or the Group's asset values, which could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group is exposed to country risks.

As of 31 December 2023, the Group operates in several countries, some of which classified as emerging or developing countries, such as Argentina, Brazil, Chile, Mexico, Puerto Rico and India. Operations in these countries are subject to the customary risks of operating in emerging and developing markets, which include potential political, regulatory, and economic uncertainty, application of exchange controls, reliance on foreign investment, nationalization or expropriation, crime and lack of law enforcement, political insurrection, external interference, currency fluctuations, changes in government policy. Financial risks of operating in emerging and developing markets also include risks of liquidity, inflation, devaluation, price volatility, currency convertibility and country default resulting from significant deficits as well as other factors. These circumstances could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Financial risks

The Group's leverage may have significant adverse financial and economic effects on the Group.

As at 31 December 2023, the Group had €39,085 million of gross financial indebtedness (of which €26,245 of bond issues and €12,840 of medium/long-term borrowings) out of which €3,648 million was directly attributable to the Issuer. Furthermore, as at 31 December 2023, the Issuer has the availability of €470 million available cash and committed credit facilities for €1,500 million (increased to €2,000 million in March 2024, currently due to expire in July 2027). The Group's leverage could increase the Group's vulnerability to a downturn in its business, as experienced with the Covid-19 pandemic and the enactment of containment measures by national governments in the countries in which the Group operates, or economic and industry conditions and have significant adverse consequences, including but not limited to:

- reducing its flexibility to (i) respond to downturns in its business or economic and industry conditions or (ii) plan for, or react to, changes in the Group's business, the competitive environment and the industry;
- limiting the Group's ability to obtain additional financing to fund its existing activities (such as working capital and capex) or grow the Group's business (such as investment plans, strategic acquisitions, business opportunities) or other corporate requirements;
- placing the Group at a competitive disadvantage compared to its competitors that have less debt in relation to cash flow; and
- requiring the dedication of a substantial portion of the Group's cash flow from operations to the payment of principal of, and interest on, the Group's indebtedness, which would make such cash flow unavailable to fund the Group's operations, capex, investment plans, business opportunities and other corporate requirements.

Any of these or other consequences or events could have a material adverse effect on the Group's ability to satisfy its debt obligations, including its obligations under the Notes. The Issuer's ability to service its indebtedness will depend on its future performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors. Many of these factors are beyond the Issuer's control. If the Issuer cannot service its indebtedness and meet its other obligations and commitments, it might be required to refinance its debt or to dispose of assets to obtain funds for such purpose. The Issuer cannot assure that refinancings or asset disposals could be effected on a timely basis or on satisfactory terms, if at all, or would be permitted by the terms of the Issuer's debt instruments. This could have a material adverse effect on the Group's business, financial condition and results of operations or on the Issuer's ability to service or otherwise make payments on the Notes.

In addition, a portion of the Group's indebtedness, including certain loan agreements and bonds of the Issuer and the other Group's companies, requires compliance with certain financial covenant ratios, negative pledge provisions and/or early repayment clauses in line with international market practice. Although borrowers under the Group's indebtedness monitor the compliance with such covenants, such borrowers may be unable to comply with them; in such event, the borrowers may be required to seek consents, obtain waivers, provide additional equity to cure defaults or repay such indebtedness; otherwise, the failure to comply with such covenants may result in the relevant borrower being in breach of the terms of such financial indebtedness, which may ultimately trigger a default under the relevant contractual documentation and, in turn, a cross-default provisions under the terms of the Group's other outstanding indebtedness, including the Notes.

The Group may incur substantial additional indebtedness in the future, which could mature prior to the Notes or could be senior to the Notes or could be secured (subject to negative pledge provision, see "*Conditions of the Notes — Negative Pledge*"). The incurrence of additional indebtedness would increase the aforementioned leverage-related risks.

The Group is subject to liquidity risk and requires a significant amount of cash to service its debt, and its ability to generate sufficient cash depends on many factors beyond its control.

Liquidity risk is identified as the lack of, inadequate or untimely ability to meet financial needs (early repayment of financial debts or debt refinancing, operational needs, new investments or exposure under guarantees) with tensions on the availability of liquidity.

The Group's ability to make payments, and to refinance its debt and to fund working capital and capex, will depend on its future operating performance and ability to generate sufficient cash. This depends, to some extent, on general economic, financial, competitive, market, legislative, regulatory and other factors, many of which are beyond the Group's control, as well as the other factors discussed in these "*Risk Factors*".

No assurances can be given that the businesses of the Group will generate sufficient cash flows from operations or that future debt and equity financing will be available in an amount sufficient to enable the Group to pay its debts when due, including the Notes, or to fund other liquidity needs.

If the Group's future cash flows from operations and other capital resources (including borrowings under existing or future credit facilities) are insufficient to pay its obligations as they mature or to fund liquidity needs, the Group may be forced to:

- reduce the distribution of dividends paid to the Issuer by its subsidiaries (see also “– *The Issuer is primarily a holding company that does not have revenue-generating operations of its own, and is dependent on receiving dividends from its operating subsidiaries to make payments on the Notes or meet its other obligations. Amongst these subsidiaries, the Abertis Group represents substantially all of the Group's revenues and EBITDA. Such operating subsidiaries may not be able to make such payments in some circumstances or making such payments may result in increased costs for the Group*”);
- reduce or delay capex and/or inorganic growth;
- sell certain business assets;
- obtain additional debt or equity capital or restructure or refinance all or a portion of its debt, including the Notes, on or before maturity (see also, “– *The Group may not be able to obtain further financing on satisfactory terms or at all*”); or
- seek consents or obtain waivers from the relevant creditors in connection with financial covenants.

No assurances can be given that the Group would be able to accomplish any of these alternatives on a timely basis or on satisfactory terms, if at all. In addition, the terms of the Group's debt, including the terms and conditions of the Notes, limit, and any future debt may limit, the ability of the Group to pursue any of these alternatives. Furthermore, the terms of certain of the Group's loan agreements contain restrictive covenants and no assurances can be given that these covenants will not constrain the Group's ability to raise additional financing in the future. Finally, the terms of certain of the Group's loan agreements contain change of control provisions in respect of Mundys, the occurrence of which could result in early termination of the relevant financing agreement. The occurrence of any of the above could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group may incur additional indebtedness, including at the level of its subsidiaries, which could increase its risk exposure from debt.

The Group may incur additional indebtedness, which could increase the risks associated with the Group's indebtedness. Mundys' subsidiaries may also be able to incur substantial additional indebtedness in the future, further increasing the risks associated with the Group's leverage. If any of the Issuer's subsidiaries incur additional indebtedness, the holders of that debt will be entitled to share ahead of the holders of the Notes in any proceeds distributed in connection with any insolvency, liquidation, reorganisation, dissolution or other winding-up of such subsidiaries. If the Group incurs additional indebtedness, the related risks that the Group currently faces, as described above and elsewhere in these “*Risk Factors*”, could intensify. Any of these developments could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group may not be able to obtain further financing on satisfactory terms or at all and therefore may be subject to financial market risk

Financial market risk regards the risk arising from failure to assess, or to assess in an adequate and timely manner, financial market trends (including in relation to sustainability requirements) with an impact during the issuance of bonds or the arrangement of bank borrowings.

The Group may need to refinance its existing debt and may find it difficult or costly to refinance indebtedness as it matures, particularly if interest rates are higher when the indebtedness is refinanced. There can be no guarantee that the Group will be able to obtain further financing on acceptable terms or at all, which could adversely affect the implementation of its business strategy. The Group's ability to secure financing depends on several factors, many of which are beyond its control, including general economic conditions, adverse effects

in the debt or capital markets, the availability of funds from financial institutions and monetary policy in the markets in which it operates. The availability of financing and the terms thereof will also depend on the Group's and the lenders' estimate of the stability of the relevant concessions' expected cash flows and the expected evolution of the value of the relevant concessions.

In addition, there is an international consensus that, in order to determine credit quality, the ratings provided by rating agencies are to be taken into account. This leads to the risk that following a deterioration in the rating of the Issuer or the Group, especially below investment grade, all financed transactions would entail an increase in financial costs which could even lead to the inability to enter into transactions if the Group is unable to obtain financing. See also “ – *The current credit ratings of the Group, in particular of the Issuer, Abertis and ADR, and any future credit rating downgrade may have an impact on their indebtedness and ability to fund its investment plan*”.

If the Group is unable to obtain financing on commercially acceptable terms or at all, or delays are incurred in obtaining financing, this may impair the Group's ability to make investments and leverage its resources, which may have a material adverse effect on the Group's business, financial condition, results of operations and prospects and the ability of the Issuer to meet its payment obligations under the Notes.

The current credit ratings of the Group, in particular of the Issuer, Abertis and ADR, and any future credit rating downgrade may have an impact on their indebtedness and ability to fund its investment plan.

Credit ratings affect the availability, the cost and other terms of financing (or refinancing). Rating agencies regularly evaluate the Group, and their credit ratings of the Group's default rate and existing capital markets debt are based on a number of factors.

Under certain financing arrangements of the Issuer and the Group, a rating downgrade may result in an increase in the margin applicable to the interest rate of such financing arrangements.

Credit ratings assigned to debt issued by Mundys reflect the structural subordination of such debt as compared to indebtedness raised by the Issuer's subsidiaries. Nonetheless, Mundys' credit ratings are significantly influenced by the credit rating of its main subsidiaries, such as Abertis and ADR. Any future downgrade of Abertis or ADR, which constitutes the largest subsidiary of the Issuer (see “– *The Issuer is primarily a holding company that does not have revenue-generating operations of its own, and is dependent on receiving dividends from its operating subsidiaries to make payments on the Notes or meet its other obligations. Among these subsidiaries, the Abertis Group represents substantially all of the Group's revenues and EBITDA. Such operating subsidiaries may not be able to make such payments in some circumstances or making such payments may result in increased costs for the Group*”) may, by itself or in connection with other adverse factors, limit the funding options of the Group and result in less favourable terms for such funding, which may, in turn, impair the Group's ability to fund its planned investments and, ultimately, service its debt.

In addition, according to Standard & Poor's and to Moody's rating methodologies, the sovereign rating of the country of incorporation remains a significant factor in the credit rating assigned to corporations; as a result, there can be no assurance that credit rating downgrades of the Republic of Italy will not occur and, if they do occur, that they would have no impact on the Issuer's ratings. The foregoing may occur also with respect to the countries of incorporation of the Group's companies and, in turn, impact on the Mundys' rating.

The occurrence of any of these events could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group is exposed to counterparty risk.

The Group is exposed to counterparty risk (such as customers, suppliers, financial institutions, partners and public administrations).

Counterparty risk can arise from a default on the contractual payment obligations by failing to make payments on time or at all (*i.e.*, credit risk). Business activity which requires a prior investment in assets, such as toll roads and airports, is especially sensitive to default risk because, in the event of default, such investment might

not be recoverable. The default of the Group's counterparties could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

In other cases, the Group's counterparties (e.g. suppliers) are not able to meet the Group's financial, technological and/or professional, organisational or ethical requirements, or are not able to guarantee (i) the execution of the works and services requested and/or the delivery of supplies, in line with the quality and performance costs and timing also affected by the global macroeconomic conditions, or (ii) the protection of the environment, or (iii) the promotion and compliance with the applicable legislation also related to human rights, health and safety conditions in the workplace. The occurrence of such events may have impacts on strategic procurement and/or on business operations and continuity and/or on reputation. See also “– *The Group could be adversely affected by events that might cause reputational damage*”.

The Group is exposed to interest rate risk.

Interest rate risk regards the failure to manage, or to manage in an adequate and timely manner, movements in interest rates, with an impact on the level of borrowing costs, profitability and on the value of financial assets and liabilities. Interest rate risk generally takes two forms: (i) cash flow risk, linked to financial assets and liabilities, with cash flows indexed to a market interest rate; and (ii) fair value risk, *i.e.* the risk of losses deriving from an unexpected change in the value fixed rate financial assets and liabilities following an unfavourable shift in the market yield curve.

A portion of the Group's indebtedness bears interest at variable rates, including inflation-linked instruments or liabilities denominated in currencies indexed to inflation (*i.e.* *Chilean unidad de fomento* and *Mexican unidad de inversion*). Although the Group has, to date, hedged a significant portion of its interest rates exposure under such indebtedness, an increase in the interest rates on the Group's indebtedness may reduce its ability to repay the Notes and its other indebtedness and to finance operations and future business opportunities.

As at 31 December 2023, 68.4% of the Group's indebtedness bore interest at a fixed rate or a rate fixed through hedges. Interest rates are highly sensitive to many factors beyond the Group's control, including central banks' policies, inflationary pressures, international and country-specific economic and political conditions, disruption to financial markets or the availability of bank credit. Any increases in interest rates in the Eurozone and in other jurisdictions where the Group has floating rate debt will require the Group to use a greater proportion of its revenues to pay interest expenses.

As at 31 December 2023, in terms of interest rate risk, an unexpected 1% rise in market rates would have resulted in: (a) a negative impact on the statement of profit or loss, totalling €20 million, due to an increase in the cost of debt (€81 million, with the impact limited by the fact that most of the Group's debt is fixed rate), partially offset by an increase in interest earned on average liquidity during the year (€61 million), excluding the cash used for the upstream loan of January 2023, amounting to €8,200 million, from the analysis; (b) in terms of movements in the fair value of derivatives, a negative impact on the equity of €174 million and on profit and loss of €8 million.

An increase in the interest rates of the Group's indebtedness may reduce its ability to repay the Notes and its other indebtedness and to finance operations and future business opportunities. The financial management of the Group regularly reviews market conditions and from time to time may adjust the balance of interest rate exposure in its debt profile. However, there can be no assurance that this interest rate management policy will adequately protect the Group against the risk of increased interest rates, which could be particularly damaging for the Group due to its high level of net financial debt equal to €32,119 million as at 31 December 2023. In addition, the Group is subject to the risk that the instruments implemented by the Group to hedge its interest rate exposure may be ineffective as a result of changes to underlying conditions, which in turn may result in fair value losses recorded by the Group. There can be no assurance that future interest or inflation rate fluctuations will not have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group is exposed to currency risk.

Currency risk regards the failure to hedge or to hedge in an adequate and timely manner against fluctuations in exchange rates with an impact on investments and dividends, trading and financial assets and liabilities denominated in currency.

In the year ended 31 December 2023 approximately 42,0% of the Group's revenues was in currencies other than the euro, such as the Brazilian real, the Chilean peso, the Mexican peso, the Argentine peso, the U.S. dollar, the Polish zloty and the Indian rupee. Foreign exchange rate risk arises primarily from: (i) the Group's international presence, through its investments and businesses, in countries that use currencies other than the euro; (ii) debt denominated in currencies other than that of the country where the business is conducted or the home country of the company incurring such debt; and (iii) trade receivables or payables in a foreign currency to the currency of the company with which the transaction was registered.

As at 31 December 2023, in terms of currency risk, a 10% shift in exchange rates would have resulted in: (a) a reduction in EBITDA of €204 million; (b) a positive impact due to a reduction in financial expenses of €56 million; (c) a change in the fair value of derivatives with a negative impact on profit or loss of €32 million in addition to a €4 million impact on equity; (d) a reduction in gross debt after cash with an impact on the translation reserve amounting to €803 million.

In order to mitigate these risks the Group enters into foreign exchange derivatives (including cross-currency swaps, with notional values and maturities equal to those of the underlying financial liabilities, qualifying as cash flow hedges) to cover its exposures to indebtedness denominated in foreign currencies and the related cash flows. However, any current or future foreign exchange derivatives entered into by the Group may not adequately protect its operating results from the effects of exchange rate fluctuations. In this respect, the Group has a total fair value negative position of €166 million on outstanding derivatives hedging currency risk as of 31 December 2023. Furthermore, the Group is subject to the creditworthiness of, and in certain circumstances early termination of the hedging agreements by, hedge counterparties. There can be no assurance that future exchange rate fluctuations will not have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Liquid investment risk

The Group may face risks associated with the investment of liquidity which regards the failure to assess, or to assess in an adequate and timely manner, the risk of a counterparty default and the risk of movements in the value of liquid investments. There can be no assurance that the forgoing factors will not have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Financial planning risk

The Group may face financial planning risk arising from the failure to plan for and define, or to plan and define in an adequate and timely manner, an entity's financial needs and balance between debt and equity, with a negative potential impact on the operating results, financial position and cash flows and on the sustainability of the business of the Group and the ability of the Issuer to meet its payment obligations under the Notes.

Compliance risks

The Group is subject to extensive laws and regulations and exposed to changes in law.

The Group is generally exposed to extensive laws and regulations, including tax laws, environmental laws, regulations related to occupational health and safety, and anti-corruption, sanctions and anti-bribery laws, privacy and data protection, which are subject to changes. The Issuer has adopted several governance and compliance procedures (including with respect to compliance with market abuse rules, internal dealing, privacy and data protection, compliance with Italian securities legislation), however such procedures may not be sufficient to prevent failures that result in regulatory enforcement actions, sanctions, reputational harm and fraud (see also “ – *The Group could be adversely affected by events that might cause reputational damage*”). If the

Group cannot prevent such failures, it could have a material adverse effect on its business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Additionally, at the operational level, individual employees may not comply with the Group's policies, guidelines and code of ethics and as a result may cause the Group to incur compliance costs and cause reputational harm and any such event could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes. See also “ – *The integrity, reliability and efficiency of the Group's internal controls and procedures may not be guaranteed, and the Group may suffer damage because of the Group's employees and agents acting outside its policies and procedures.*”.

Furthermore, certain operations of the Group, such as the payment services provided by the Telepass Group, are subject to stringent sectorial regulatory regimes such as those set out under the payment services and the anti-money laundering directives as well as data protection rules, and supervision by external regulators, such as the Bank of Italy. The cost of complying with such laws and regulations is substantial.

The legal and regulatory framework applicable to the Group and, in particular to the concessions held and the operations carried out by the Abertis Group, the Overseas Motorways, the ADR Group and the ACA Group, is subject to changes and it is not possible to foresee the effect that future changes in the legal and regulatory framework could have on the Group's business and on the sectors in which it operates. Furthermore, implementing changes in laws and regulations may require the Group to incur special or additional expenses. In particular, costs to comply with any changes to current regulatory provisions, both initially and on an on-going basis, may be especially high, and such changes may take a substantial amount of time to implement. See also paragraph headed “*Abertis Group – France – Sanef and Sapn - new taxation on long-distance transport operators*” in section entitled “*10.5 Significant Events*” of the “*Mundys' Consolidated Financial Statements as of and for the year ended 31 December 2023*” of the 2023 Integrated Annual Reports as amended by paragraph “– *Business description of the Group – Legal proceedings*” below.

The Group could be subject to fines and reputational harm, which could have a material adverse effect on its business. Any of these developments could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

If an individual within the Group, or a third party acting on behalf of any Group entity, commits certain crimes, the Issuer or that Group entity may be subject to quasi-criminal liability and may face the application of sanctions.

Legislative Decree No. 231 of 8 June 2011 (“**Decree 231**”) allows Italian corporate entities to implement compliance procedures, also known as the “organisational, management and control model under Decree 231” (“**Model 231**”) to defend themselves against the quasi-criminal liability that may attach to them under Decree 231 for crimes committed in their interest or to their advantage by individuals who held the position of, *inter alia*, representatives, directors or managers of the corporate entities. In particular, crimes which could cause a corporate entity's quasi-criminal liability pursuant to Decree 231 include, among others, those committed when dealing with public administrations (including bribery, misappropriation of public contributions and fraud to the detriment of the state, corporate crimes, environmental crimes and crimes of manslaughter or serious injury in violation of provisions on health and safety at workplace, anti-money laundering). Model 231 provides a defence from quasi-criminal liability to corporate entities that have implemented it in compliance with Decree 231 and have appointed an independent officer or body, such as a supervisory board (the “**Supervisory Board**”) (*Organismo di Vigilanza*), to supervise the Model 231.

As of the date of this Base Prospectus, the Issuer and its principal Italian subsidiaries have adopted Model 231, while the main Group's foreign companies have control policies and procedures in accordance with the applicable law.

The adoption of Model 231 by a company does not in itself preclude the application of sanctions under Decree 231, and failure to update Model 231 increases the risk that quasi-criminal liability under Decree 231 may attach. As of the date of this Base Prospectus, SPEA Engineering (a Group entity) is involved in one

proceedings under Decree 231 in relation to some crimes which were allegedly committed by individuals who had, at the time, a functional relationship with the same company. See “*Business Description of the Group – Legal Proceedings*”.

The Issuer cannot exclude that proceedings pursuant to Decree 231, also different from the ones already described in the paragraph “*Business Description of the Group – Legal Proceedings*”, are, or will be, initiated against it or any of its Group entities or against former Group entities.

A quasi-criminal proceeding relating to alleged crimes subject to Decree 231, even if ultimately such proceeding discharges the relevant Group entity, could be costly and could divert management’s attention away from other aspects of its business. Decree 231 provides for the application of significant financial penalties, and in some cases the revocation of licences or disqualification from doing certain activities, adverse publicity and reputational harm (see also “– *The Group could be adversely affected by events that might cause reputational damage*”) that could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Furthermore, anti-bribery laws and regulations have been adopted in countries where the Group conducts its business. The implementation of anti-corruption models and ethics codes by the Group’s companies may not completely prevent the possible reckless or criminal acts committed by employees, agents, partners, subcontractors or suppliers worldwide. Should the abovementioned models and procedures fail to provide adequate protection from violations of anti-bribery laws it cannot be excluded that the Group could suffer from criminal or civil penalties or other sanctions, including fines, denial of export privileges, injunctions, asset seizures, debarment from government contracts, termination of existing contracts, revocations or restrictions of licenses, criminal fines or imprisonment of key personnel. Such violations could also negatively impact the Group’s reputation (see also “– *The Group could be adversely affected by events that might cause reputational damage*”) and, consequently, the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group is subject to legal proceedings which could adversely affect its consolidated revenues, increase costs and cause reputational damages.

As part of the ordinary course of business, companies within the Group are subject to a number of administrative, criminal, civil, commercial, tax and labour-related proceedings, including *inter alia* proceeding with the grantors of the concessions held by the Group’s companies (such as the dispute in Spain between ACESA and the grantor in relation to works on the AP-7 section). The Group is currently party to various legal proceedings, including criminal proceedings. See “*Business Description of the Group – Legal Proceedings*” and “– *The Group may engage in acquisitions, investments and disposals from time to time*”.

In addition, the Group may be subject to legacy litigation risks arising after the disposal of certain investments. For example, the share purchase agreement relating to the disposal of Mundys entire stake in ASPI provides that “special indemnities” may become payable by Mundys to the Consortium (as defined below) in relation to certain disputes pre-existing the disposal of ASPI. For additional information, see “– *Risks Relating to the Disposal of ASPI – Risks related to the provision of indemnities in the share purchase agreement relating the sale of the entire stake in ASPI*” and “*Business Description of the Group – Material Agreements – Relevant legal proceedings which may activate special indemnities under the Agreement*”.

As at 31 December 2023, the Group had accrued a €407 million provision in its financial statements for other risks and charges. To the extent the Group is not successful in some or all of these matters, or in future legal challenges (including potential class actions or legal proceedings which the Group deems without merit or for which the potential Group liability cannot currently be estimated), the Group could experience an increase in costs and an exposure to reputational damages (see also “– *The Group could be adversely affected by events that might cause reputational damage*”), which, in turn, could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The integrity, reliability and efficiency of the Group's internal controls and procedures may not be guaranteed, and the Group may suffer damage because of the Group's employees and agents acting outside its policies and procedures.

The Group's operations rely on policies, guidelines, internal controls and procedures that regulate certain aspects of the business, including, among others, strategic, finance, operational and compliance risks. If the internal controls and procedures are not adequately designed to meet the needs of the Group's business, the Group may need to incur further costs to redesign and implement new controls or may encounter instances of embezzlement and fraud or to remedy the consequences of system failures. The process by which the Group's internal controls and procedures are implemented may be inadequate to ensure full compliance with such controls and procedures, leaving the Group vulnerable to inconsistencies and failures that could have a material adverse effect on its business, financial condition and results of operations or on its ability to service or otherwise make payments on the Notes. This risk may be increased as a result of the frequent acquisitions and extraordinary transactions carried out by the Group. If the Group fails to maintain or fails to cause the acquired companies to adopt and maintain adequate internal controls the Group's financial statements may not accurately reflect the financial condition of the Group.

The Group may suffer damage resulting from employees' or agents' misconduct, operational errors or negligence, including damage relating to acts or omissions of employees or agents engaged by the Group. Such misconduct, errors or negligence may include, for example, inadvertent or careless mistakes or intentional acts or misrepresentations by employees or agents, breaches of applicable laws or regulations in the course of their duties, breaches of operational guidelines or other improper acts. The systems designed to prevent and mitigate these risks may fail, and if the Group fails to train and manage its employees properly, these internal controls and procedures may be ineffective. Any misconduct, operational errors or negligence resulting from the Group's employees or agents could lead to reputational damage, regulatory action and financial costs, or penalties that may not be covered by insurance or by another party (see also “ – *The Group could be adversely affected by events that might cause reputational damage*”). Any of these developments could have a material adverse effect on the Group's business, financial condition and results of operations or on its ability to service or otherwise make payments on the Notes.

Operational / business continuity risks

The Group is exposed to risks relating to cyber-crime.

The Group relies on internal and outsourced IT systems to manage its business and operations and to carry out services *vis-à-vis* its stakeholders (such as governments, regulators, clients). The Group is exposed to the risk that functional problems in its technological and IT architecture could cause an interruption in its business, as well as the risk of unauthorized access to IT systems or the possible success of external cyber-attacks, which may result in business continuity risk, damage, loss, removal or unlawful disclosure of the data managed by the Group which could expose the Group to loss of revenues, the incurrence of additional costs for restoration measures, financial penalties and fines and, in turn, may harm its image or reputation *vis-à-vis* its stakeholders (see also “ – *The Group could be adversely affected by events that might cause reputational damage*”).

Although the Group regularly maintains and updates its IT systems, and within its IT security framework it has adopted solutions for information security, and specific mechanisms for transferring this risk to the insurance market, any problems associated with inefficient maintenance, a failure or delay in updating its IT systems, any unauthorized access to its computer systems or a successful external cyber-attack could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group's operating and financial performance is largely dependent on its ability to retain and attract key personnel.

The success of the Group depends, in part, on the continued involvement of the current top management and other key managers, as well as on its ability to retain and recruit trained personnel, such as engineers and highly

specialized technicians. While the Group seeks to retain employees, particularly top management and key personnel, there can be no guarantee that it will be able to retain its management team or its current personnel.

Furthermore, the competition for highly trained managers and specialized labor force is intense. Also, the growth of the Group's business may require it to seek additional managers and highly trained personnel who share the Group's values and culture, who may be difficult to identify and hire on terms favorable to the Group. Therefore, the Issuer cannot guarantee that the Group will be able to attract skilled and motivated employees.

Loss of managers or of a significant number of specialised and highly trained personnel as well as the inability to hire additional managers and highly trained personnel who share the Group's values and culture could have a material adverse effect on the Group's business, financial condition and results of operations or on the Group's ability to service or otherwise make payments on the Notes.

Risks relating to the disposal of ASPI

Risks related to the provision of indemnities in the share purchase agreement relating the sale of the entire stake in ASPI.

Following fulfilment of all the conditions precedent provided for in the share purchase agreement (the "**Agreement**"), the sale of Mundys' entire stake in ASPI to the consortium consisting of CDP Equity, The Blackstone Group International Partners and Macquarie European Infrastructure Fund 6 SCSp (the "**Consortium**") was completed on 5 May 2022. The Agreement provides that "special indemnities" may become payable by Mundys to the Consortium in relation to two types of dispute: (i) pending or future criminal or civil proceedings in connection with the collapse of the Polcevera Bridge which occurred in 2018 other proceedings linked to issues relating to maintenance obligations, and civil claims included in a detailed list in the Agreement (with the amount of indemnities capped at €459 million, and residual amount equal to € 434 million); and (ii) the criminal proceeding for alleged environmental damages and the civil damages requested by the Italian Ministry of Environment (with the amount of indemnities capped at €412 million). With reference to the special indemnity relating to the collapse of the Polcevera Bridge described in (i) above, Mundys shall be liable for the first €150 million of liability and will be liable for 75% of liability above €150 million without prejudice to the cap mentioned above. See "*–Business Description of the Group – Material Agreements – Relevant legal proceedings which may activate special indemnities under the Agreement*".

In addition, the Agreement provides that the aggregate maximum liability of Mundys in respect to all warranty claims for breach of the contractual warranties other than the so called fundamental warranties (which include a fundamental warranty on the inexistence of circumstances - other than those fairly disclosed - which may concretely cause the early termination of the concessions) shall not exceed 10% of the purchase price, it being understood that the aggregate maximum liability of Mundys in respect of all warranty claim for breach of all the warranties shall not exceed the purchase price.

These circumstances could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Risks relating to the Group's main subsidiaries and their operations

The Group's revenues could decline as a result of reductions in road or air traffic volumes.

In general, the revenues generated by the Group from operating toll roads and airport infrastructure are dependent on the level of road and air traffic volumes on such infrastructures.

With respect to toll road concessions, the revenues generated by the Group depend on the level of tariffs and the volume of traffic using its toll roads. Such revenues are also directly linked to toll rate increases and customers' reactions to higher tolls. Even if the Group increases the volume of traffic on its roads, it must also ensure that its road portfolio has the capacity to absorb traffic and avoid congestion or consumers will look for alternative routes. Road traffic volumes and toll revenues depend on a number of factors, including:

- the emergency restrictions imposed on mobility, such as those imposed during the Covid-19 pandemic;

- the quality, convenience and travel time on toll-free roads or toll roads that are managed by the Group's competitors;
- the quality, safety and state of repair of the Group's toll roads;
- the wider economic climate (see “—*Risks related to the impact of the global macroeconomic conditions.*”) and fuel prices; and
- environmental legislation (including measures to restrict motor vehicle use in order to reduce air pollution);
- the popularity and existence of alternative means of transportation, including public transport such as trains.

With respect to airport concessions, the revenues generated primarily depend on air traffic volumes, which, in turn are affected by several factors, including (i) domestic and global macroeconomic developments, demographic developments, socio-economic developments such as increasing nationalism, protectionism (which could lead to international “trade wars”) and populism, global terrorism threats and political tensions, such as those resulting from the on-going conflict between Ukraine and Russia and the conflicts in the Middle East; (ii) competition from other airports and other competing modes of transport, particularly with respect to hub services and the improvement or expansion of existing high-speed rail networks and motorways; (iii) cost of living pressures and inflation expectations; (iv) labour unrest of the Group's employees, airlines staff and/or air traffic controllers and sector operators; (v) an increase in airfares due to increased airline costs; (vi) developments in the airline industry (such as the creation of new transfer hubs and additional point-to-point flights decreasing the importance of transfer hubs) as well as economic and financial conditions of the relevant operators; (vii) decisions by airlines regarding the number, type and capacity of aircraft (including the mix of premium and economy seats), as well as the routes on which particular aircraft are utilised; (viii) the termination or change of the connections to some destinations featuring high passenger traffic; (ix) fluctuations in oil prices and of other commodities; (x) taxation and emission regulation (e.g. carbon pricing); (xi) global pandemics or other health scares (such as, severe acute respiratory syndrome (SARS) and Covid-19); (xii) disruptions caused by natural disasters; (xiii) severe weather conditions at the airports (e.g. snow, fog, etc.) causing flight cancellations, significant changes to airlines' schedules and possible damage to the airports' facilities; (xiv) other extraordinary and unforeseeable events such as a fire or service interruption by utility providers (e.g. water, electricity, etc.) or connectivity services, which may affect the normal operation of the airports and/or any of the aeronautical or non-aeronautical activities carried out in any of them; (xv) acts of terrorism; (xvi) cybersecurity threats; (xvii) changes in domestic or international regulation; (xviii) the quality of services and facilities, including the impact of construction projects; (xix) changes in airline ownership/alliance competition; (xx) structural changes in users' habits such as a potential reduction in business travels as a result of higher adoption of remote working and video-conferencing or a preference towards other competing modes of transports with a lower environmental impact and (xxi) decisions by the governments of key traffic routes that increase cost of air travel or limit airport capacity in order to decarbonise aviation as part of meeting climate change targets.

If the Group is unable to maintain an adequate level of road and air traffic on its infrastructures, this could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group has limited or no ability to independently raise tariffs on its toll roads and airports beyond certain limits.

In addition to the volume of road and air traffic, the revenues generated from the Group's concessions depend on its tariff rates and the tariff structure is usually fixed from the outset under each individual concession agreement or other agreement governing the management of the concessions. In the majority of cases, the Group has limited or no ability to independently raise tariffs beyond certain limits, normally the rate of inflation. In the current inflationary environment affecting all the jurisdictions where the Group has presence, the concession grantors may seek to limit tariff increases which are contractually applicable. These contractual

adjustments would be expected to be compensated with cash payments or by other means, which may in some cases result in delayed or partial tariff increases.

During the life of a concession, the relevant government authority may also unilaterally impose additional restrictions on the tariff rates and refuse to compensate the Group for any losses that might result from such changes to the concession agreement. Whilst the Group may try to renegotiate the terms of a concession agreement, the Group cannot guarantee that any such negotiation will be successful and can give no assurance that rates the Group is authorised to charge will guarantee an adequate level of profitability.

The Group has substantial indebtedness (see “—*The Group may incur additional indebtedness, including at the level of its subsidiaries, which could increase its risk exposure from debt.*”), much of which is related to costs incurred as a result of operating and expansion activity. The Group seeks to cover money spent on its investments principally from the cash flows generated by the management of the infrastructure under concession. If the assumptions underlying the Group’s financial models prove to be incorrect and the revenues generated are not sufficient to cover its costs (*i.e.* the Group may be unable to increase tariffs due to inflexible concession terms or reduce its costs to remain profitable) this could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Infrastructure concessions have a limited duration and the Group may not be able to extend or replace its concession agreements and, as a result, lose the revenues and cash flows generated thereunder.

There can be no guarantee that the Group’s concession agreements will be renewed or extended and when a concession agreement ends the Group must, at its own expense, return the infrastructure to the competent governmental authority or owner, in an adequate state of repair, together with any assets and facilities required for operation.

In addition, under the laws of certain countries in which the Group operates, certain governments may unilaterally terminate or repurchase concessions in the public interest, subject to judicial supervision. If a governmental authority exercises its option to terminate or repurchase any of the Group’s concessions, in general it will receive the compensation provided by law or contract to cover its profits for the remaining duration of the concession agreement. However, there can be no assurances that any compensation would be sufficient to make up for the loss of the concession. In extreme cases a sovereign government could take action contrary to the Group’s rights under the relevant concession agreement, for example by unilaterally terminating, changing the terms of, expropriating or even disputing the validity of the concessions. The Group carries out a large part of its operations in developed countries where the risk that the sovereign government will take actions of such nature tends to be low, but the Group also has operations in emerging markets such as Brazil, Chile, Mexico and Argentina and cannot give any assurance that governments (in an emerging market or otherwise) will not legislate, impose regulations or change applicable laws or act contrary to the law in a way that would materially adversely affect its business. See also “—*The Group is exposed to emerging and developing country risks*”. Furthermore, each concession agreement has different provisions regarding the compensation to be provided if the concession is terminated before the end of its term, whether such termination be with or without cause. If it is unable to negotiate and receive adequate compensation for terminated or repurchased concessions, the Group’s financial condition in the future may be impacted.

In addition, upon the loss of any concession the Group will lose access to the revenues and cash flows generated by such concession and any related ancillary activity. While the Group may receive a payment upon termination, it may be unable to reinvest the proceeds of the termination on other concessions or assets that generate the same returns and cash flows.

If the Group’s concession agreements come to an end because it has been unable to extend the duration of its concessions or for any other reason and the Group is unable to replace any concessions that have expired or terminated with new concessions on equally favourable terms, this could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group faces significant competition in the markets in which it operates.

The Group, in its ordinary course of business, competes in tender processes against various groups and companies. It is difficult to predict whether the Group will be awarded new contracts due to multiple factors such as qualifications, reputation and customer relationships, and the ability to fulfil the contract in a timely, safe, and cost-efficient manner. Furthermore, these groups and companies may have more experience or local awareness than the Group does and may have greater resources than the Group, whether material, technical or financial, or may demand lower returns on investment and be able to present better technical or economic bids compared to it. The Group may have to invest heavily to keep up to speed with market trends and technological developments or risk that its infrastructures become obsolete or be perceived to be less safe than those of its competitors or that its services are not competitive. Given this high level of competition, the Group may be unable to secure contracts for new concessions or to extend its current concession agreements. If the Group is unable to obtain contracts for new concessions in order to sustain a revenue stream in line with the current ones, or if future concessions are only awarded under less favourable terms than the concessions the Group currently has, this could have a material adverse effect on the Group's business, financial condition, results of operations and prospects and the ability of the Issuer to meet its payment obligations under the Notes.

In addition, certain activities carried out by the Group, such as the operation of electronic tolling systems and provision of smart mobility solutions by Telepass, Yunex Traffic and the Abertis Group, require the Group continue investing in new products, services and technologies and enhancing existing products and services also to maintain the market share and comply with regulatory changes in the security field. As the Group faces significant competition for the provision of such products and services, failure by the Group to continue developing of products, services and technologies could result in impairment of assets held by the Group which, in turn, could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group participates in competitive tender processes and regulatory authorisation procedures that can generate significant expense with no assurance of success.

The Group is granted many of its contracts on the basis of a competitive process. Competitive tender processes or negotiation procedures preceding the award of these contracts are often long, costly and complex and their outcomes are uncertain and difficult to foresee. The Group may invest significant resources in a project or tender bid without winning the contract thus losing growth opportunities. In addition, the Group may also need to obtain or renew various regulatory permits or authorisations. Authorisation procedures for activities with a large environmental footprint may present additional difficulty and are often preceded by in-depth studies and public inquiries. The complexity of these procedures has tended to increase. The Group may also have to abandon certain projects in which it is unable to generate compensation sufficient to cover the cost of its investment if it fails to obtain the permits it needs to perform the activity or if it cannot obtain any necessary authorisations from antitrust or other authorities. These developments can increase the cost of the Group's activities and, in certain cases, where the risk of failure appears substantial, may lead the Group to abandon certain projects. The occurrence of such circumstances could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

ADR is primarily dependent on a limited number of airlines.

The ADR Group has historically derived a significant portion of its turnover in any given year from a limited number of airlines. As the date of this Base Prospectus, such limited number of airlines include Ryanair, Italia Trasporto Aereo S.p.A. ("**ITA Airways**"), the current national carrier, fully owned by the Italian Ministry of Finance, the IAG Group (including Iberia, Vueling and British Airways), Wizz Air, the Lufthansa Group (including Lufthansa, Austrian Airlines, Swiss International Airlines, Eurowings and Brussels Airlines) and EasyJet. The decrease or discontinuation of flights by any of the other abovementioned carriers for any reason whatsoever including any deterioration of the financial condition of any of them (for further information see "*Business Description of the Group – Business Segments – Airports – ADR Group*"), could adversely affect air

traffic volume at the Rome Airport System. These circumstances could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group could be exposed to losses related to environmental, health & safety and social factors.

The Group could face unforeseen, hostile or catastrophic events which are outside of its control (including natural disasters, extreme weather events, explosions, fires, accidents and terrorist attacks), and other risks that can arise from its business activities (including, amongst others, pollution, noise pollution at the airports and waste). Any significant environmental risk has the potential to disrupt business activities, impact the Group's operations or reputation, expose the Group to fines and penalties, generate social pressure, increase credit risk and other credit exposures, damage property, delays to construction works and otherwise affect the value of assets and/or infrastructures held in the affected locations and the Group's ability to recover amounts owing to it.

The Group's businesses could also suffer losses due to climate change. Climate change is systemic in nature and is a significant long-term driver of both financial and non-financial risks. Climate change related impacts include physical risks and transition risks. Physical risks are those associated with climate events classified as extreme (unexpected and intense) and chronic (long-term and progressive), including hurricanes, flooding (fluvial, pluvial and coastal), drought, land degradation and landslides, fires, extreme temperatures, etc. Transition risks including (i) regulatory risks, linked to existing or new regulation, (ii) legal risks, deriving from contractual or extracontractual liability or from other disputes due to inadequate responses to climate events, (iii) technological risks deriving from the replacement of high-carbon products and services and investment in new climate-related technologies, (iv) market risks, deriving from shifts in consumer preferences towards more sustainable forms of mobility and from supply chain issues, (v) reputational risks, due to stakeholders having a negative perception of the Group's image following its failure to meet its climate change commitments and/or damaging media coverage.

In addition, the Group could face health and safety issues (such as in respect of its employees and third parties) although specific measures to prevent these risks have been adopted. The Issuer has also adopted a code of ethics and human rights framework applicable to the Group's operations and its relationships with third parties aimed at creating and maintaining values and integrity over time.

Although the Group monitor and manage these risks, a failure to respond to the potential and expected impacts may affect the Group's performance and could have wide-ranging impacts for the Group. Failure to effectively manage these risks could adversely affect the Group's business, prospects, reputation, financial performance or financial condition (see also “ – *The Group could be adversely affected by events that might cause reputational damage*”) and the ability of the Issuer to meet its payment obligations under the Notes.

The Group may not be able to implement the investment plans required under the concessions within the timeframe and budget anticipated and the Group may not be able to recoup certain cost overruns.

The ability of the Group to develop its infrastructure and to implement its projects is subject to many unforeseeable events linked to operational, economic and regulatory factors which are outside its control. Certain of the infrastructure concessions held by the Group require it to carry out a number of significant investment projects. There can be no assurance that cost and time of completion estimates for the Group's investment projects are accurate, particularly since some of the projects are in the preliminary stages of planning.

The Group is subject to certain risks inherent in construction projects. These risks may include:

- delays in obtaining a project's regulatory approvals (including, but not limited to, environmental requirements and planning approvals at the national and local governmental levels);
- delays in obtaining approvals required for tariff increases sufficient to fund the project;
- changes in general economic, business and credit conditions;

- the non-performance or unsatisfactory performance of contractors and subcontractors (whether such work is performed by the Group or by third parties);
- the commencement of bankruptcy proceedings with respect to contractors and reopening of public tender procedures;
- interruptions resulting from litigation, inclement weather, revocation of approvals or additional requests from local authorities;
- interruptions and delays resulting from unforeseen environmental or engineering problems;
- shortages of materials and labour and increased costs of materials and labour, also as a result of increased inflation (see also “*Risks Relating to the Issuer’s Business and Condition – Risks related to the impact of the global macroeconomic conditions*”);
- claims from subcontractors;
- expropriation procedures; and
- geological instability caused by construction excavations;

discovery of contaminated soils not identified by the soil analyses conducted during the environmental impact studies. In addition, the Group is subject to the general risk of cost overruns due to unexpected technical or structural issues arising during the construction works which require changes to be implemented with respect to approved projects as well as the general risk of delays, legal proceedings and unexpected expenses relating to contractors and subcontractors.

Although the Group has significant experience in the construction sector and seeks to limit these risks, no assurance can be given that delays and cost overruns will not occur. The tariffs agreed in advance of the commencement of a capital investment project generally do not entitle to recover losses caused by delays or cost overruns. Consequently, failure to complete projects within the planned timeframe and/or budget could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Inspection and maintenance activities may be insufficient to detect and prevent structural problems in the infrastructure under management, and the Group’s infrastructures may also be exposed to geotechnical instability.

Despite the recurring and non-recurring maintenance activities carried out by the Group on infrastructure under its management, it cannot be excluded that, due to unforeseeable events, hidden defects in such infrastructure which cannot be detected through the Group’s inspections and maintenance activities or human error, structural problems may occur limiting the availability or functionality of the infrastructures managed by the Group. The Group’s inability to detect in a timely fashion any defect and efficiently repair the infrastructure could result in risks regarding the safety of the assets and/ or could also impact the continuity of service of the Group’s assets. Such circumstances may result in reputational damage, regulatory action and financial costs, or penalties that may not be covered by insurance or by another party. See also “– *The Group could be adversely affected by events that might cause reputational damage*”.

In addition, infrastructures managed by the Group are potentially exposed to geotechnical instability. As a result, the occurrence of natural disasters, such as earthquakes, flooding, landslides or subsidence may result in material damage to the infrastructure managed by the Group, which could lead to a significant decline in revenues from the Group’s concessions or a significant increase in expenditures for the operation, maintenance or repair of the Group’s infrastructure, as well as necessary amendments to the Group’s investments plans. The occurrence of any of these events could have a material adverse effect on the Group’s business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

Furthermore, the Group manages the potential risks relating to the safety of infrastructure (e.g., during the management and maintenance of assets and, where applicable, when building new infrastructure), and of the

products and services offered that could have an impact on the business's operations, on its ability to achieve its strategic objectives, on its reputation and on its operating and financial results (e.g., the cost of potential disputes or sanctions due to breaches of the related legislation).

In addition, service malfunctions or interruptions may result in the commencement of investigations by the relevant competent authority, the imposition of fines and penalties and could expose the Group to legal proceedings and claims for damages. The occurrence of any such events could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group is highly dependent on public sector customers and, accordingly, decreases in the funds allocated to public sector projects may harm the Group's business, results of operations, financial condition and prospects.

The Group's business, results of operations, financial conditions and prospects are highly dependent on public sector customers. The Group relies on infrastructure development programs currently planned and being undertaken by public authorities in various markets to generate a significant amount of the Group's business. The Group may start work on a specific public sector project but, due to the lack or revocation of government funding, the project may subsequently not be completed within the original time frame or at all. The Group's government clients may be under no obligation to maintain funding at any specific level and funds for any program may even be eliminated. Global economic instability and difficult and recessionary economic conditions in certain countries in which the Group operates may result in the contraction of infrastructure spending and therefore in delay or suspension of projects already commenced or awarded. Future changes and/or reductions by these supranational and government clients in their plans or policies of infrastructure development, delay in the awarding of major projects or postponement of previously awarded projects could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group may be required to make significant payments for damages and its insurance coverage might not be adequate or available in all circumstances.

Although the Group carries all risk, accident and civil liability insurance, there can be no assurance that these policies cover all of the liabilities which may arise from third-party claims, or from any required reconstruction, or maintenance and operating losses, including costs resulting from asset damage. The Group's policies contain specific sub-limits and exclusions, and the Group does not carry business interruption insurance to cover all the operating losses it may experience, such as reduced toll revenue resulting from actions or requests by the relevant authorities, work stoppages, strikes or similar industrial actions.

Moreover, there can be no assurance that if the insurance policy is terminated or not renewed, a new insurance policy will be available on reasonable commercial terms, or at all. Any failure to obtain or maintain an insurance policy, or to be covered for a loss thereunder, could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

For this kind of damages there can be no assurance that, despite the absence of a direct causal link between the event that occurred and the damage requested, the Issuer may be the unsuccessful party in case of any judgment on the merits. These circumstances could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

During their initial years of operation, the Group's concessions may generate little or no cash.

The development and operation of infrastructure concession assets is a capital-intensive business. Newer assets are typically highly leveraged to optimise the capital structure with the objective of maximising shareholder return. As a result of the high rate of leverage, during the initial years of a concession, the costs of financing often consume a large proportion of a concession's available cash flows, leaving little or no cash available for distribution. As a result, it is possible that the Group's cash flow projections for a concession will not be met, and that concession may therefore take longer than expected to generate a profit or may never do so, which

could decrease the resources available to other Group companies to meet their financial obligations, including those under the Notes. Such a shortfall of cash could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

The Group could be exposed to losses related to the execution of Yunex Group customer projects

The Group could face risks related to the execution of Yunex Group customers projects that may adversely affect the future net assets, financial and earnings position. Although the technical expertise and the project management activities carried out to limit these risks, Yunex Group may not be able to execute the projects in accordance with the timeframe and budget agreed with the customers and may not be able to recoup certain cost overruns (also due to change requests) or, in some cases, may incur in penalties, enforcement of guarantees, cancellation of orders and termination of the contracts. Also the deterioration of the macroeconomic environment may lead to a worsening of the customers' budgets, delays or cancellations of orders and may affect projects. All the foregoing could have a material adverse effect on the Group's business, financial condition and results of operations and the ability of the Issuer to meet its payment obligations under the Notes.

MATERIAL RISKS THAT ARE SPECIFIC TO THE NOTES ISSUED UNDER THE PROGRAMME AND WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING THE MARKET RISKS ASSOCIATED WITH NOTES ISSUED UNDER THE PROGRAMME

Risks related to structural subordination of the Notes

None of the Issuer's subsidiaries will guarantee its obligations under the Notes, and the Notes will be structurally subordinated to all indebtedness of the Issuer's subsidiaries.

The Issuer's subsidiaries will have no obligation, contingent or otherwise, to pay amounts due under the Notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payment. As at 31 December 2023, Abertis Infraestructuras had €15,087 million of nominal value of gross debt (excluding €2,000 million of hybrid bond), Holding d'Infrastructures de Transport ("**HIT**"), a French subsidiary of the Abertis Group, had €4,450 million of nominal value of gross debt, ADR had €2,050 million of nominal value of gross debt, Overseas Motorways had €1,162 million of nominal value of gross debt (of which €240 million related to Brazil concessions and €922 million related to Chile concessions), Telepass had €420 million of nominal value of gross debt, and ACA had €291 million of nominal value of gross debt. Under the terms and conditions of a significant portion of the outstanding indebtedness of the Group companies there are no limits placed on the amount of unsecured indebtedness which such Group companies may incur, other than by virtue of their programme issuance limits.

The Notes will be structurally subordinated to all indebtedness and other obligations of any Group company, even if such obligations do not constitute senior indebtedness, such that, in the event of insolvency, liquidation, reorganization, dissolution or other winding up of any subsidiary, all of such subsidiary's creditors (including trade creditors and preferred stockholders, if any) would be entitled to payment in full out of such subsidiary's assets before the Issuer would be entitled to any payment. As a result, the Notes are effectively subordinated to all liabilities of the Issuer's subsidiaries. In addition, the Issuer's subsidiaries may be subject to restrictions on their ability to distribute cash to the Issuer as a result of law and, as a result, the Issuer may not be able to access its cash flows to service its debt obligations, including the Notes. See also " – *The Issuer is primarily a holding company that does not have revenue-generating operations of its own, and is dependent on receiving dividends from its operating subsidiaries to make payments on the Notes or meet its other obligations. Amongst these subsidiaries, the Abertis Group represents substantially all of the Group's revenues and EBITDA. Such operating subsidiaries may not be able to make such payments in some circumstances or making such payments may result in increased costs for the Group*".

Risks related to the structure of a particular issue of Notes.

Notes subject to optional redemption by the Issuer

If in the case of any particular Tranche of the Notes the relevant Final Terms specifies that the Notes are redeemable at the Issuer's option pursuant to the Conditions, the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low.

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. Further, during any period in which there is an actual or perceived increase in the likelihood that the Issuer may redeem the Notes, the price of the Notes may also be adversely impacted. This also may be true prior to any redemption period. The Issuer may elect to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time. See *"The Issuer may redeem the Notes prior to maturity and Noteholders may be unable to reinvest the proceeds of any such redemption in comparable securities"*.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than the prevailing rates on its Notes.

The value of Fixed Rate Notes may change

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Floating Rate Notes.

Where the reference rate used to calculate the applicable interest rate turns negative, the interest rate will be below the margin, if any, or may be zero. Accordingly, where the rate of interest is equal to zero, the holders of such Floating Rate Notes may not be entitled to interest payments for certain or all interest periods.

A key difference between floating rate notes and fixed rate notes is that interest income on floating rate notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of floating rate notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the terms and conditions of the notes provide for frequent interest payment dates, investors are exposed to reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to also issue fixed rate notes may affect the market value and the secondary market (if any) of the floating rate notes (and vice versa). Investment in Notes which bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the relevant final terms) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market

value of floating rate Notes may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate.

The regulation and reform of “benchmarks” may adversely affect the value of Notes linked to or referencing such “benchmarks”

Interest rates and indices which are deemed to be “benchmarks” (including the Euro Interbank Offered Rate (“**EURIBOR**”)) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such “benchmarks” to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a “benchmark” including on the value, liquidity or return on such Notes.

The BMR applies to the provision of “benchmarks”, the contribution of input data to a “benchmark” and the use of a “benchmark” within the EU. Among other things it (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of ‘benchmarks’ of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed). Regulation (EU) 2016/1011 as it forms part of UK domestic law by virtue of the EUWA (the “**UK BMR**”) among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the Financial Conduct Authority (“**FCA**”) or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed)..

The BMR and/or the UK BMR, as applicable, could also have a material impact on any Notes linked to or referencing a “benchmark” index, including in any of the following circumstances:

- (i) an index which is a “benchmark” could not be used as such if its administrator does not obtain appropriate authorisations or is based in a non-EU or non-UK (as applicable) jurisdiction which (subject to any applicable transitional provisions) does not have equivalent regulation. In such event, depending on the particular “benchmark” and the applicable terms of the Notes, the Notes could be delisted (if listed), adjusted, redeemed or otherwise impacted;
- (ii) the methodology or other terms of the “benchmark” related to a series of Notes could be changed in order to comply with the terms of the EU BMR and/or the UK BMR, as applicable, and such changes could have the effect of reducing or increasing the rate or level of the “benchmark” or of affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Notes, including Calculation Agent determination of the rate or level in its discretion.

The BMR was amended by Regulation (EU) 2021/168 of 10 February 2021 which introduced a harmonised approach to deal with the cessation or wind-down of certain “benchmarks” by conferring the power to designate a statutory replacement for certain “benchmarks” on the European Commission or the relevant national authority, such replacement being limited to contracts and financial instruments. The replacement for a benchmark designated by the European Commission might thus apply to the Notes referencing a benchmark if certain conditions described in the BMR are satisfied. These provisions could have a negative impact on the value, the liquidity of, or the return on investment in Notes issued under the Programme with interest rate calculated by reference to the “benchmarks” (including EURIBOR) in the event that the fallback provisions in the Terms and Conditions of the Notes are deemed unsuitable. In addition, there are still uncertainties about the exact implementation of this provision pending the implementing regulations of the European Commission. In addition, Regulation (EU) 2021/168 is subject to further development through delegated regulations and the transitional provisions applicable to third-country benchmarks are extended until the end of 2025 (and the Commission has published a legislative proposal on 17 October 2023 to modify the rules applicable to the use of such third-country benchmarks in the European Union). There are therefore still details to be clarified in relation to the potential impact of these legislative developments.

More broadly, any of the international or national reforms (or proposals for reform), the discontinuing of, or the general increased regulatory scrutiny of “benchmarks” could increase the costs and risks of administering or

otherwise participating in the setting of a “benchmark” and complying with any such regulations or requirements.

The euro risk free-rate working group for the euro area has published a set of guiding principles and high level recommendations for fallback provisions in, amongst other things, new euro denominated cash products (including bonds) referencing EURIBOR. The guiding principles indicate, amongst other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and fallback rates.

Such factors may, without limitation, have the effect of discouraging market participants from continuing to administer or participate in certain “benchmarks”, trigger changes in the rules or methodologies used in certain “benchmarks” or lead to the disappearance of certain “benchmarks”. The disappearance of a “benchmark” or changes in the manner of administration of a “benchmark” could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the Issuer, delisting (if listed) or other consequence in relation to Notes linked to such “benchmark”. Any such consequence could have a material adverse effect on the value of and return on any such Notes.

The Conditions provide for certain fallback arrangements in the event that a Benchmark Event (as defined in the Conditions) occurs in respect of an Original Reference Rate or other relevant reference rate and/or any page on which such benchmark may be published (or any other successor service) becomes unavailable. Such fallback arrangements include the possibility that the Rate of Interest could be set by reference to a Successor Rate or an Alternative Rate (both as defined in the Conditions), with the application of an adjustment spread (which could be positive, negative or zero), and may include amendments to the Conditions to ensure the proper operation of the new benchmark, all as determined by the Issuer (acting in good faith and in consultation with an Independent Adviser) and as more fully described at Condition 5(k) (*Benchmark Discontinuation*). It is possible that the adoption of a Successor Rate or Alternative Rate, including any adjustment spread, may result in any Notes linked to or referencing an Original Reference Rate performing differently (which may include payment of a lower Rate of Interest) than they would if the Original Reference Rate were to continue to apply in its current form. There is also a risk that the relevant fallback provisions may not operate as expected or intended at the relevant time.

Furthermore, in certain circumstances, the ultimate fallback for the purposes of calculation of the Rate of Interest for a particular Interest Period may result in the Rate of Interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

The Notes contain limited provisions governing the Group’s operations and the Issuer’s ability to merge, effect asset sales (other than in relation to a Material Asset Sale) or otherwise effect significant transactions that may have a material and adverse effect on the Notes and the holders thereof.

The Conditions of the Notes contain limited provisions governing the Group’s operations and, other than in relation to a Material Asset Sale, do not limit its ability to enter into a merger, asset sale or other significant transaction that could materially alter its existence, jurisdiction of organisation or regulatory regime and/or its composition and its business. In the event the Group was to enter into such a transaction, Noteholders could be materially and adversely affected.

The Issuer may be unable to redeem the Notes as required upon a Material Asset Sale Put Event, nor may it be able to repay its indebtedness if a mandatory prepayment is triggered.

If the Issuer experiences a Material Asset Sale Put Event or a mandatory prepayment is triggered with respect to the loan agreements entered into by the Issuer, the Issuer will be required to redeem any such indebtedness

in respect of which a Material Asset Sale Put Option is exercised or a mandatory prepayment is triggered, in each case at the relevant redemption amount (which may include penalties). However, the Issuer may be unable to do so because it may not have enough available funds, particularly since a Material Asset Sale Put Event or a mandatory prepayment could in certain circumstances cause part or all of its other debt to become due and payable. See *“Terms and Conditions of the Notes—Redemption at the Option of Noteholders on the occurrence of a Material Asset Sale Put Event”*.

Step Up Notes and Premium Payment Notes may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics.

If so specified in the relevant Final Terms, the Issuer may issue Notes described as “Step Up Notes” or “Premium Payment Notes”. In such event, (i) the interest rate relating to the Step Up Notes is subject to upward adjustment and/or (ii) a premium payment may be payable in connection with the Premium Payment Notes, in each case under (i) and (ii) above in certain circumstances specified in the Conditions, on the occurrence of a KPI 1 Event and/or a KPI 2 Event and/or a KPI 3 Event (each as defined in the Conditions). The Step Up Notes and Premium Payment Notes are not being marketed as green bonds, social bonds or similar purpose financing instrument, since the Issuer does not intend to allocate the net proceeds specifically to projects or business activities meeting environmental, sustainability or social criteria, or be subject to any other limitations associated with such instruments. See also *“Use of Proceeds”*.

Such Notes may not satisfy an investor’s requirements or any future legal or quasi legal standards for investment in assets with sustainability characteristics and the definition of greenhouse gases emissions used in the Conditions may be inconsistent with investor requirements or expectation or other definitions relevant to greenhouse gas emissions.

Although the Issuer targets decreasing the Group’s greenhouse gas emissions footprint, there can be no assurance of the extent to which it will be successful in doing so or that any future investments it makes in furtherance of these targets will meet investor expectations or any binding or non-binding legal standards regarding sustainability performance, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact. Adverse environmental or social impacts may occur during the design, construction and operation of any investments the Issuer makes in furtherance of this target or such investments may become controversial or criticized by activist groups or other stakeholders.

Furthermore, in the event that the Step Up Notes or the Premium Payment Notes are listed or admitted to trading on any dedicated green, environmental, sustainable or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by the Issuer, the Dealers, the Trustee or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply. Additionally, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by the Issuer, the Dealers, the Trustee or any person that any such listing or admission to trading will be obtained in respect of such Notes or, if obtained, that any such listing or admission to trading will be maintained during the life of the Step Up Notes or Premium Payment Notes.

A basis for the determination of the definitions of “sustainability-linked” has been established in the EU with the publication in the Official Journal of the EU on 22 June 2020 of the Sustainable Finance Taxonomy Regulation on the establishment of the EU Sustainable Finance Taxonomy and the Sustainable Finance Taxonomy Regulation Delegated Acts; however the EU Sustainable Finance Taxonomy is subject to further evolution by way of the implementation by the European Commission through the formal adoption of the Sustainable Finance Taxonomy Regulation Delegated Acts. It is not known to what extent the investments planned in the Group’s sustainability strategy will satisfy those criteria. Pending development of the technical screening criteria for such objectives, there is no certainty to what extent the investments planned in the Group’s sustainability strategy (also underlying the Notes through their link to certain key performance indicators) will be aligned with the EU Sustainable Finance Taxonomy and the Sustainable Finance Taxonomy Regulation Delegated Acts.

Furthermore, there are circumstances in which the Step Up Margin (in respect of Step Up Notes issuances) or Premium Payment Amount (in respect of Premium Payment Notes issuances) may not be payable under the Conditions, for example in some instances of early redemption under Condition 6 (*Redemption, Purchase and Options*). See “*Terms and Conditions of the Notes*” below.

The Sustainability-Linked Bond Second-party Opinion issued in respect of the Step Up Notes and Premium Payment Notes does not reflect all the features which may be associated with such debt securities nor does it discuss all risks related to the Step Up Notes and Premium Payment Notes.

Sustainalytics has reviewed the Issuer’s Sustainability-Linked Financing Framework and issued a second party opinion on 22 December 2023 (the “**Sustainability-Linked Financing Framework Second-party Opinion**”) confirming the adherence of the Issuer’s Sustainability-Linked Financing Framework with the Sustainability-Linked Bond Principles administered by ICMA and the 2023 Sustainability-Linked Loan Principles published by the LMA.

However, as there is currently no clearly-defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes a “sustainable” or “sustainability-linked” or equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as “sustainable” or “sustainability-linked” (and, in addition, the requirements of any such label may evolve from time to time), no assurance is or can be given to investors by the Issuer, any other member of the Group, the Dealers, any of their respective affiliates, any second party opinion providers or the Assurance Provider that the Notes will meet any or all investor expectations regarding the Step Up Notes, the Premium Payment Notes or the Group’s targets qualifying as “sustainable” or “sustainability-linked” or that any adverse other impacts will not occur in connection with the Group striving to achieve such targets.

Furthermore, the Sustainability-Linked Bond Second-party Opinion may not reflect all the features of the Step Up Notes, the Premium Payment Notes nor the potential impact of all risks related to the structure, market, additional risk factors discussed above and other factors that may affect the value of such Notes. Furthermore, any such Sustainability-Linked Bond Second-party Opinion would only be valid as of the date it is released and the Issuer does not assume any obligation or responsibility to release any update or revision of its Sustainability-Linked Financing Framework. A withdrawal of the Sustainability-Linked Bond Second-party Opinion may affect the value of the Step Up Notes, the Premium Payment Notes and/or may have consequences for certain investors with portfolio mandates to invest in sustainability-linked assets.

Moreover, a Sustainability-Linked Bond Second-party Opinion provider and providers of similar opinions, reports and certifications are not currently subject to any specific regulatory or other regime or oversight. Any such opinion, report or certification is not, nor should be deemed to be, a recommendation by the Issuer, any member of the Group, the Bookrunners or any Sustainability-Linked Bond Second-party Opinion providers or any other person to buy, sell or hold Step Up Notes and Premium Payment Notes.

Holders of such Notes have no recourse against the Issuer, the Dealers or the provider of any such opinion, report or certification for the contents of any such opinion, report or certification, which is only current as at the date it was initially issued. Prospective investors must determine for themselves the relevance of any such opinion, report or certification and/or the information contained therein and/or the provider of such opinion, report or certification for the purpose of any investment in the Step Up Notes and the Premium Payment Notes. Any withdrawal of any such opinion, report or certification or any such opinion, report or certification attesting that the Group is not complying in whole or in part with any matters for which such opinion, report or certification is opining on or certifying on may have a material adverse effect on the value of the Step Up Notes, the Premium Payment Notes and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose.

Investors should therefore make their own assessment as to the suitability or reliability for any purpose whatsoever of any opinion, report or certification of any third party in connection with any offering of Step Up Notes or Premium Payment Notes.

For the avoidance of doubt, as stated above, any such framework, opinion, report or certification and any other document related thereto is not, nor shall it be deemed to be, incorporated in and/or form part of this Base Prospectus.

Step Up Notes and Premium Payment Notes include certain triggers linked to sustainability key performance indicators and recalculation provisions.

Step Up Notes and Premium Payment Notes include triggers linked to sustainability key performance indicators (see “– *Step Up Notes and Premium Payment Notes may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics*”), the failure to meet any of which will result in increased interest amounts being payable under the Step Up Notes or additional premium amounts being payable under the Premium Payment Notes, which would increase the Group’s cost of funding and which could have a material adverse effect on the Group, its business prospects, its financial condition or its results of operations.

The Conditions applicable to Step Up Notes and the Premium Payment Notes permit the Issuer and/or Abertis and/or ADR to redetermine certain aspects of the key performance indicators captured in, as appropriate, the KPI 1 Condition, the KPI 2 Condition and the KPI 3 Condition. Accordingly, while any such redetermination must be carried out and disclosed in accordance with the Conditions and verified by an independent reviewer, any redetermination may decrease the volume of greenhouse gas used as a baseline and therefore may decrease the total volume of reduction of greenhouse gas or the number of electric vehicles charging points that needs to be achieved by the Group in order to satisfy such conditions and avoid the occurrence of a Step Up Event or a Premium Payment Trigger Event.

No Event of Default shall occur under the Step Up Notes and the Premium Payment Notes, nor will the Issuer be required to repurchase or redeem such Step Up Notes and Premium Payment Notes, if the Issuer fails to comply with the KPI 1 Condition, the KPI 2 Condition, the KPI 3 Condition or the Reporting Requirements.

Failure to meet the relevant sustainability targets may have a material impact on the market price of the Step Up Notes and the Premium Payment Notes and could expose the Group to reputational risks.

Although the Issuer’s intention will be to meet the sustainability targets required to avoid the incurrence of a Step Up Event and/or a Premium Payment Trigger Event (the “**Sustainability Targets**”), there can be no assurance of the extent to which it will be successful in doing so, that the Issuer will be able to achieve the Sustainability Targets, as it may fail to do so also due to events outside its control (such as the engagement of airlines operating in the Group’s airports for the purpose of complying with the KPI 3 Condition, or, more generally, traffic volume on the Group’s infrastructure), that the Issuer will continue achieving such Sustainability Targets or that any future investments it makes in furtherance of achieving such objectives will meet investor expectations or any binding or non-binding legal standards regarding sustainability performance, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact.

Any of the above could adversely impact the trading price of the Step Up Notes and Premium Payment Notes and the price at which a holder of the Notes will be able to sell its Step Up Notes and Premium Payment Notes in such circumstance prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such Noteholder. See also “– *Step Up Notes and Premium Payment Notes may not be a suitable investment for all investors seeking exposure to assets with sustainability characteristics*” above for a description of the risk that the Step Up Notes and the Premium Payment Notes may not satisfy an investor’s requirements or any future legal or other standards for investment in assets with sustainability characteristics.

Any failure to meet such sustainability key performance indicators will result in increased interest amounts under such Step Up Notes and additional premium amounts being payable under the Premium Payment Notes, which would increase the Group’s cost of funding and which could have a material adverse effect on the Group, its business prospects, its financial condition or its results of operations.

In addition, a failure by the Group to satisfy the Sustainability Targets could also harm the Group’s reputation. Furthermore, the Group’s efforts in reaching the Sustainability Targets may become controversial or be criticised by activist groups or other stakeholders. Each of such circumstances could have a material adverse effect on the Group, its business prospects, its financial condition or its results of operations.

Lastly, no Event of Default shall occur under the Step Up Notes and the Premium Payment Notes, nor will the Issuer be required to repurchase or redeem such Step Up Notes and Premium Payment Notes, if the Issuer fails to meet any of the Sustainability Targets (including if a KPI 1 Condition, a KPI 2 Condition and/or a KPI 3

Condition is not satisfied), or if it fails to comply with the Reporting Requirements (as defined in Condition 5(k)(iii)) or the applicable Sustainability-Linked Financing Framework, although such failure may result in the occurrence of a Step Up Event or a Premium Payment Trigger Event.

The Issuer may amend the economic terms and conditions of the Notes without the prior consent of all holders of such Notes.

The Trust Deed and the Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting, and Noteholders who voted in a manner contrary to the majority. Any such amendment to the Notes may include, without limitation, lowering the ranking of the Notes, reducing the amount of principal and interest payable on the Notes, changing the time and manner of payment, changing provisions relating to redemption, limiting remedies on the Notes, and changing the amendment provisions. These and other changes may adversely impact Noteholders' rights and may adversely impact the market value of the Notes.

The Conditions also provide that the Trustee may, without the consent of Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Trust Deed or (ii) the substitution of another company as principal debtor under any Notes in place of the Issuer, in the circumstances described in Condition 11 of the Conditions.

Risk connected with the possibility of changes to the tax regime of the Notes for which holders may not receive additional amounts.

It is not possible to predict whether the tax regime applicable on the interest and on other income, including capital gains, deriving from the Notes, will undergo changes during the life of such Notes; therefore it cannot be ruled out that, in the event of such changes, the net values indicated may alter, perhaps significantly, from those that actually apply to the Notes at the various payment dates. Any greater fiscal charges on profits or on capital gains in connection with the Notes, with reference to those payable under the applicable tax regulations, following legislative or regulatory changes, or as a result of a change of practice in terms of interpretation of the rules by the financial administration, will consequently mean a reduction in the return on the Notes, net of the tax charge. In this respect, Law No. 111 of 9 August 2023, published in the Official Gazette No. 189 of 14 August 2023 ("**Law 111**"), delegates power to the Italian Government to enact, within twenty-four months from its publication, one or more legislative decrees implementing the reform of the Italian tax system (the "**Tax Reform**"). According to Law 111, the Tax Reform will change the taxation of financial incomes and capital gains and introduce various amendments in the Italian tax system at different levels. The precise nature, extent, and impact of these amendments cannot be quantified or foreseen with certainty at this stage; therefore, the information provided in this Base Prospectus in relation to the tax treatment of the Notes may not reflect the future tax landscape accurately.

In that event, subject to a number of exceptions, the Issuer may be obliged to pay such additional amounts that may result in the holders of the Notes receiving such amounts that they would have received in regards to such Notes had no such withholding or deduction been required save where, notwithstanding any such change, the Notes remain subject to the tax regime provided for by the Italian Legislative Decree No. 239 of April 1, 1996 (as amended or supplemented) ("**Decree 239**"). In fact, the Issuer is not liable to pay any additional amounts to holders of the Notes in certain circumstances, including if any withholding or deduction is required pursuant said Decree 239 and any related implementing regulations. In those circumstances, investors will receive the proceeds of their investment in the Notes, net of applicable withholding or deductions.

In particular, holders of Notes that are not residents in white list countries (as identified currently in Ministerial Decree of 4 September 1996, as subsequently amended and supplemented), holders who are residents in white list countries or set-up therein as "insitutional investors" that do not properly and promptly comply with certain certification and procedural requirements set forth by Decree 239 and by the relevant application rules to benefit from exemption from Italian taxation, and certain categories of holders of the Notes who are residents in Italy, will therefore only receive the net proceeds of their investment in the Notes and will not be paid any additional amounts to compensate them for the withholding or deduction.

Tax law in Italy may restrict the deductibility of all or a portion of the interest expenses of the Issuer or the Group's indebtedness, including interest expenses in respect of the Notes.

Article 96 of Decree No. 917 of 22 December 1986 (“**Decree 917**”) outlines the general rules on deductibility of interest expenses for Italian corporate income tax purposes. Specifically, subject to certain exceptions, such rules allow for the full tax deductibility of interest expenses and assimilated costs (collectively “**Interest Expenses**”) incurred by an Italian tax resident company in each fiscal year up to the amount of the interest income and assimilated proceeds (collectively “**Interest Income**”) accrued in the same fiscal year, as evidenced by the relevant annual financial statements. Any excess interest expense over that amount is deductible up to 30% of the gross operating income (*i.e.* earnings before interest, taxes, depreciation and amortization, EBITDA; or “*reddito operativo lordo*”, the “**ROL**”) derived through the core business of the company. If, in a fiscal year, there is an excess of 30% ROL over the net Interest Expenses, the excess may be carried forward for the following five fiscal years and may be used to increase the relevant ROL threshold in the following fiscal years. Interest Expenses not deducted in a fiscal year can be carried forward to the following fiscal years, provided that, in such fiscal years, the amount by which Interest Expenses exceeds Interest Income is lower than 30% of ROL. In case a resident company is part of a domestic fiscal unit (tax consolidation), Interest Expenses that cannot be deducted at stand-alone level by an entity belonging to the fiscal unit due to a lack of sufficient ROL can be deducted at the fiscal unit level to the extent of the excess ROL of other companies belonging to the same fiscal unit. Under Article 4 of Legislative Decree No. 147 of 14 September 2015, published in the Official Gazette No. 220 of 22 September 2015, starting from 1 January 2016 ROL of non-resident controlled companies is no longer taken into account for interest deduction purposes. Under certain conditions, however, dividends paid by non-resident controlled companies to their Italian parent companies will increase the ROL of the Italian receiving companies.

Italian Legislative Decree n. 142 of 29 November 2018, enacting the EU anti-tax avoidance package was published in the Official Gazette on 28 December 2018. The Italian ATAD Decree transposes EU Directive 2016/1164 (ATAD 1) – as amended by EU Directive 2017/952 (ATAD 2) – into the Italian legal system, providing rules against the erosion of taxable bases in the internal market and the shifting of profits out of the Italian market. Such rules are aimed at tackling double deduction or “deduction without inclusion” (deduction of a negative income component in one country, such as interest expenses under the Notes, without any taxation in the other country) due to a different characterisation of financial instruments, payments, entities, and permanent establishments in various countries. The rules apply to mismatches occurring between taxpayers considered to be associated enterprises or arising in the context of a structured arrangement between two non-associated taxpayers.

The Italian tax authorities have in certain instances totally or partially limited the deductibility of the interest expenses arising in connection with certain acquisition financing, refinancing of previous acquisitions’ indebtedness, dividend recapitalisations or other transactions with shareholders (such as transfer of shares intragroup). This position has been taken by arguing that the actual beneficiary of the transaction which generated the interest expense was not the acquiring entity, but its shareholders. Moreover, in circumstances where the Italian company deducting the interest expenses accrued on the aforementioned transactions was controlled by a non-Italian resident entity, the Italian tax authorities argued that such interest expense should have been re charged at arm’s length to the non-Italian resident shareholders. To date, tax courts have not ruled in a consistent way with respect to these cases, although there is jurisprudence in favour of the taxpayer’s position. The Italian tax authorities have ruled that the deduction of interest expenses arising from indebtedness, incurred with third parties in the context of the acquisition transactions, should not be denied when such acquisitions are genuinely held.

In addition, there can be no assurance that in the case of a tax audit, the relevant tax authorities would not try to challenge the deductibility of interest expenses arising in connection with the component of any financing used, in whole or in part, to refinance an outstanding loan or debt, when the terms and conditions of the refinancing transaction appear less favourable than the ones of the previous financing transaction. In particular, in such circumstances, the relevant tax authorities could argue that the interest expenses arising from such financing does not relate to the business of the borrowing entity (as the relevant transaction is deemed as “anti-economic” and as such not compliant with the “inherence” principle set out under Italian tax law).

Any future changes in Italian tax laws or in their interpretation or application (including any future limitation on the use of the ROL of the Issuer and its Italian subsidiaries or changes in the tax treatment of Interest Expenses

arising from any indebtedness incurred by the Issuer and its subsidiaries, including in respect of the Notes), the failure to satisfy the applicable Italian legal requirements relating to the deductibility of Interest Expenses incurred in respect of the Notes or the application by the Italian tax authorities of certain existing interpretations of Italian tax law may result in the Issuer or the Group's inability to fully deduct their Interest Expenses in respect of the Notes, also as a consequence of the Tax Reform, which may have a material adverse impact on the Group's business, financial condition, results of operations or prospects.

Change of law.

The Conditions of the Notes are based on English law in effect as at the Issue Date of the relevant Tranche of Notes. In addition, paragraphs (a) (*Meetings of Noteholders*) and (b) (*Noteholders' Representative*) of Condition 11 (*Meetings of Noteholders, Modification, Waiver, Threshold Increase and Substitution*) and the provisions of the Trust Deed concerning the meetings of Noteholders and the appointment of a Noteholders' Representative in respect of the Notes are subject to compliance with the mandatory laws of the Republic of Italy. No assurance can be given as to the impact of any possible judicial decision or change to English or Italian law or administrative practice after the date of the Issue Date of the relevant Tranche of Notes and any such change could materially adversely impact the value of any Notes affected by it.

The Issuer may redeem the Notes prior to maturity and Noteholders may be unable to reinvest the proceeds of any such redemption in comparable securities.

Unless in the case of any particular Tranche of Notes the applicable Final Terms specifies otherwise, in the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Italy or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Conditions.

In addition, if in the case of any particular Tranche of Notes the applicable Final Terms specifies that the Notes are redeemable at the Issuer's option or in certain other circumstances, the Issuer may choose to redeem those Notes at times when prevailing interest rates may be relatively low. In such circumstances, a Noteholder may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the Notes.

In addition, with respect to the Clean-up Call Option (Condition 6(g)), there is no obligation on the Issuer to inform investors if and when 80% or more of original aggregate principal amount of the relevant Tranche of Notes has been redeemed or is about to be redeemed, and the Issuer's right to redeem will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of the Clean-up Call Option the Notes may have been trading significantly above par, thus potentially resulting in a loss of capital invested.

Because the Global Notes are held by Euroclear and Clearstream, Luxembourg, Noteholders will have to rely on their procedures for transfer, payment and communication with the Issuer.

Notes issued under the Programme may be represented by one or more Global Notes, which will be deposited with a common depositary or a common safekeeper for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note and the applicable Final Terms, Noteholders will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, Noteholders will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Notes are represented by one or more Global Notes, the Issuer will discharge its payment obligations under the Notes by making payments to the common depositary or common safekeeper for Euroclear and Clearstream, Luxembourg for distribution to their account holders. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the relevant Notes. The Issuer cannot assure holders that the procedures of Euroclear and Clearstream, Luxembourg will be adequate to ensure that holders receive payments in a timely manner. A holder of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant

Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

Denominations.

In relation to any issue of Notes which have a denomination consisting of the minimum Specified Denomination plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in amounts in excess of €100,000 (or its equivalent) that are not integral multiples of €100,000 (or its equivalent). In such a case, a Noteholder who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination may not receive a definitive Note (should definitive notes be printed) and may need to purchase a principal amount of Notes such that its holding is an integral multiple of the minimum Specified Denomination.

If Definitive Notes are issued, Noteholders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

The appointment of a Calculation Agent may result in conflicts of interest.

The Issuer may appoint a Dealer as Calculation Agent in respect of an issuance of Notes under the Programme. In such a case the Calculation Agent is likely to be a member of an international financial group that is involved, in the ordinary course of its business, in a wide range of banking activities out of which conflicting interests may arise. Whilst such a Calculation Agent will, where relevant, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by Noteholders during the term and on the maturity of the Notes or the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Risks related to the market generally

No prior market for Notes — if an active trading market does not develop for the Notes, the Notes may not be able to be resold.

There is no existing market for the Notes, and there can be no assurance regarding the future development of a market for the Notes. Although application has been made to list the Notes issued under this Programme on Euronext Dublin, no assurance can be made that the Notes will become or remain listed.

No assurance can be made as to the liquidity of any market that may develop for the Notes, the ability of Noteholders to sell the Notes or the price at which Noteholders may be able to sell the Notes. The liquidity of any market for the Notes will depend on the number of Noteholders, prevailing interest rates, the market for similar securities and other factors, including general economic conditions and the Group's financial condition, performance and prospects, as well as recommendations of securities analysts. As a result, there can be no assurance that an active trading market for the Notes will develop or, if one does develop, that it will be maintained. Illiquidity may have a severely adverse effect on the market value of the Notes.

Fluctuations in exchange rates may adversely affect the value of Notes.

The Issuer will pay principal and interest on the Notes in the Specified Currency (as defined in the applicable Final Terms). This presents certain risks relating to currency conversions if a Noteholder's financial activities are denominated principally in a currency or currency unit (the "**Noteholder's Currency**") other than the Specified Currency. These include the risk that there may be a material change in the exchange rate between the Specified Currency and the Noteholder's Currency or that a modification of exchange controls by the applicable authorities with jurisdiction over the Noteholder's Currency will be imposed. The Issuer has no control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for the applicable currencies. Moreover, if payments on the Notes are determined by reference to a formula containing a multiplier or leverage factor, the effect of any change in the exchange rates between the applicable currencies will be magnified. In recent years, exchange rates between certain currencies have been volatile and volatility between such currencies or with other currencies may be expected in the future. An appreciation in the value of the Noteholder's Currency relative to the Specified Currency would decrease (i) the Noteholder's Currency equivalent yield on the Notes, (ii) the Noteholder's Currency equivalent value of the principal payable on the Notes and (iii) the Noteholder's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Noteholders may receive less interest or principal than expected, or no interest or principal.

Credit ratings may not reflect all risks.

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. Series of Notes issued under the Programme may be rated or unrated. Where a Series of Notes is rated, such rating will not necessarily be the same as the rating(s) assigned to the Issuer from time to time or to the Notes issued under the Programme. In addition, real or anticipated changes in the Issuer's credit ratings or the credit ratings of the Notes will generally affect the market value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under Regulation (EC) No.1060/2009, as amended (the “**EU CRA Regulation**”) from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended). Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by ESMA on its website in accordance with the EU CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Furthermore, UK regulated investors are subject to similar restrictions under Regulation (EC) No. 1060/2009 as it forms part of UK domestic law by virtue of the EUWA (the “**UK CRA Regulation**”). As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

If the status of the rating agency rating the Notes changes for the purposes of the EU CRA Regulation or the UK CRA Regulation, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Notes may have a different regulatory treatment, which may impact the value of the Notes and their liquidity in the secondary market. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

No assurance can be given that the Notes will be listed or that, once listed, such listing will be maintained or that such listing will satisfy the listing requirement of Decree 239.

Application has been made for the Notes issued under the Programme to be admitted to trading on the regulated market of Euronext Dublin and to be listed in the Official List of Euronext Dublin.

However, such listing may not meet the listing requirements established by Decree 239 and by the Italian tax authorities, which in Circular Letter No. 4/E of 6 March 2013 stated that the listing requirement has to be satisfied upon the Issue Date. Considering that there cannot be assurance that the Notes will be listed on the Issue Date, there may be the risk that the Notes may not fall within the scope of, and benefit from, the tax regime set forth in Decree 239. If this were the case, payments of interest, premium and other income with respect to the Notes would be subject to a withholding tax generally at a rate of 26% (potentially reduced generally to a 10% rate under certain applicable tax treaties entered into by Italy, subject to timely filing of the required documentation).

The Issuer cannot assure you that the Notes will be listed at the Issue Date.

Unlisted notes issued by companies other than banks, companies whose shares are traded on a regulated market or multilateral trading facility of an EU or EEA country which is included in the so-called Italian “white list” (as identified currently in Ministerial Decree of 4 September 1996, as subsequently amended and supplemented), and economic public entities transformed in joint-stock companies by virtue of a provision of law, will fall within the scope of Decree 239 only if all the notes are subscribed, held and circulated exclusively by qualified investors as defined under Article 100 of Legislative Decree No. 58 of 24 February 1998 (the “**Financial Services Act**”), as amended from time to time. Based on the interpretation of the Italian tax authorities, if some of these unlisted notes are subscribed, held or circulated by investors other than qualified investors, then all the notes shall be outside the scope of Decree 239 (see Circular Letter No. 29/E of 26 September 2014).

In the event that the Notes are not listed as of the Issue Date or that such listing requirement is otherwise not satisfied, or all the unlisted notes are not subscribed, held and circulated exclusively by qualified investors as defined under Article 100 of Legislative Decree 58 payments of interest, premium and other income with respect to the Notes would be subject to a withholding tax (*ritenuta a titolo di imposta o acconto*) currently at a rate of 26% (potentially reduced - (generally to a 10% rate -) under certain applicable tax treaties entered into by Italy, subject to timely filing of the required documentation) and the Issuer would be required to pay additional amounts with respect to such withholding taxes such that beneficial owners receive a net amount that is not less than the amount that they would have received in the absence of such withholding. The imposition of withholding taxes with respect to payments on the Notes and the resulting obligation to pay additional amounts to Noteholders could have a material adverse effect on our financial condition and results of operations.

Not all non-Italian investors in the Notes will be able to obtain the benefits of the regime under Decree 239.

The exemption from withholding tax under Decree 239 in principle granted to holders of the Notes—who are the beneficial owners of the interest on the Notes (or, if the holders are institutional investors not subject to tax, even if they are not the beneficial owners of the interest on the Notes) and are resident in certain countries which allow for a satisfactory exchange of information with Italy —applies if certain procedural requirements are met. No assurance can be given that all non-Italian resident investors will be eligible for the withholding tax exemption and that the relevant procedural formalities are not properly fulfilled, such as where the relevant foreign intermediary fails to provide sufficient information to the relevant Italian tax authorities under the procedures for applying the exemption regime. Should the procedural requirements not be met, Italian income substitute tax may apply on the payments made on the Notes to foreign investors resident or set-up in countries which allow for a satisfactory exchange of information with Italy. In such event, the Issuer will not be required to pay any additional amounts with respect to such withholding tax, unless such procedural requirements have not been complied with due solely to the actions or omissions of the Issuer or its agents.

PRESENTATION OF FINANCIAL AND OTHER DATA

General

Unless otherwise indicated or where the context requires otherwise, references in this Base Prospectus to “euro” or “Euro” or “€” are to the single currency of the participating Member States in the Third Stage of European Economic and Monetary Union pursuant to the Treaty establishing the European Union, as amended from time to time.

Presentation of Financial Information

Mundys prepares its consolidated financial statements in euro.

Mundys reports its financial information in accordance with the International Financial Reporting Standards adopted by the European Union (“**IFRS**”), as prescribed by European Union Regulation No. 1606 of 19 July 2002. Mundys’ financial year begins on 1 January and terminates on 31 December of each calendar year. Italian law requires Mundys to produce annual audited financial statements.

Alternative Performance Measures

The “Group financial performance” and the “Mundys Financial performance” include reclassified financial statements that differ from the statutory financial statements. In addition to amounts from the income statement and statement of financial position measured and presented under the IFRS, these reclassified financial statements present a number of indicators and items derived from them, even when they are not required by the above standards and are, therefore, identifiable as alternative performance measures (“**APMs**” or “**Alternative Performance Measures**”).

In accordance with the guidelines issued by ESMA, the criteria used in computing the key APMs published by Mundys is described below.

The APMs shown in this Base Prospectus and in the documents incorporated by reference herein are deemed relevant to an assessment of the performance of the Mundys Group and the Issuer, of the operating segments and of individual consolidated companies.

Specifically, the APMs provide a further important measure used by management in assessing the performance of the Group and the Issuer. They also provide an improved basis for comparison of the results over time, even if they are not a replacement for or an alternative to the results determined applying the IFRS used by the Group and the Issuer and described in the statutory financial statements.

In line with the Guidelines, a brief description of the APMs used in this Base Prospectus and in the documents incorporated by reference herein and their reconciliation with the corresponding reported amounts in the statutory financial statements, is provided below.

Non-IFRS financial measures

This Base Prospectus and the documents incorporated by reference herein contain references to certain APM. In the Issuer’s unaudited consolidated financial statements, as well as, *inter alia*, in the 2023 Financial Statements:

- Revenues includes motorway toll revenues, aviation revenues and other revenues, and differs from operating revenues in the statutory consolidated income statement in that revenue from construction services, recognised in accordance with IFRIC 12, is presented in the reclassified income statement as a reduction in the respective items under operating costs and financial expenses;
- EBITDA is the synthetic indicator of gross profit from operations, calculated by deducting costs, with the exception of depreciation, amortisation, impairment losses and reversals of impairment losses and provisions for the renewal of assets held under concession, from revenue;

- EBIT is calculated by deducting depreciation, amortisation, impairment losses and reversals of impairment losses, provisions for the renewal of assets held under concession and other adjustments from EBITDA;
- Net invested capital shows the net value of non-financial assets and liabilities;
- Net debt refers to “Current and non-current financial liabilities” after deducting “Current and non-current financial assets” and “Cash and cash equivalents”;
- Net financial debt has been defined excluding the value of financial assets (concession rights) from net debt. Mundys’ net financial debt coincides with net debt as the Issuer does not hold financial assets (concession rights);
- Capex is the indicator of the total amount invested in development of the Mundys Group’s and the Company’s businesses, excluding investments in investees and right-of-use assets as defined by IFRS 16;
- FFO is the indicator of cash generated by or used in operating activities. Operating cash flow is calculated as profit for the period + depreciation/amortisation +/- impairments/reversals of impairments of assets +/- provisions/releases of provisions in excess of requirements and uses of provisions + other adjustments + financial expenses from discounting of provisions + dividends received from investees accounted for using equity method +/- the share of profit/(loss) of investees accounted for using equity method in profit or loss +/- (losses)/ gains on sale of assets +/- other non-cash items +/- deferred tax assets/liabilities recognised in profit or loss; and
- Gross financial indebtedness is calculated as the sum of bond issues², bonds³, medium/long-term borrowings⁴ and medium/long-term borrowings⁵.

Such financial measures are not a measurement of performance under IFRS and should not be considered by prospective investors as an alternative to (a) net profit/(loss) as a measure of the Issuer’s operating performance, (b) cash flows from operating, investing and financing activities as a measure of the Issuer’s ability to meet its cash needs or (c) any other measure of performance under IFRS.

Such non-IFRS financial measure are used by management to monitor the underlying performance of the business and operations but are not indicative of the historical operating results of the Issuer, nor are they meant to be predictive of future results. Since all companies do not calculate these measures in an identical manner, the Issuer’s presentation may not be consistent with similar measures used by other companies. Therefore, undue reliance should not be placed on any such data and caution should be exercised in comparing this data to similar measures used by other companies. The criteria used in computing the non-IFRS measures are compliant with the Guidelines.

The direct involvement of the Group's stakeholders has a key role to play in making this commitment a reality. Therefore, the Group engages with its stakeholders and also base the strategic decisions on their social and environmental

In this scenario, the Group is committed to actively promoting change in the mobility ecosystem. In carrying out its activities, Mundys’ approach is based around the Sustainable Development Goals (SDGs) of the United Nations 2030 Agenda, tailoring its choices and growth strategy to contribute to the achievement of these goals. Development of the Group

Diversification

Since 2005, through a series of acquisitions Mundys embarked on a process of geographical diversification and has built an overseas presence in the toll road business in Brazil, Chile and Poland.

Telepass S.p.A (“**Telepass**” and, together with its subsidiaries, the “**Telepass Group**”), a subsidiary of Mundys, is a widely used automated payment system in Europe for paying tolls and transport-related services. For additional information, see “*– Business segments – Mobility services – Business of the Telepass Group*” below.

Mundys entered the airport infrastructure sector in 2013, and operates Rome Fiumicino and Ciampino airports through Aeroporti di Roma S.p.A. (“**ADR**” and, together with its subsidiaries, the “**ADR Group**”) and, since 2016, the airports of Nice, Cannes-Mandelieu and Saint Tropez through Azzurra Aeroporti S.p.A. (“**Azzurra Aeroporti**”). For additional information, see “*– Business segments – Airports*” below.

In October 2018, Mundys acquired the control of Abertis Infraestructuras S.A. (“**Abertis**”) and its subsidiaries (the “**Abertis Group**”), pursuant to the agreements entered into by Mundys, Actividades de Construcción y Servicios SA (“**ACS**”) and Hochtief Aktiengesellschaft (“**Hochtief**”) relating to a joint investment in the Abertis Group. According to such agreements, Mundys holds, 50% of the share capital of Abertis HoldCo S.A., which in turn holds 99.14% of the Abertis Group. For additional information, see “*– Business segments – Motorways – Business of the Abertis Group*”. As a result of such acquisition, Mundys had significantly expanded its toll road concession portfolio and established a partnership with ACS and Hochtief, leading international constructions groups, through the acquisition of a 23.86% participation in Hochtief by Mundys. Since 2021, Mundys has reduced its shareholding in Hochtief and ultimately, in September 2022, sold its remaining stake in Hochtief to ACS. In addition, on 27 July 2023, Mundys and ACS entered into a new strategic collaboration agreement (the “**Strategic Collaboration Agreement**”) in respect of Abertis with the main objective of strengthening Abertis’ global leadership in transport infrastructure concessions. Pursuant to the Strategic Collaboration Agreement, Mundys and ACS committed to support an investment plan to expand Abertis’s portfolio of assets under management and promote its growth and value creation. The Strategic Collaboration Agreement also includes a new governance scheme whereby each of Mundys and ACS will be able to appoint the same number of directors of Abertis, as well as to jointly appoint its top executives. As a result, Mundys will continue to appoint the CEO and the Secretary of the board of directors, while ACS will appoint the Chairman of the board of directors and the CFO. The agreement assessment confirmed that Mundys has the ability to manage the relevant activities that significantly affect Abertis variable returns under IFRS. Furthermore, as part of the Strategic Collaboration Agreement, ACS has agreed to transfer a 56.76% stake in the SH-288 highway in Houston, Texas, United States, to Abertis. For additional information, see “*– Business segments – Motorways – Business of the Abertis Group – United States*” and “*– Business segments – Motorways – Business of the Abertis Group – Recent Developments in connection with the Abertis Group*”.

Following the aforementioned transactions, Abertis’ rating has been confirmed by both S&P and Fitch.

In January 2022, Mundys agreed to purchase Yunex GmbH (“**Yunex Traffic**”) and its subsidiaries, a global leader in the innovative Intelligent Transport Systems (“**ITS**”) sector, from the Siemens Group. The acquisition of Yunex Traffic was completed on 30 June 2022. Yunex Traffic’s traffic management and urban mobility infrastructure and platforms are used in over 600 cities and on four continents (Europe, the Americas, Asia and Oceania). For additional information, see “ *Business segments – Mobility services – Business of the Yunex Group*” below.

On 5 May 2022, Mundys sold its entire stake in ASPI to a Consortium consisting of CDP Equity, The Blackstone Group International Partners and Macquarie European Infrastructure Fund 6 SCSp. For additional information, see “ – *Material Agreements*” and “*Risk Factors – Risks Relating to the Disposal of ASPI – Risks related to the provision of indemnities in the share purchase agreement relating the sale of the entire stake in ASPI*”.

In November 2023, Mundys signed an agreement for the sale of the investment (equal to 50%+1 share) in AB Concessões SA. For information on such transaction, see “ – *Business segments – Motorways – Business of the Other Overseas Motorways*”.

As a result of these transactions, as at the date of this Base Prospectus the Group’s operations encompass a wide range of assets located in several countries.

Take private of Mundys

Voluntary Tender Offer

On 14 April 2022, BidCo announced a voluntary public tender offer on all Mundys’ outstanding shares (corresponding to 66.90% of the shares in issue and listed on the Euronext Milan Stock Exchange, including treasury shares held by Mundys), with the exception of the 273,341,000 shares held by Sintonia S.p.A. (“**Sintonia**”), representing 33.10% of the issued capital (the “**Offer**”). On 9 December 2022, BidCo successfully completed the voluntary tender offer and acquired the entire share capital of Mundys. Consequently, effective from 9 December 2022, Mundys has been delisted from Euronext Milan Stock Exchange and is currently wholly-owned by Edizione S.p.A., Blackstone Infrastructure Partners and Fondazione CRT. See “*Shareholders*”.

Upstream Loan

The following significant transactions relating to the Group have been completed since the completion of the Offer:

- on 9 December 2022, following the Offer, BidCo acquired the entire share capital of the Issuer. The Offer was funded through a combination of equity and debt; in this respect, Schemaquarantadue S.p.A. (“**HoldCo**”), the company controlling BidCo, incurred approximately €8,225 million indebtedness to fund the Offer (the “**Acquisition Indebtedness**”) in addition to the funds provided by its shareholders;
- in order to reduce the financial costs of the Acquisition Indebtedness and in view of the Merger (see below “ – *Merger*”), on 16 January 2023 the Issuer granted an intercompany upstream loan of up to €8,225 million at arms’ length conditions to HoldCo in order to repay the Acquisition Indebtedness (the “**Upstream Loan**”). The Upstream Loan allowed HoldCo to immediately repay the Acquisition Indebtedness, which was drawn in November 2022. As a result of the Upstream Loan, the Issuer has reduced its liquidity for a corresponding amount and recorded a €8,225 million unavailable reserve in its equity;

- following the granting and drawdown of the Upstream Loan, HoldCo has repaid in full the Acquisition Indebtedness;
- following the merger pursuant to which HoldCo and BidCo merged into Mundys, the Upstream Loan has been extinguished pursuant to Article 1253 of the Italian Civil Code.

Merger

On 15 February 2023, the relevant corporate bodies of Mundys, HoldCo and BidCo approved the trilateral reverse merger pursuant to which HoldCo and BidCo are merged into Mundys (the “**Merger**”).

The merger deed has been executed on 26 April 2023 and the Merger is effective as of 30 April 2023, while the accounting effects of the Merger are applied retrospectively from 1 January 2023. Mundys, as the company resulting from the merger, has adopted the new by-laws (the “**New By-Laws**”) and the following changes have been made to the Issuer’s share capital structure:

- the Issuer’s current 6,598,210 treasury shares, with no express par value, have been cancelled, without reducing Mundys’ share capital;
- additional 339,706,118 Mundys shares held by BidCo, with no express par value, have been cancelled, without reducing Mundys’ share capital;
- the remaining 479,479,662 Mundys shares held by BidCo and HoldCo, with no express par value, have been converted – in line with the provisions of the New By-Laws – into class A1, B and C shares as follows:
 - 273,341,013 class A1 shares, with no express par value;
 - 181,365,129 class B shares, with no express par value; and
 - 24,773,520 class C shares, with no express par value.

It should be noted that the rights and obligations vested in and attached to the classes of shares of HoldCo, under the by-laws of HoldCo in force at the time of the Merger, have been reproduced into the New By-Laws.

In addition to the introduction of the new classes of shares as per the above and the relevant provisions connected therewith (e.g. with reference to the appointment of the corporate bodies), the New By-Laws have provided, among other things:

- a lock-up regarding the transfer of the shares until 16 November 2027, subject to certain exceptions;
- a right of first offer in the event of transfer of the shares and a detailed set of rules governing the transfers of shares including, *inter alia*, tag-along and drag-along rights;
- specific scenarios for the conversion of class shares into shares of different classes;
- the introduction of qualified majorities, at the level of the shareholders’ meeting, for the resolution upon certain matters;
- additional provisions governing, *inter alia*, (a) the possible IPO of Mundys and/or other exit scenarios, (b) the deadlock procedure, (c) procedures to approve certain M&A transactions or transactions concerning the extension of concession agreements, (d) the governance principles of the controlled companies of Mundys, and (e) shareholders’ information rights.

For additional information on the shareholding structure in Mundys following the Merger, see “*Shareholders*”.

In addition, upon the effectiveness of the Merger, the Upstream Loan has been extinguished pursuant to Article 1253 of the Italian Civil Code.

Rebranding of the Group

On 14 March 2023, the extraordinary General Meeting resolved to change the Issuer's name from Atlantia S.p.A. to Mundys S.p.A.. The new company, resulting from a radical transformation followed by the conclusion of the public tender offer, is characterized by a renewed shareholder base, a new management team and a new growth strategy focusing on overseas expansion, with the aim of becoming a global leader in the management of infrastructure and the provision of sustainable integrated mobility services. Mundys' strategic goal is to continue the Group's growth and modernisation, investing in sustainable infrastructure (primarily airports and motorway networks) and in technological innovation, supporting people at all stages in their journey, whether across town or long-distance, by providing quality services designed with a view to caring for the environment. Business of the Abertis Group

Overview

Mundys holds 50% in the share capital of Abertis HoldCo S.A., the holding company of the Abertis Group. As of 31 December 2023, the Abertis Group manages approximately 7,800 kilometers of high-capacity and quality roads and operations in Europe (France, Spain, Italy), the Americas (Chile, Mexico, Brazil, United States, Puerto Rico, Argentina) and Asia (India).

The great majority of projects taken on by the Abertis Group are brownfield projects, where it acts as project manager for the construction work carried out on a concession project, using third-party contractors. Once the construction phase is completed, the operation phase begins, which involves operating and maintaining the toll road and equipment related to the concession. Once a toll road is operational, tolls are collected and a lower level of capex is required. Revenues from toll road concessions depend on the volume of traffic and the tariffs.

The tariffs applicable to the concessions held by the Abertis Group are typically set by the relevant governmental authority as provided in by the relevant concession agreement and usually increases are in line with inflation. The revenues therefore depend greatly on the level of traffic on the relevant infrastructure. Expenses during the operation phase consist principally of operating expenses, which depend primarily on the length, age and state of repair of the toll road, as well as factors such as volumes of heavy traffic and weather conditions as well as financing expenses, which depend primarily on interest rates. In addition, some concession arrangements may contractually require the Abertis Group to maintain a certain level of capex or maintenance investment in the relevant toll road.

With regard to the financial results as of and for the year ended 31 December 2023, the Abertis Group generated €5,532 million of revenues (as compared to €5,096 million for the corresponding period in 2022), €3,887 million of EBITDA (as compared to €3,531 million in 2022). In the same period, the Abertis Group registered a FFO equal to €2,406 million (as compared to €2,116 million in 2022), a net financial debt equal to €25,654 million (as compared to €22,547 million in 2022), and a capex equal to €993 million (as compared to €873 million in 2022).

Abertis has been assigned long term credit ratings of BBB- (stable outlook) and BBB (stable outlook) by S&P and Fitch, respectively.

The following is a description of the operations of the Abertis Group divided by country.

France

France represents the Abertis Group's largest market. In France, Abertis owns 100% stake in Holding d'Infrastructures de Transport ("**HIT**") which in turn holds 100% of Sanef S.A. ("**Sanef**"), among the major toll road operators in France. Sanef, in turn, holds 99.97% of Sapn (Société Des Autoroutes Paris-Normandie) S.A. ("**Sapn**"). The Abertis Group directly manages 1,769 kilometers of toll roads in France. Investee (not controlled) companies manage 10 km. The Abertis Group has two concessions in France, namely Sanef and Sapn, which are set to expire in 2031 and in 2033.

Tariff rates are regulated and adjusted in accordance with local laws and the respective concessions contracts. Adjustments in tariff rates for the concessions are made on an annual basis and determined by reference to factors including inflation, with a minimum annual rate increase of 70% of the inflation index.

The HIT and Sanef sub-group, within the framework of "Plan de Relance" for French toll roads formalised in 2015, reached an agreement with the French Government to make investments for a compensated amount of €590 million (2012 euro value) to upgrade the toll road network in exchange for the extension of the term of the concessions (two years for Sanef and three years and eight months for Sapn). As at 31 December 2023, investments amounting to €659 million had been made.

The thirteenth amendment to the Sanef concession agreement and the eleventh amendment to the Sapn concession agreement, both approved by decree on 28 August 2018, provided additional toll rates increases between 2019 and 2021 of 0.225% for Sanef and 0.218% for Sapn in compensation of the €122 million (2016 euro value) of new investments made within the "Plan d'Investissement Autoroutier" for the period 2018-2022.

The twelfth amendment to the Sapn concession agreement, approved by decree on 21 December 2021, integrated into the Sapn concession agreement the ability to transform the tolling system of the A13 and A14 motorways into a free-flow tolling system. The €122 million (2018 euro value) investment associated with this project will be compensated by an additional tariff increase of 0.22% between 2022 and 2024, the cancellation of several contractual obligations and a terminal value in 2033. The amendment sets out a contractual protection for the concessionaire in case the number of toll-violators exceeds certain thresholds.

The fourteenth amendment to the Sanef concession agreement and the thirteenth amendment to the Sapn concession agreement, both approved by decree on 31 January 2023, provided additional toll rates increases for Sanef and Sapn and the cancellation of several contractual obligations in compensation of €143 million of new investments for Sanef and €38 million (2020 euro value) of new investments for Sapn.

For the year ended 31 December 2023, the capex of the Group in relation to France was €178 million.

Spain

In Spain, the Abertis Group operates concessions directly through concession companies Autopistes de Catalunya, S.A.C.G.C. ("**Aucat**"), Túneles de Barcelona i Cadí, CGC, SA ("**Túneles**"), Castellana de Autopistas, S.A. ("**Castellana**"), Autopista Vasco-Aragonesa, C. E. S. A. ("**Avasa**"), Autopistas de León, S. A. C. E. ("**Aulesa**"), Trados M-45 S.A. ("**Trados 45**") and Autovia del Camino S.A. ("**Autovia del Camino**") and also has a non-controlling interest in Autopista Terrassa-Manresa, S.A., C.G.C. ("**Autema**").

The Abertis Group has seven concessions in Spain, directly managing 633 kilometers of toll roads. In addition, investee (not controlled) companies manage 48 km (1 concession). The concessions held by the Abertis Group in Spain are set to expire between 2026 and 2055. As at 31 December 2022, the motorways segment operated by Autovia del Camino generated about €50 million of revenues and €45 million of EBITDA. For further information, see "*– Recent Developments in connection with the Abertis Group - Further information on recent M&A transactions*" below.

Tariff rates are regulated and adjusted in accordance with local laws and the respective concessions contracts. Adjustments in tariff rates for the concessions are made on an annual basis and determined by reference to factors including the consumer price index and traffic volumes. As a result of the high average consumer price

index applicable in the tariff revision for 2023, it was agreed for the Castellana, Aulesa and Avasa concessions that the update will be carried out gradually by means of successive increases until 2026.

For the year ended 31 December 2023, the capex of the Group in relation to Spain was €25 million.

Brazil

In Brazil, Abertis has a controlling interest of 41.97% in the following concession companies belonging to the Arteris sub-group: Concessionária de Rodovias do Interior Paulista S.A. (“**Intervias**”), Autopista Planalto Sul S.A. (“**Planalto Sul**”), Autopista Fluminense S.A. (“**Fluminense**”), Autopista Fernão Dias S.A. (“**Fernão Dias**”), Autopista Régis Bittencourt S.A. (“**Régis Bittencourt**”), Autopista Litoral Sul S.A. (“**Litoral Sul**”), and Via Paulista S.A. (“**Via Paulista**”). The Abertis Group has seven concessions in Brazil managing 3,200 kilometers of toll roads. The concessions are set to expire between 2025 and 2047.

Tariff rates are regulated and adjusted in accordance with local laws and the respective concessions contracts. Adjustments in tariff rates for the concessions are made on an annual basis and determined by reference to factors including inflation and the level of capex, where investments are compensated through a right to increase tariffs by a value stipulated under the concession agreements.

For the year ended 31 December 2023, the capex of the Group in relation to Brazil was €500 million.

Chile

In Chile, the Abertis Group’s operations consist of controlling interests in the concession companies belonging to the Vias Chile sub-group: Sociedad Concesionaria Autopista Central S.A. (“**Autopista Central**”), Sociedad Concesionaria Rutas del Pacífico S.A. (“**Rutas del Pacífico**”), Sociedad Concesionaria Autopista de los Andes S.A. (“**Andes**”), and Sociedad Concesionaria Autopista Los Libertadores S.A. (“**Libertadores**”), managing a total of 412 kilometers of toll roads. The Abertis Group has four concessions in Chile which are set to expire between 2025 and 2036.

Tariff rates are regulated and adjusted in accordance with local laws and the respective concessions contracts and supplementary agreements. Adjustments in tariff rates for the concessions are made on an annual basis.

Certain of the Abertis Group subsidiaries operating in Chile have entered into arrangements with the Chilean Ministry of Public Works in order to carry out certain investments relating to the upgrading and extension of the infrastructure.

In particular, on 19 November 2019, Autopista Central entered into a non-binding framework memorandum of understanding with the Chilean Ministry of Public Works so as to agree an annual elimination of the tariff increase above the consumer price index (up to 3.5%) plus potentially committing certain investment up to a maximum, in net present value, of about 9,000,000 Unidades de Fomento (UF) (a Chilean currency unit indexed according to inflation) net of VAT which could be part of Phase 2 of the construction work in connection with the Nudo de Quilicura junction. The impact of the elimination of the 3.5% in tariffs, together with the potential investments, and other marginal impacts associated with the implementation and operation of this agreement will be offset by at least a 12 month extension to the concession arrangement (until July 2032), with the Ministry of Public Works maintaining the option of making a direct payment for any non-compensated balances at the end of the extended period, or of granting a further extension of the concession term. This memorandum of understanding was executed in December 2019 by means of an Ad Referendum agreement. The publication in the Chilean Official Gazette was made on 31 January 2020, which establishes the general conditions for the elimination of the annual real adjustment of 3.5% of the tariffs established in section 1.14.7 of the bidding terms. As a result, the said tariffs will be adjusted annually only by reference to the consumer price index, unless otherwise indicated by the Ministry of Public Works from 2021 onwards.

On 7 October 2021, Autopista Central signed an agreement with the Chilean Ministry of Public Works for the deployment of a major capex aimed at removing bottlenecks from one of the most congested areas in the northern part of Santiago de Chile. The project consists of the construction of Túnel Lo Ruiz connecting

territories within the metropolitan area of Santiago de Chile (interchange between the General Velásquez stretch of Autopista Central and the Américo Vespucio Norte portion of Santiago ring road). Total project costs are in excess of €300 million. As part of this agreement, the duration of the Autopista Central concession could be extended by a further 20 months (until March 2034). This project will allow Santiago to benefit from reduced pollution and road users to achieve fuel and travel times savings due to the improved traffic flow. The project includes 22 hectares of new public spaces for leisure, including over 6 hectares of re-greening. The first tender process for the construction did not receive valid offers and the second one was not completed because no offers were received. The candidates in the process represented that current building costs did not allow them to submit competitive bids. The agreement with the Chilean Ministry of Public Works states that if the second tender is declared void, the duration of the concession will not be extended. Nevertheless, the concessionaire and the Chilean Ministry of Public Works are in the final stages of negotiation regarding adjustments necessary to make the project viable. The amount of investment has been pre-agreed.

For the year ended 31 December 2023, the capex of the Group in relation to Chile was €29 million.

Italy

In 2016, the Abertis Group acquired 51.4% of A4 Holding S.p.A. (“**A4 Holding**”). Through various purchase transactions, the stake in A4 Holding was increased to 91.26%. The Italian business has one concession, managing 236 kilometers of toll roads, and is set to expire on 2026.

Tariff rates are regulated and adjusted in accordance with local laws and the respective concessions contracts. Adjustments in tariff rates for the concessions are made on an annual basis and determined by reference to factors including inflation, a remuneration factor for the investments already made (which could be positive or negative), a remuneration factor for the future investments, and a quality premium in relation to the quality of the pavement and the number of accidents.

For the year ended 31 December 2023, the capex of the Group in relation to Italy was €84 million.

Mexico

In Mexico, the Abertis Group has a 53.1% of Red de Carreteras de Occidente S.A.B. de C.V. (“**RCO**”), through a Mexican special purpose vehicle. RCO is one of the main toll road networks in Mexico constituting the main transportation route in the central-western region, connecting the main industrial corridor of El Bajío with the two largest cities (Mexico City and Guadalajara).

The Abertis Group has five concessions managing nearly 1,011 kilometers of toll roads, which are set to expire between 2025 and 2048.

On 10 February 2020, the Secretaría de Infraestructura Comunicaciones y Transportes (“**SICT**”) proceeded to modify the concession title granted to RCO, in order to incorporate the construction, operation, conservation and maintenance of the following road sections: (i) a toll-free segment with an approximate length of 39.3 kilometers, starting at the junction with the Maravatío-Zapotlanejo highway at km 360, in the State of Michoacán, and ending at the junction with the start of the Bypass Norte de La Piedad, in the State of Guanajuato (Ecuandureo-La Piedad); (ii) a toll-free segment with an approximate length of 71.3 kilometers, starting at the junction with the Maravatío-Zapotlanejo highway at km 168, in the State of Michoacán, and ending in Zitácuaro, in the State of Michoacán (Maravatío-Zitácuaro); and (iii) a toll-free bypass with an approximate length of 25.0 kilometers, beginning at the junction with the Zapotlanejo-Lagos de Moreno highway at km 146, in the State of Jalisco, and ending at the junction with the Lagos de Moreno-San Luis Potosí highway, in the State of Jalisco (Libramiento de Lagos de Moreno) (the Ramales). The total estimated investment as per the SICT modification agreement amounts to 7,951 million Mexican pesos. The foregoing is in accordance with the outline and project authorised by the SICT as part of the expansion works contemplated by the concession title. The construction of such branches constitutes additional projects that were not originally considered in the concession title and in order to maintain the economic balance of the

concession, the aforementioned modification contemplates a term extension of the concession for a period of six years, until 3 April 2048.

For the year ended 31 December 2023, the capex of the Group in relation to Mexico was €59 million.

Puerto Rico

In Puerto Rico, the Abertis Group holds a 51% stake of Autopistas Metropolitanas de Puerto Rico LLC. and wholly owns Autopistas de Puerto Rico y Compañía, S.E. and Puerto Rico Tollroads LLC. It has three concessions and 285 kilometers of roads, which are set to expire in 2044 and 2063. As at 31 December 2023, the motorways segment operated by Puerto Rico Tollroads LLC generated about €160 million of revenues and €120 million of EBITDA.

Tariff rates are regulated and adjusted in accordance with local laws and the respective concessions contracts. Adjustments in tariff rates for the concessions are made on an annual basis and determined by reference to factors including the consumer price index.

For the year ended 31 December 2023, the capex of the Group in relation to Puerto Rico was €2,672 million, of which €2,663 million corresponds to Puerto Rico Tollroads LLC.

Argentina

The Abertis Group has an interest in Autopistas del Sol (“**Ausol**”) (49.92% of the votes and 31.59% of the shares) and Grupo Concesionario del Oeste (“**GCO**”) (49.99% of the votes and 48.60% of the shares). It has two concessions across 175 kilometers of toll roads, which are set to expire in 2030.

Tariff rates are regulated and adjusted in accordance with local laws and the respective concessions contracts. Adjustments in tariff rates for the concessions are made twice a year and determined by reference to factors including inflation, currency devaluation and capex. Nonetheless, tariff increases have been lower than those that should be applied in accordance with the provisions of the concessions agreements since January 2019. Indeed, in response to the requests of Ausol and GCO relating to tariff adjustments for the years 2020, 2021, 2022 and 2023, the National Highway Administration of Argentina granted for both concessions an adjustment of (i) 9.9% applicable from 1 July 2021; (ii) 26.4% applicable from 17 February 2022; (iv) 50% applicable from 13 May 2023; (iv) 40% applicable from 1 August 2023; and (v) 50% applicable from 30 November 2023. Ausol and GCO will continue to pursue their rights for the recognition of existing agreements.

For the year ended 31 December 2023, the capex of the Group in relation to Argentina was €1 million.

United States

In the United States, the Abertis Group, through Abertis USA Holdco LLC, has a 55.2% indirect stake in Elizabeth River Crossings Holdco, LLC and a 56.76% stake in Blueridge Transportation Group, LLC. It has two concessions and 28 kilometers of toll roads, expiring on 2068 and 2070.

The Abertis Group, through Abertis USA Holdco LLC, acquired through a transaction consummated on 30 December 2020 a 55.2% indirect stake in Elizabeth River Crossings Holdco, LLC, which wholly owns Elizabeth River Crossings Opco, LLC (“ERC”), which in turn operates the tolled Elizabeth River Tunnels Project in the Hampton Roads region, Virginia, United States. On 10 November 2021, ERC signed with the Virginia Department of Transportation (“VDOT”) an amendment to its concession agreement on the Downtown Tunnel/Midtown Tunnel/Martin Luther King Freeway (“Amendment 9”). In accordance with such Amendment 9, ERC agreed to (i) defer the 2021 tariff increase, which will be spread equally across the 2022-2024 period, and (ii) increase the contribution of ERC to the toll-relief program to \$1 million, in consideration of the commitment of VDOT to make administrative changes that will improve video-tolling collections, billing processes and reduce the number of toll violators. VDOT will also compensate ERC for certain portions of the projects that are not tolled.

On 30 September 2023, the Abertis Group entered into a sale and purchase agreement with Iridium Concesiones de Infraestructuras, S.A., a member of the ACS group to indirectly acquire, for an amount of approximately \$1.53 billion, a 56.76% stake in Blueridge Transportation Group, LLC (“**BTG**”) which operates the SH-288 highway, in the south Houston, Texas, United States. After obtaining the relevant regulatory approvals the transaction closed on 27 December 2023. As at 31 December 2023, BTG generated €79 million of revenues and €55 million of EBITDA. For further information, see “ - *Recent Developments in connection with the Abertis Group - SH-288 highway – Termination for convenience*” and “ - *Recent Developments in connection with the Abertis Group – Growth in enterprise value*” below.

For the year ended 31 December 2023, the capex of the Group in relation to United States was €4 million.

This represents a total of two concessions covering 152 kilometres of toll roads, which are set to expire in 2026 and 2027.

Tariff rates are regulated and adjusted in accordance with local laws and the respective concessions contracts. Adjustments in tariff rates for the concessions are made on an annual basis and determined by reference to factors including the whole sale price index as released by the Indian Office of the Economic Advisor, Ministry of Commerce and Industry.

Recent Developments in connection with the Abertis Group

SH-288 highway – Termination for convenience

The Texas Transportation Commission on its meeting of 28 March 2024 authorised the creation of a transportation corporation that will act on behalf of the Texas Transportation Commission in the acquisition, development, financing, refinancing, design, construction, reconstruction, expansion, tolling, operation and/or maintenance of any toll project within the state as determined by the Texas Transportation Commission. The Texas Transportation Commission also authorised Texas Department of Transportation (“**TxDOT**”) to exercise its termination rights under the concession contract for the SH-288 toll road currently owned by the Abertis Group (57% and controlling shareholder) and the ACS Group (43%) (see, “ - *United States*” above).

The Texas Transportation Commission made clear that its decision does not make any change to the SH-288 project and was not a reflection of any deficiency in BTG’s management of the project, which has been operating the toll road with notable success since its entry into operation in November 2020. The Texas Transportation Commission also announced that before taking any decision, it will open a period of a few months of conversations with BTG and that it is committed to act in the best interests of the State of Texas, TxDOT and the people of the State of Texas.

On 8 April 2024, BTG received a Notice of Termination for Convenience, in which TxDOT notifies the Abertis Group about the intentions to terminate the relevant agreement and establish a termination date as of 8 October 2024. However, BTG will endeavour to identify alternative actions that TxDOT may determine to be in the best interests of the State of Texas and the public, which is the stated objective of the Texas Transportation Commission.

Further information on recent M&A transactions

The total enterprise value of the business operated by Abertis grew up to approximately €6 billion following the completion of the following transactions which dealt with the motorways segment, namely:

- the awarding of a new tollroad concession in Puerto Rico in October 2023, resulting in 195 kilometers of motorway to be operated and maintained until 2063 through Puerto Rico Tollroads (a wholly-owned subsidiary of Abertis). For further information, see “ – Puerto Rico” above;
- the acquisition of a 56.76% stake in BTG, resulting in a 16 kilometers of motorway to be operated and maintained until 2068. For further information, see “ – United States” above and “ - Recent Developments in connection with the Abertis Group - SH-288 highway – Termination for convenience” above;
- the acquisition of the whole share capital of Autovia del Camino from the UBS Infrastructure Funds, resulting in 72 kilometers of motorway to be operated and maintained until 2030. For further information, see “ – Spain” above.

This transactions are in line with Abertis' growth strategy aiming at extending portfolio's average tenor and increasing exposure to hard currencies while maintaining a disciplined approach. In this context, Abertis' new shareholders agreement confirms commitment to growth and to maintain investment grade rating.

Abertis HoldCo equity contribution

On 30 January 2024 the extraordinary shareholders meeting of shareholders of Abertis resolved for Abertis HoldCo S.A. (majority shareholder of Abertis) to make, on its own, a cash contribution of €1,300 million to Abertis' equity. That cash contribution was made on 15 February 2024 and has been recorded net of the part corresponding to the minority shareholders of Abertis (€1,289 million) in 2024. For information on the use of proceeds of such equity contribution, see “ - Further information on recent M&A transactions” above.

Business of the Other Overseas Motorways

The Other Overseas Motorways business segment includes the concessions for the construction, operation and maintenance of toll motorways in Chile and Poland, covering a total network of approximately 400 kilometers. The overseas motorways are governed and regulated by tariff models which generally provide for the updating of the tariffs on an annual basis and according to the inflation recorded in the country in which they operate and according to further specific regulatory parameters for each concession. It aims to organic growth driven by a mix of traffic performance and inflation-linked tariffs. This segment also includes the Mundys Group's financial holding companies, through which Mundys controls the above overseas operators.

In Chile, the Group controls 50.01% of the share capital in Grupo Costanera (the remaining shares are held by the CPP Investments fund), through which it operates nine motorway concessions corresponding to 337 kilometers, which are set to expire from 2026 and 2052.

In Poland, the Group controls 61.20% of the share capital in Stalexport Autostrada Malopolska (“**Stalexport**”), through which it operates one motorway concession of 61 kilometers, which is set to expire in 2027 and which is listed on the Warsaw Stock Exchange.

Furthermore, with regard to the concessions held in Brazil, in November 2023, Mundys signed an agreement for the sale of the investment (equal to 50%+1 share) in AB Concessões SA, held through Autostrade Concessões e Participações Brasil Limitada. The sale agreement also covered the companies directly controlled by AB Concessões SA, such as Triangulo do Sol, Nascentes das Gerais (Rodovia MG050), Rodovias das Colinas and Soluconas Conservacao Rodoviaria, in addition to the joint venture, Rodovias do Tietê (the “**ABC Group**”). The agreed price is €1,025 million Brazilian reais (equal to €191 million converted at the spot rate on 31 December 2023), plus a ticking fee accruing from 1 June 2023 through to the date of sale and an earnout of up to a maximum €592 million Brazilian reais (equal to €110 million converted at the spot rate on 31 December 2023) linked to potential extensions of the terms of certain motorway concessions part of ABC Group. The earn-out has been currently valued for accounting purposes as at 31 December 2023 at zero given the uncertainty around award of the above extensions. The transaction for the disposal of AB Concessões SA and its direct holding company Autostrade Concessões e Participações Brasil Limitada was completed in May 2024.

With regard to the financial results as of and for the year ended 31 December 2023, the Other Overseas Motorway, including the concessions held in Brazil by Mundys, generated €773 million of revenues (as compared to €729 million for the corresponding period in 2022), €480 million of EBITDA (as compared to €511 million in 2022); in the same period, the Other Overseas Motorway registered a FFO equal to €412 million (as compared to €421 million in 2022), a net financial debt equal to €317 million (as compared to negative €7 million in 2022), and a capex equal to €91 million (as compared to €99 million in 2022).

Business segments - Airports

Overview

The activities of the Group with respect to the operation of airports are carried out by:

- the ADR Group, led by ADR, which operates two airports in Italy;
- the ACA Group, led by ACA, which operates three airports in France.

Growth in the airports sector, which is close to returning to the levels of traffic seen before the Covid-19 pandemic, continues to be driven mainly by tourism and is well supported by the increased capacity offered by carriers. In this situation, the Group’s business strategy aims to realise the full potential for connectivity at the airports operated by the Group, with particular focus on growing inbound international traffic. To support this growth, it is essential to continue to develop modular, flexible infrastructure based on a green airport model, accompanied by a commitment to the sector’s decarbonisation and innovation, and focused on user needs and on consolidating leadership in terms of operational quality.

Priority will be given to ongoing development of the services offered to passengers, seeking to simplify the travel experience, accelerating the introduction of digital technologies and continuing to expand the retail and leisure offering at the Group’s airports.

ADR manages the Rome airport system pursuant to a concession granted by the Italian Concession Grantor originally expiring on 30 June 2044 and subsequently extended to 30 June 2046. The Rome airport system (the “**Rome Airport System**”) consists of (i) the “Leonardo da Vinci” international airport, located in Fiumicino, Rome (“**Fiumicino**”), awarded Skytrax 5 Stars Airport in 2023 and ACI Best Airport > 40 Mpax in Europe for the seventh time; and (ii) the

“Giovanni Battista Pastine” airport located in Ciampino, Rome (“**Ciampino**” and together with Fiumicino, the “**Airports**”).

ADR operates under a dual-till model allowed by the relevant Concession and its consolidated revenues are composed by:

- (i) aeronautical revenues derived from airport fees and air tariff charges levied on airlines, which are based on the number of passengers, maximum total aircraft weight, aircraft noise levels and the length of time that an aircraft is parked at the airport, in each case, linked to the estimated rate of inflation in Italy; and
- (ii) non-aeronautical revenues derived primarily from royalties from retail concession fees and car parking.

With regard to the financial results as of and for the year ended 31 December 2023, the ADR Group generated €890 million of revenues (as compared to €664 million for the corresponding period in 2022), €469 million of EBITDA (as compared to €300 million in 2022); in the same period, the ADR Group registered a FFO equal to €377 million (as compared to €257 million in 2022), a net financial debt equal to €1,131 million (as compared to €1,195 million in 2022), and a capex equal to €323 million (as compared to €215 million in 2022).

Aeronautical activities

Aeronautical activities directly connected with the airport management business segment include airport charges, centralised infrastructure, security services and other related activities, and more specifically:

- revenues related to airport charges consist of landing and take-off fees and parking charges, passenger boarding charges and cargo charges;
- revenues related to centralised infrastructure derive, in particular, from the passenger loading bridges connecting the airport terminal gate to an aircraft;
- security services revenues are attributable to: passengers and hand baggage checks and checked-in baggage screening; and
- other aeronautical activities revenues are attributable to: assistance to passengers with reduced mobility, passengers check-in desk, other aeronautical revenues (baggage handling and left luggage, self-service trolleys and other related activities).

Non-aeronautical activities

Non-aeronautical activities of the ADR Group include real estate activities, commercial activities (including sales, sub-concessions and utilities, car parks, advertising, shops and food and beverage outlets) and other related activities, and more specifically:

- revenues arising from the retail outlets are mainly attributable to the following activities: core categories, specialist retail (including clothing, accessories, electronics, newsagents, etc.), food and beverage and other commercial activities such as currency exchange counters, VAT refund and the luggage wrapping business;
- revenues deriving from real estate activities are attributable to: fees and utilities for retail and other sub-concessions and other fees charged at Fiumicino and Ciampino, calculated on the volumes of activities managed (hotels, car hire, car wash, fuel stations, etc.);
- car parks revenues attributable to: passenger car parking and airport operator car parking;
- revenues deriving from the advertising business;
- revenues arising from construction services;

- revenues from other activities including cleaning fees and biological wastewater treatment, other sales (fuel, consumable materials, etc.) and information systems; and
- revenues from real estate activities in the Airports' premises, including commercial sub-concessions revenues.

ACA also operates AGST on a long term leasehold basis and a 26-site Fixed Base Operator (“**FBO**”) activity (“**Sky Valet**”), each outside the ANCA-ACM Concession perimeter. See also, “– *Recent developments in relation to ACA Group – Sky Valet Spain and Sky Valet Portugal disposal*” below.

With 14.2 million passengers in 2023, the ACA Group is the second business aviation operator in France after the Paris airport system.

ACA Group generates revenues within the Concession perimeter from three primary sources:

- aeronautical activities, which include regulated activities directly connected with the management and operations of ANCA and ACM, such as revenues earned from airlines for the use of airport infrastructure in transporting passengers, cargo and mail (both in respect of commercial aviation and general aviation);
- non-aeronautical activities, including commercial activities such as retail, food & beverage, VIP lounges, car rental and other non-aeronautical activities mainly including parking, property and fuel revenue across all three platforms; and
- other activities, including airport taxes and others.

Recent Developments in relation to the Yunex Group

Appointment of new CEO of Yunex Traffic

On 1 March 2024, Jon Newhard was selected by Mundys – as the sole long-term shareholder – to lead the next phase of Yunex Traffic's growth and to drive value creation in all areas in which the company operates, as well as in particularly strategic countries such as the USA, where the manager was born and has spent most of his professional life.

Miami-Dade- County

In execution of the resolution of Board of Commissioners of Miami-Dade County dated 19 March 2024, on 2 April 2024 the County's Strategic Procurement Department notified to Yunex LLC the termination for default, with effect from 5 March 2024, of the contract entered into in 2020 between Siemens Mobility Inc. and the Miami-Dade County to upgrade the County's Advanced Traffic Management System and traffic signal controllers, then assigned to Yunex LLC in 2021. Yunex and Mundys believe that the termination for default is groundless and, therefore, already on 19 March 2024 Yunex LLC filed a civil lawsuit against the client Miami-Dade County in the District Court of Miami-Dade invoking the breach of contract and the unlawful termination of the same by the client, requesting to be indemnified by the client for all the damages suffered. Such position was subsequently confirmed by Yunex LLC also in the letter sent on 5 April 2024 to Miami-Dade County in response to the termination notice. For further information see "*Yunex Group – Miami-Dade County (USA)*" in section entitled "*10.5 Significant Events*" of the "*Mundys' Consolidated Financial Statements as of and for the year ended 31 December 2023*" of the 2023 Integrated Annual Reports, incorporated by reference into this Base Prospectus.

Sustainability

Sustainable growth

In managing its business, the Group is focused on acting in accordance with environmental, social, ethical and governance principles that comply with the best international standards as rated by all the main ESG rating providers and it is committed to create shared value along the value chain, by combining industrial goals with the socio-economic development of the areas and communities the Group operates in.

Mundys has reported on its sustainability performance for over 10 years, since 2011 annually publishing an integrated report that complies with the International Integrated Reporting Framework (IIRC) and, since 2020, an integrated annual report. The Issuer promotes transparency in the public disclosure of sustainability issues, impacts and performances at Group companies

Sustainability governance

Mundys believes that active corporate governance is key to making concrete progress towards implementing the climate change strategy and thus fulfilling our responsibilities to all the stakeholders.

The oversight of ESG issues by the Board of Directors is a good governance practice that Mundys also encourages its asset companies to adopt, requesting approval of ESG plans and targets by the respective boards at main subsidiaries. Board and executive committees that oversee ESG issues, including those regarding climate change, have already been set up within all the main subsidiaries and this approach is progressively being extended throughout the Group.

Incentive remuneration for Mundys’ CEO, executives and managers was since 2021 linked to ESG performance for both annual incentive and long-term incentive and milestones of the Group’s ESG plan, including emissions reduction targets, were vesting conditions of the incentive awards.

Mundys has since 2021 a committee supporting the Board of Directors in overseeing the climate strategy and in promoting the integration of ESG factors within the business, including in risk management. The duties of the sustainability committee are included into the “Control, Risk and Sustainability Committee”.

Sustainability strategy

In the challenging and constantly evolving market environment, Mundys aims to create shared value along the value chain by combining industrial, economic and financial goals with the socio-economic development of the areas and communities Mundys operates in. Mundys actively promotes and drives change by playing a central role in the mobility ecosystem, ensuring efficient, safe and sustainable integration between the various levels of the mobility ecosystem, through the synergistic interplay of physical and digital infrastructure and value-added services. Mundys’ sustainability strategy is based on a few key pillars aiming to make a positive contribution to the planet and to people while fostering prosperity in the long term. Sustainability performance

objectives and targets are set for the short and medium-term (2023 and 2030), with decarbonisation targets set for the long-term as well (2040 and 2050).

On 22 December 2023, Mundys published a new Sustainability-Linked Financing Framework (“**Sustainability-Linked Financing Framework**”) embedding sustainability in the Mundys’ financing strategy. The Sustainability-Linked Financing Framework, setting out Mundys’ commitment and specific, measurable targets clearly linked to sustainable financial instruments, applies to both new bond issues and the agreement or conversion of bank borrowings (including existing Revolving Credit Facilities and Term Loans) tied to sustainability KPIs and, above all, to achievements of the related improvement targets.

The Sustainability-Linked Financing Framework has been established in accordance with the five core principles of the 2023 Sustainability-Linked Bond Principles published by the International Capital Market Association, as well as the 2023 Sustainability-Linked Loan Principles as published by the Loan Market Association and detailed as following: (i) selection of the KPI; (ii) calibration of sustainability performance targets; (iii) financial characteristics, (iv) reporting, and (v) verification. The establishment of the Sustainability-Linked Financing Framework is an important next step in Mundys’ effort to align its financing strategy with its mission, objectives and sustainability targets towards 2030 and beyond.

Mundys fosters alliances, initiatives and projects with third parties to promote innovation as a leverage to progress in the decarbonization of the mobility sector. In this regard, Mundys is the corporate leader of the 2023 World Economic Forum and Airport Council International’s initiative “Financing the Airport of tomorrow”, being fully committed to ensure that future investments contribute to the transition to a lower environmental and social impact economy and contribute to the development of the sustainable finance market.

Sustainability milestones

Planet – In April 2022, Mundys put its ambitious Climate Action Plan (“**CAP**”) to an advisory vote by shareholders, becoming the first Italian company to adopt such a transparent and responsible approach towards the market. The CAP consists of more than 150 decarbonisation actions that Group companies are undertaking to reduce CO₂ emissions. In this context, Mundys’ emission reduction targets have been validated by Science Based Target initiative (SBTi). The CAP sets out the steps to be taken to implement the scientific recommendations for curbing global warming, in line with the Paris Agreement adopted at the United Nation’s Climate Change Conference (COP21) on 12 December 2015.

People – With regard to promoting diversity and equal opportunities, the proportion of women in the Group’s workforce as of 31 December 2023 has risen to 36.9% from 36.7% in 2022, whilst 31% of management positions within the Group are occupied by women in comparison with 27% registered in 2022..

Prosperity – With completion of the acquisition of Yunex Traffic, in June 2022, Mundys strengthened its position in the sustainable mobility services sector. Mundys’ technology products and services will have a positive material impact on the quality of life in urban communities, both in terms of reducing CO₂ emissions and mitigating air pollution, and by enhancing community wellbeing through reduced travelling times, social inclusion and improvements to road safety. Intelligent transport systems can help to reduce traffic and make a major contribution to economic efficiency and competitiveness. Moreover, Mundys’ sustainability-oriented approach is further confirmed by the decision to convert all of Mundys’ bank facilities (currently outstanding €912.6 million term loan and €2,000 million revolving credit facility) into Sustainability-Linked Loans and by the issuance of Mundys’ first Sustainability Linked Bond worth €750 million.

Group financial KPIs

The following chart provides an overview on the Group's financial KPIs as of 31 December 2023 and 2022

Main ESG certifications

Mundys has been assigned an "A" rating by the Carbon Disclosure Project (CDP). The Issuer's rating was upgraded from the previous "A-" rating, on a scale from a minimum score of "D-" to a maximum of "A", which resulted in Mundys' inclusion in the "A list" that includes the best 300 global companies from the over 21,000 rated. In addition, confirmation of Mundys' rating as the leader in its sector has been given by various ESG rating agencies, including (i) MSCI ESG Rating, which awarded Mundys with a "AA - Industry leader" rating, on a scale from a minimum score of "CCC" to a maximum of "AAA", (ii) Morningstar Sustainability, which awarded Mundys with a "8.2 (Negligible Risk)" rating, on a scale from a minimum score of "40+ (Severe Risk)" to a maximum of "0 (Negligible Risk)", (iii) Moody's ESG, which awarded Mundys with a "69/100" rating, on a scale from a minimum score of "0/100" to a maximum of "100/100", and (iv) ISS ESG, which awarded Mundys with a "C" rating, on a scale from a minimum score of "D-" to a maximum of "A+".

Amendments to certain Abertis' key performance indicators and targets

During 2023, Abertis carried out a recalculation of its greenhouse gas (GHG) emissions for the years 2019 and 2022, in line with the GHG Protocol and the technical protocol of SBTi. This recalculation, which was externally audited by KPMG Asesores S.L. and implemented by Mundys in the Integrated Annual Report 2023, produced effects on:

- the baseline value of KPI #1 (*Greenhouse Gas Emissions, Absolute Scope 1 and 2 tCO₂e*) of Mundys' Sustainability-Linked Financing Framework, which refers to GHG emissions from scope 1 and scope 2; and

- the baseline value of KPI #2 of Abertis' sustainability-linked financing framework, included in KPI #2 (*Percentage of Abertis and ADR "Scope 3 related" commitments having reached their SPTs*) of Mundys' Sustainability-Linked Financing Framework, which refers to GHG emissions from scope 3 per km travelled.

In April 2024, Abertis also published the update of its sustainability-linked financing framework, incorporating the above changes and updating the SPT to 2027 of its KPI #3 by increasing it from +633 to +833 new EVCPs installed, fully consistent with the company's sustainability strategy, maintaining a level of ambition in line with the initial one, as also confirmed by the assessment of the second party opinion provider commissioned by Abertis.

According to Mundys, the above changes (i) do not significantly harm the interests of stakeholders and holders of financial instruments related to Mundys' Sustainability-Linked Financing Framework, (ii) maintain full consistency with the sustainability strategy, and (iii) are in line with the initial level of ambition of the relevant target scores, as will be confirmed in the progress report to be published by the Issuer.

“On 3 and 5 May 2021, Mundys received two notices of claim, one from Appia Investments Srl (“Appia”) and another from Silk Road Fund (ASPI’s minority shareholders). The claims allege breaches of the representations and warranties given at the time of Mundys’ sale of a 11.94% stake in ASPI in accordance with the respective share purchase agreements (SPAs) signed by the parties in May 2017. The attempt to reach an amicable settlement of the dispute between the parties, in accordance with the SPAs, has failed.

On 31 July 2023, Appia and Silk Road Fund then submitted two requests for arbitration against the Company according to the rules established by the International Chamber of Commerce’s International Court of Arbitration (ICC) asserting claims in relation to the matters set out in the notice of claims of 3 and 5 May 2021. Appia and Silk Road Fund initially quantified their claims at €450 million and €325 million, respectively.

The two arbitrations were subsequently joined into a single arbitration.

On 11 October 2023, the Company responded to the request for arbitration denying all claims both in fact and in law and objecting, among other things, that the Company’s maximum liability under the SPAs entered into with Appia and Silk Road Fund is in any event limited to €109 million and €151 million, respectively. The Company also rejects the claimants’ argument that such limitations do not apply to cases of wilful misconduct or gross negligence and denies any suggestion of wilful misconduct or gross negligence.

On 3 May 2024 Appia and Silk Road filed their statement of claim, which provides the details and evidence in support of their claims. The claimants’ allegations and arguments are substantially the same as those announced in the requests for arbitration, except that the amount of the claims is now quantified at €721 million and €519 million respectively.

Mundys’ statement of defense, together with supporting evidence in response to the claimants’ claims, is due on 16 October, 2024.

The arbitration award will not be issued before late 2025 or early 2026.”.

Legal proceedings

As part of the ordinary course of its business, companies within the Group are subject to a number of administrative, civil and criminal proceedings. As at 31 December 2023, the Group had accrued a €407 million provision in its financial statements for other risks and charges. In accruing such amount, the following factors have been taken into account: (i) risks associated with the relevant legal proceeding; and (ii) relevant accounting principles, which require accrual of liabilities for probable and measurable risks. Consistent with accounting principles, no accrual has been made with respect to legal proceedings whose value cannot be determined, or for which the likelihood of an unfavourable outcome is only possible or remote.

For additional information, see the section entitled “10.5 Significant Events”, starting on page 257 of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports (which are incorporated by reference in these Base Prospectus).

Furthermore, set out below are certain updates and/or further clarification with respect to such legal proceedings.

- After the last sub-paragraph of the paragraph headed “Abertis Group – Spain – ACESA - dispute with the Grantor” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports the following sub-paragraph is added:

“On 26 February 2024, the Supreme Court resolved the request submitted by ACESA to supplement the ruling to include the corresponding legal interest on the recognized amount, which will accrue from 1 March 2022, until the date on which the amount for the recognition of the executed investments is effectively paid.”.

- The last sub-paragraph of the paragraph headed “Abertis Group – Spain – Dispute in relation to the bankruptcy of Alazor Inversiones” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports is replaced by the following:

“Following the criteria determined by the Supreme Court in its judgement, on 27 December 2023, the Grantor issued a complementary resolution on the RPA amounting to €450.7 million, of which €67 million have been reimbursed to Iberpistas. The final resolution on the RPA is expected to be issued in the first half of 2024. As a result of the recalculation of the RPA, the remaining risk of exposure for Abertis group companies had disappeared and therefore the relevant risk provision was fully released”.

- The last two sub-paragraphs of the paragraph headed “Abertis Group – Spain – Dispute in relation to Invicat” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports are replaced by the following:

“On 13 June 2022, Invicat received notice of the Grantor’s decision on its final determination of the compensation due under the agreements. The decision indicates that the sums paid in January 2022 are intended as final, thereby rejecting Invicat’s earlier request for payment of an additional amount. On 14 December 2022, Invicat formally began legal action before the High Court of Catalonia challenging the Grantor’s position and requesting a compensation of €0.3 billion.

The High Court of Catalonia has issued its judgment on 5 June 2024 and has rejected Invicat’s claim for compensation. The Court has considered that the traffic guarantee that Invicat considers enforceable was only applicable if certain investments in the Maresme corridor, which were expected to reduce traffic in the concession roads, were made. However, these investments, which were to be carried out by the State and Regional Public Administrations, were never made.

This judgment will not have any impact on Abertis' financial statements, as the full amount of the claim had already been written off.

Invicat can appeal this judgement before the Supreme Court of Spain.”.

- The last sentence of the third sub-paragraph of the paragraph headed “Abertis Group – Spain – Dispute with Autema” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports is replaced by the following:

“On 12 June 2024, the Court of First Instance has issued its judgement and has dismissed Autema’s and INCA’s claim in full. Autema and INCA may file an appeal against this judgment.”.

- The sub-paragraphs of the paragraph headed “Abertis Group – Brazil” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports are replaced by the following:

“Dispute between Arteris and ARTESP over rebalancing mechanism agreed in 2006

In 2011, the Grantor for the State of Sao Paulo (ARTESP) initiated a process aimed at revoking the Addenda and Amendments signed and approved by the Grantor itself in 2006 after reaching agreement with the 12 operators responsible for the motorways in the State of Sao Paulo. The operators belonging to the Arteris group are Autovias, Vianorte, Intervias and Centrovias, which were taken to court by ARTESP in 2014. The above Addenda and Amendments were designed to extend the concession terms to compensate for, among other things, the costs linked to taxes introduced after the award of the concessions. ARTESP is contesting the fact that the compensation mechanisms agreed in 2006 (and also ratified by the Court of Auditors for the State of Sao Paulo) were calculated on the basis of forecasts in the financial plan submitted when tendering for the concession, as moreover provided for in the Concession Arrangement, and not based on actual figures. The concessions held by Autovias, Vianorte and Centrovias have by now expired and only Intervias’ concession remains in force, with expiry currently due in 2028. Courts of various instances have found against Intervias, Autovias, Vianorte and Centrovias, which have lodged further appeals before the relevant authorities. At the same time, Arteris is negotiating a settlement agreement with ARTESP with a view to resolving all the above disputes and settling all pending claims (payables and receivables) on the above operators. On 20 September 2022 a preliminary agreement was signed in order to establish the premises for settlement of regulatory credits and debits of Autovias, Centrovias, Intervias and Vianorte. On 10 January 2024 the parties signed the definitive agreement “Final Agreement Phase 1” which settled the most significant portion of the disputes between the concessionaires (Autovias, Vianorte, Centrovias and Intervias) and the Grantor through an extension of the Intervias concession (the only one still in force among those mentioned) for twelve years until 31 December 2039 and a maintenance plan for the toll road managed by Intervias. The parties aim at settling the remaining issues during 2024 in a “Final Agreement Phase 2”

Negotiated return of the Fluminense federal concession

Following approval from the federal grantor (ANTT) and Brazil’s Ministry of Infrastructure and the issue of a presidential decree upholding the request for return of the concession, on 15 June 2022, Arteris and ANTT signed an amendment to Fluminense’s concession arrangement, establishing the procedure for handing back the concession over an estimated two-year period from its execution until the re-tender is completed (that can be extended for a further two years). The amendment includes an agreement governing how the section of motorway is to be managed during the transition period. If and when the concession is handed back, Arteris would have the right to receive compensation from ANTT based on undepreciated investment. In the meantime, ANTT would arrange a new auction process to award a new concession of the road. However, in May 2023, the Authority proposed a renegotiation of the concession contract through Ordinance No. 378, and since then, the hand-back process has been

suspended. In response to the proposed renegotiation, Arteris filed a non-binding term sheet in August 2023 with conditions to potentially keep the concession. Consequently, in March 2024, the hand-back deadline was extended to 21 March 2025. This extension would allow the parties to proceed with the friendly hand-back if the contract renegotiation is not successful. If this negotiation is successfully closed, the hand-back process will be abandoned.”.

- The last sentence of the last sub-paragraph of the paragraph headed “Abertis Group – Argentina - Dispute between AUSOL and GCO and the Argentine Government regarding amendments to the concession arrangements agreed in 2018 (Acuerdos Integrales de Renegociación or “AIR”)” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports is replaced by the following:

“On 9 April 2024, Abertis filed its Statement of Claim, claiming compensation amounting to USD 299.5Mn as of 31 December 2023.”.

- The sub-paragraphs of the paragraph headed “Abertis Group – France – Sanef and Sapn - new taxation on long-distance transport operators” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports are replaced by the following:

“In September 2023, the French Government announced a new tax with the stated aim of “preventing the excessive profits of concessionaire companies”. This tax will apply to incomes exceeding 120 million euros per year for operators with an average profitability over 10% in the last seven fiscal years.

The concession agreements of Sanef and Sapn include a protective clause that provides for compensation in the event that a new tax is specifically targeted at toll road concessionaires.

The law has been published on 30 December 2023 and in force since 1 January 2024. The Application Decree defining the practicalities of the tax was published on 9 February 2024.

On 15 March 2024, a group of concessionaires, including SANEF and SAPN, jointly submitted a priority question of constitutionality (question prioritaire de constitutionnalité or ‘QPC’) to the French Conseil d’État to challenge the validity of the Application Decree as it relates to Article 100 of the 2024 Finance Act, on the grounds that this Act deprives SANEF and SAPN of its assets without adequate justification since it is inconsistent with: (i) the principle of equality before taxes and public levies, and (ii) the alleged reasons of public interest.”.

- The last sub-paragraph of the paragraph headed “Aéroports de la Cote d’Azur Group – Covid relief” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports is replaced by the following:

“On 30 June 2023, the process was concluded with the issuance of a conciliation proposal which ACA was willing to use as a basis for discussion. However, on April 11, 2024, the DGAC informed ACA that it did not intend to discuss this proposal. In this context, ACA is preparing the initiation of legal proceedings before the French courts to obtain compensation for the damage caused by Covid.”.

- The last sub-paragraph of the paragraph headed “Aéroports de la Cote d’Azur Group – New taxation on long-distance transport operators” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports is replaced by the following:

“On 14 March 2024, the company together with two other French airport concessionaires appealed to the Council of State for the annulment of this legislation on the grounds of unconstitutionality under French law and incompatibility with European law. On April 18, 2024, the French government

contested both sets of arguments. ACA is preparing responses to the legal argumentation of the French government.”.

- After the last sub-paragraph of the paragraph headed “Yunex Group – Civil proceedings for damages pending in Seattle (USA)” in section entitled “10.5 Significant Events” of the “Mundys’ Consolidated Financial Statements as of and for the year ended 31 December 2023” of the 2023 Integrated Annual Reports is replaced by the following:

“Given the rejection of the claim by Siemens, on 13 May 2024 Mundys sent Siemens a confirmation of its claim.”.

FORMS OF THE NOTES

The Notes of each Series will either be in bearer form (“**Bearer Notes**”), with or without interest coupons attached, or in registered form (“**Registered Notes**”), without interest coupons attached. Bearer Notes will be issued outside the United States in reliance on Regulation S and Registered Notes will be issued both outside the United States in reliance on Regulation S or otherwise in private transactions that are exempt from the registration requirements of the Securities Act.

Bearer Notes

Each Tranche of Notes will initially be in the form of either a Temporary Global Note, without interest coupons, or a Permanent Global Note, without interest coupons, in each case as specified in the applicable Final Terms. Each Bearer Global Note which is not intended to be issued in NGN form, as specified in the applicable Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and each Bearer Global Note which is intended to be issued in NGN form, as specified in the applicable Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. The clearing system will be notified prior to the Issue Date of each Tranche of Notes as to whether the Notes are to be issued in NGN form or CGN form.

On 13 June 2006 the European Central Bank (the “**ECB**”) announced that Notes in NGN form are in compliance with the “Standards for the use of EU securities settlement systems in ESCB credit operations” of the central banking system for the euro (the “**Eurosystem**”), *provided that* certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as at 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

In respect of the Notes in bearer form, the applicable Final Terms will also specify whether U. S. Treasury Regulations §1.163-5(c)(2)(i)(C) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”)) (“**TEFRA C**”) or U. S. Treasury Regulations §1.163-5(c)(2)(i)(D) (or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the Code) (“**TEFRA D**”) are applicable in relation to the Notes.

Temporary Global Note exchangeable for Permanent Global Note

If the applicable Final Terms specify the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note”, then the Notes will initially be in the form of a Temporary Global Note without interest coupons, interests in which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Issuing and Principal Paying Agent; and
- (ii) receipt by the Issuing and Principal Paying Agent of a certificate or certificates of non-U.S. beneficial ownership,

within seven days of the bearer requesting such exchange.

The principal amount of the Permanent Global Note shall be equal to the aggregate of the principal amounts specified in the certificates of non-U.S. beneficial ownership; *provided, however, that* in no circumstances shall the principal amount of the Permanent Global Note exceed the initial principal amount of the Temporary Global Note.

Permanent Global Note exchangeable for Definitive Notes

If the applicable Final Terms specify the form of Notes as being “Permanent Global Note exchangeable for Definitive Notes”, then the Notes will initially be in the form of a Permanent Global Note, without Coupons, interests in which will be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the applicable Final Terms; or
- (ii) at any time, if so specified in the applicable Final Terms; or
- (iii) if the applicable Final Terms specify “in the limited circumstances described in the Permanent Global Note”, then if (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business or (b) any of the circumstances described in Condition 10 of the Conditions occurs.

Where interests in the Permanent Global Note are to be exchanged for Definitive Notes in the circumstances described in (i) and (ii) above, Notes may only be issued in denominations which are integral multiples of the minimum denomination and may only be traded in such amounts, whether in global or definitive form. As an exception to the above rule, where the Permanent Global Note may only be exchanged in the limited circumstances described in (iii) above, Notes may be issued in denominations which represent the aggregate of a minimum denomination of €100,000 and integral multiples of €1,000 in excess thereof, *provided that* such denominations are not less than €100,000 nor more than €199,000 or €99,000. For the avoidance of doubt, each holder of Notes of such denominations will, upon exchange for Definitive Notes, receive Definitive Notes in an amount equal to its entitlement to the principal amount represented by the Permanent Global Note. However, a Noteholder who holds a principal amount of less than the minimum denomination may not receive a Definitive Note and would need to purchase a principal amount of Notes such that its holding is an integral multiple of the minimum denomination.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the applicable Final Terms), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Issuing and Principal Paying Agent within 60 days of the bearer requesting such exchange. Where the Notes are listed on Euronext Dublin (<https://live.euronext.com>) and its rules so require, the Issuer will give notice of the exchange of the Permanent Global Note for Definitive Notes pursuant to Condition 17 of the Conditions.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under “Terms and Conditions of the Notes” below and the provisions of the applicable Final Terms which supplement, amend and/or replace those terms and conditions.

Registered Notes

Each Tranche of Registered Notes will initially be represented by a global note in registered form (“**Registered Global Notes**”). Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Registered Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person, save as otherwise provided in Condition 2 of the Conditions, and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Registered Global Note will bear a legend regarding such restrictions on transfer. The clearing system will be notified prior to the Issue Date of each Tranche of Notes as to whether the Notes are to be held under the NSS or otherwise.

In a press release dated 22 October 2008, “*Evolution of the custody arrangement for international debt securities and their eligibility in Eurosystem credit operations*”, the ECB announced that it has assessed the new holding structure and custody arrangements for registered notes which the ICSDs had designed in cooperation with market participants and that Notes to be held under the new structure (the “**New Safekeeping Structure**” or “**NSS**”) would be in compliance with the “*Standards for the use of EU securities settlement systems in ESCB credit operations*” of the central banking system for the euro (the “**Eurosystem**”), subject to the conclusion of the necessary legal and contractual arrangements. The press release also stated that the new arrangements for Notes to be held in NSS form will be offered by Euroclear and Clearstream, Luxembourg as at 30 June 2010 and that registered debt securities in global registered form held issued through Euroclear and Clearstream, Luxembourg after 30 September 2010 will only be eligible as collateral in Eurosystem operations if the New Safekeeping Structure is used.

Each Note represented by a Registered Global Note will either be: (a) in the case of a Certificate which is not to be held under the NSS, registered in the name of a common depositary (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and the relevant Registered Global Note will be deposited on or about the issue date with the common depositary; or (b) in the case of a Registered Global Note to be held under the NSS, be registered in the name of a common safekeeper (or its nominee) for Euroclear and/or Clearstream, Luxembourg and the relevant Registered Global Note will be deposited on or about the issue date with the common safekeeper for Euroclear and/or Clearstream, Luxembourg.

Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

The Registered Global Notes will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 1 of the Conditions) as the registered holder of the Registered Global Notes. None of the Issuer, the Trustee, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 7(b) of the Conditions) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (1) in the case of Notes registered in the name of a nominee for a common depositary for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available, or (2) the Issuer has or will become obliged to pay additional amounts as provided for or referred to in Condition 8 of the Conditions which would not be required were the Registered Notes represented by the Registered Global Note in definitive form or (3) such other event as may be specified in the applicable Final Terms. The Issuer will promptly give notice to Noteholders in accordance with Condition 17 of the Conditions if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) may give notice to the Registrar requesting exchange and, in the event of the occurrence of an Exchange Event as described in (2) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 15 days after the date on which the relevant notice is received by the Registrar.

Transfer of Interests

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Note. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of Euroclear and Clearstream, Luxembourg, in each case to the extent applicable. Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see “*Subscription and Sale and Transfer and Selling Restrictions*”.

Pursuant to the Agency Agreement, the Issuing and Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned an ISIN and a common code by Euroclear and Clearstream, Luxembourg.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 10 of the Conditions. In such circumstances, where any Note is still represented by a Global Note and a holder of such Note so represented and credited to his account with the relevant clearing system(s) gives notice that it wishes to accelerate such Note, unless within a period of 15 days from the giving of such notice payment has been made in full of the amount due in accordance with the terms of such Global Note, holders of interests in such Global Note credited to their accounts with the relevant clearing system(s) will become entitled to proceed directly against the Issuer on the basis of statements of account provided by the relevant clearing system(s) on and subject to the terms of the relevant Global Note.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and its agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer and its agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions “**Noteholder**” and “holder of Notes” and related expressions shall be construed accordingly.

Any reference herein to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

All capitalised terms that are not defined in these Conditions will have the meanings given to them in the applicable Final Terms. Those definitions will be endorsed on the definitive Notes or Certificates, as the case may be. These terms and conditions (the “**Conditions**”) include summaries of, and are subject to, the detailed provisions of the Trust Deed, which includes the form of the Bearer Notes, Certificates, Coupons and Talons referred to below. An agency agreement dated 19 June 2024 (as amended or supplemented from time to time, the “**Agency Agreement**”) has been entered into in relation to the Notes between the Issuer, the Trustee, The Bank of New York Mellon as initial issuing and principal paying agent and the other agents named in it. Copies of, *inter alia*, the Trust Deed and the Agency Agreement are available for inspection by appointment during normal business hours at the specified office of each of the Issuing and Principal Paying Agent, the Registrar and any other Paying Agents and Transfer Agents (such Paying Agents and the Transfer Agents being together referred to as the “**Agents**”) and at the relevant Agent’s option, such inspection may be provided electronically. Copies of the applicable Final Terms are obtainable by appointment during normal business hours at the specified office of each of the Agents at the relevant Agent’s option, such inspection may be provided electronically save that, if this Note is an unlisted Note, the Final Terms will only be obtainable by a Noteholder holding one of more unlisted Notes and such Noteholder must produce evidence satisfactory to the Issuer and the relevant Agent as to its holding of such Notes and of the Noteholder’s identity.

The Noteholders, the holders of the interest coupons (the “**Coupons**”) relating to interest bearing Bearer Notes and, where applicable in the case of such Notes, talons for further Coupons (the “**Talons**”) (the “**Couponholders**”) are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed and are deemed to have notice of those provisions applicable to them of the Agency Agreement.

All Registered Notes shall have the same Specified Denomination.

The Notes may be Fixed Rate Notes, Floating Rate Notes, Zero Coupon Notes or a combination of any of the foregoing, depending upon the Interest and Redemption/Payment Basis shown in the applicable Final Terms.

Title to the Bearer Notes and the Coupons and Talons shall pass by delivery. Title to the Registered Notes shall pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the “**Register**”). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it (or on the Certificate representing it) or its theft or loss (or that of the related Certificate) and no person shall be liable for so treating the holder.

In the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. (e) *Closed Periods*

No Noteholder may require the transfer of a Registered Note to be registered (i) during the period of fifteen (15) days ending on the due date for redemption of that Note, (ii) during the period of fifteen (15) days prior to any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 6(f), Condition 6(g) or Condition 6(h), (iii) after any such Note has been called for redemption or (iv) during the period of seven (7) days ending on (and including) any Record Date.

The Notes and the Coupons relating to them constitute (subject to Condition 4(a)) unsecured obligations of the Issuer and shall at all times rank *pari passu* and without any preference among themselves and at least *pari passu* with all senior, unsecured and unsubordinated obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

(iii) Rate of Interest for Floating Rate Notes

The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in the manner specified in the applicable Final Terms and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the applicable Final Terms.

(A) ISDA Determination for Floating Rate Notes

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest

for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), “ISDA Rate” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent, as applicable, were acting as Calculation Agent (as defined in the ISDA Definitions (as defined below)) for that swap transaction under the terms of an agreement incorporating (I) unless “2021 ISDA Definitions” are specified as being applicable in the relevant Final Terms, the 2006 ISDA Definitions (as supplemented, amended and updated as at the date of issue of the first Tranche of the Notes of such Series), as published by the International Swaps and Derivatives Association, Inc. (“ISDA”) (copies of which may be obtained from ISDA at www.isda.org); or (II) if “2021 ISDA Definitions” are specified as being applicable in the relevant Final Terms, the latest version of the ISDA 2021 Interest Rate Derivatives Definitions, including each Matrix (as defined therein) (and any successor thereto), each as published by ISDA (or any successor) on its website (<http://www.isda.org>), on the date of issue of the first Tranche of the Notes of such Series, (the “ISDA Definitions”) and under which:

- (x) the Floating Rate Option is as specified in the applicable Final Terms;
- (y) the Designated Maturity is a period specified in the applicable Final Terms;
- (z) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified in the applicable Final Terms;

For the purposes of this sub-paragraph (A), “Floating Rate”, “Calculation Agent”, “Floating Rate Option”, “Designated Maturity” and “Reset Date” have the meanings given to those terms in the ISDA Definitions.

In connection with any Compounding/Averaging Method or Index Method specified in the relevant Final Terms, references in the ISDA definitions to:

- “**Confirmation**” shall be references to the relevant Final Terms;
- “**Calculation Period**” shall be references to the relevant Interest Period;
- “**Termination Date**” shall be references to the Maturity Date; and
- “**Effective Date**” shall be references to the Interest Commencement Date.

If the Final Terms specify “2021 ISDA Definitions” as the applicable ISDA Definitions:

- “Administrator/Benchmark Event” shall be disappplied; and
- if the Temporary Non-Publication Fallback in respect of any specified Floating Rate Option is specified to be “Temporary Non-Publication – Alternative Rate” in the Floating Rate Matrix of the 2021 ISDA Definitions the reference to “Calculation Agent Alternative Rate Determination” in the definition of “Temporary Non-Publication–Alternative Rate” shall be replaced by “Temporary Non-Publication Fallback – Previous Day's Rate”.

(B) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the

Calculation Agent at or about the Relevant Time on the Interest Determination Date in respect of such Interest Accrual Period in accordance with the following:

- (x) if the Primary Source for Floating Rate is a Page, subject as provided below, the Rate of Interest shall be:
 - (I) the Relevant Rate (where such Relevant Rate on such Page is a composite quotation or is customarily supplied by one entity); or
 - (II) the arithmetic mean of the Relevant Rates of the persons whose Relevant Rates appear on that Page,

in each case appearing on such Page at the Relevant Time on the Interest Determination Date;

- (y) if the Primary Source for the Floating Rate is Reference Banks or if sub-paragraph (x)(I) applies and no Relevant Rate appears on the Page at the Relevant Time on the Interest Determination Date or if sub-paragraph (x)(II) above applies and fewer than two Relevant Rates appear on the Page at the Relevant Time on the Interest Determination Date, subject as provided below, the Rate of Interest shall be the arithmetic mean of the Relevant Rates that each of the Reference Banks is quoting to leading banks in the Relevant Financial Centre at the Relevant Time on the Interest Determination Date, as determined by the Calculation Agent; and
- (z) if paragraph (y) above applies and the Calculation Agent determines that fewer than two Reference Banks are so quoting Relevant Rates, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) that the Calculation Agent determines to be the rates (being the nearest equivalent to the Benchmark) in respect of a Representative Amount of the Specified Currency that at least two out of five leading banks selected by the Issuer in the principal financial centre of the country of the Specified Currency or, if the Specified Currency is euro, in the Euro-zone as selected by the Issuer (the “**Principal Financial Centre**”) are quoting at or about the Relevant Time on the date on which such banks would customarily quote such rates for a period commencing on the Effective Date for a period equivalent to the Specified Duration (I) to leading banks carrying on business in Europe, or (if the Issuer determines that fewer than two of such banks are so quoting to leading banks in Europe) (II) to leading banks carrying on business in the Principal Financial Centre; except that, if fewer than two of such banks are so quoting to leading banks in the Principal Financial Centre, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Rate Multiplier or Maximum or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

(C) Linear Interpolation

Where Linear Interpolation is specified in the applicable Final Terms as the manner in which Rate of Interest is to be determined in respect of an Interest Period, the Rate of Interest for such Interest Period shall be calculated by the Issuing and Principal Paying Agent or the Calculation Agent, as applicable,

by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified in the applicable Final Terms as the manner in which Rate of Interest is to be determined) or the relevant Floating Rate Option (where ISDA Determination is specified in the applicable Final Terms as the manner in which Rate of Interest is to be determined), one of which shall be determined as if the Applicable Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Applicable Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for the period of time next shorter or, as the case may be, next longer, then the Issuer shall appoint an Independent Adviser to determine such rate at such time and by reference to such sources as it determines appropriate.

For the purposes of this provision:

“Applicable Maturity” means: (a) in relation to Screen Rate Determination, the period of time designated in the Reference Rate, and (b) in relation to ISDA Determination, the Designated Maturity.

(D) Compounding

If the specified Floating Rate Option is an Overnight Floating Rate Option (as defined in the ISDA Definitions), Compounding is specified to be applicable in the relevant Final Terms and: (I) Compounding with Lookback is specified as the Compounding Method in the relevant Final Terms, Lookback is the number of Applicable Business Days (as defined in the ISDA Definitions) specified in the relevant Final Terms; (II) Compounding with Observation Period Shift is specified as the Compounding Method in the relevant Final Terms, (y) Observation Period Shift is the number of Observation Period Shift Business Days (as defined in the ISDA Definitions) specified in the relevant Final Terms, and (z) Observation Period Shift Additional Business Days (as defined in the ISDA Definitions), if applicable, are the days specified in the relevant Final Terms; or (III) Compounding with Lockout is specified as the Compounding Method in the relevant Final Terms, (y) Lockout is the number of Lockout Period Business Days (as defined in the ISDA Definitions) specified in the relevant Final Terms, and (z) Lockout Period Business Days, if applicable, are the days specified in the relevant Final Terms.

(E) Averaging

If the specified Floating Rate Option is an Overnight Floating Rate Option (as defined in the ISDA Definitions), Averaging is specified to be applicable in the relevant Final Terms and: (I) Averaging with Lookback is specified as the Averaging Method in the relevant Final Terms, Lookback is the number of Applicable Business Days (as defined in the ISDA Definitions) as specified in relevant Final Terms; (II) Averaging with Observation Period Shift is specified as the Averaging Method in the relevant Final Terms, (y) Observation Period Shift is the number of Observation Period Shift Business Days (as defined in the ISDA Definitions) specified in the relevant Final Terms, and (z) Observation Period Shift Additional Business Days (as defined in the ISDA Definitions), if applicable, are the days specified in the relevant Final Terms; or (III) Averaging with Lockout is specified as the Averaging Method in the relevant Final Terms, (y) Lockout is the number of Lockout Period Business Days (as defined in the ISDA Definitions) specified in the

relevant Final Terms, and (z) Lockout Period Business Days, if applicable, are the days specified in the relevant Final Terms.

(F) Index Provisions

If the specified Floating Rate Option is an Index Floating Rate Option (as defined in the ISDA Definitions) and Index Provisions are specified to be applicable in the relevant Final Terms, the Compounded Index Method with Observation Period Shift (as defined in the ISDA Definitions) shall be applicable and, (I) Observation Period Shift is the number of Observation Period Shift Business Days (as defined in the ISDA Definitions) specified in the relevant Final Terms and (II) Observation Period Shift Additional Business Days, if applicable, are the days specified in the relevant Final Terms.

(c) *Zero Coupon Notes*

Where a Zero Coupon Note is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Zero Coupon Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such Zero Coupon Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 6(c)(i)).

(d) *Accrual of Interest*

Interest shall cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgment) at the Rate of Interest in the manner provided in this Condition 5 to the Relevant Date (as defined in Condition 8).

(e) *Margin, Maximum/Minimum Rates of Interest and Redemption Amounts, Rate Multipliers and Rounding*

- (i) If any Margin or Rate Multiplier is specified in the applicable Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with Condition 5(b) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest or Redemption Amount is specified in the applicable Final Terms, then (subject to Condition 6(a)) any Rate of Interest or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest amount of such currency that is available as legal tender in the country(ies) of such currency.

(f) *Calculations*

The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the Calculation Amount of such Note by the Day Count Fraction, unless an Interest Amount (or a formula for its calculation) is specified in respect of such period, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods. Where the Specified Denomination of a Note comprises more than one Calculation Amount, the amount of interest payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

(g) *Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Early Redemption Amounts and Optional Redemption Amounts*

As soon as practicable after the Relevant Time on each Interest Determination Date or such other time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount to be notified to the Trustee, the Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 5(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.

(j) *Benchmark Discontinuation*

(i) Independent Adviser

Notwithstanding the provisions in this Condition 5, if the Issuer determines that a Benchmark Event has occurred in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, the Issuer shall use reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate, and in each case an Adjustment Spread (if any) and whether any Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread no later than three (3) Business Days prior to the Interest Determination Date relating to the next Interest Period (the “**IA Determination Cut-off Date**”, and such next succeeding Interest Period, the “**Affected Interest Period**”) for the purposes of determining the Rate of Interest applicable to the Notes for such next Interest Period and for all other future Interest Periods (subject to the subsequent operation of this Condition 5(j) during any other future Interest Period(s)).

An Independent Adviser appointed pursuant to this Condition 5(j) shall act in good faith and in a commercially reasonable manner and in consultation with the Issuer. In the absence of bad faith, fraud and gross negligence, the Independent Adviser shall have no liability whatsoever to the Issuer, the Trustee, any Agent, the Noteholders or the Couponholders for any determination made by it pursuant to this Condition 5(j).

If prior to the IA Determination Cut-off Date the Issuer is unable to appoint an Independent Adviser or the Independent Adviser appointed by the Issuer fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 5(j), then the Issuer (acting in good faith and in a commercially reasonable manner) may determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 5(j) no later than two Business Days prior to the Reset Determination Date (the “**Issuer Determination Cut-Off Date**”) for the purposes of determining the Rate of Interest applicable to the Affected Interest Period and all Interest Periods thereafter (subject to the subsequent operation of this Condition 5(j) during any other future Interest Period(s)).

For the avoidance of doubt, if a Successor Rate or an Alternative Rate is not determined pursuant to the operation of this Condition 5(j) prior to the relevant Issuer Determination Cut-off Date, then the Rate of Interest for the next Interest Period shall be determined by reference to the fallback provisions of Condition 5(b)(iii).

(ii) Successor Rate or Alternative Rate

If the Independent Adviser or the Issuer (if it is unable to appoint an Independent Adviser or if the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 5(j) prior to the IA Determination Cut-off Date) prior to the Issuer Determination Cut-Off Date acting in good faith and in a commercially reasonable manner determines that:

- (A) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 5(j)(iii) (*Adjustment Spread*)) subsequently be used in place of the Original Reference Rate to determine the Rate of Interest for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 5(j) during any other future Interest Period(s)); or
- (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 5(j)(iii) (*Adjustment Spread*)) subsequently be used in place of the Original Reference

Rate to determine the Rate of Interest for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 5(j) during any other future Interest Period(s));

(iii) Adjustment Spread

If the Independent Adviser or the Issuer (if it is unable to appoint an Independent Adviser or if the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with Condition 5(j)(i) (Independent Adviser) prior to the IA Determination Cut-off Date) prior to the Issuer Determination Cut-Off Date acting in good faith and in a commercially reasonable manner determines (A) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (B) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

(iv) Benchmark Amendments

If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 5(j) and the Independent Adviser or the Issuer (if it is unable to appoint an Independent Adviser or if the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with Condition 5(j)(i) (Independent Adviser) prior to the IA Determination Cut-off Date) prior to the Issuer Determination Cut-Off Date acting in good faith and in a commercially reasonable manner determines (A) that amendments to these Conditions, the Trust Deed and/or the Agency Agreement, including but not limited to any Reference Banks, Additional Business Centre(s), Business Day, Business Day Convention, Day Count Fraction, Interest Determination Date, Relevant Financial Centre and/or Relevant Screen Page (all as defined in the Final Terms) applicable to the Notes are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread and/or necessary or appropriate to comply with any applicable regulation or guidelines on the use of benchmarks or other related document issued by the competent regulatory authority (such amendments, the “**Benchmark Amendments**”) and (B) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(j)(v) (*Notices*), without any requirement for the consent or approval of the Trustee, the Noteholders or Couponholders, vary these Conditions, the Trust Deed and/or the Agency Agreement (as applicable) to give effect to such Benchmark Amendments with effect from the date specified in such notice.

In connection with any such variation in accordance with this Condition 5(j)(iv), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading. At the request of the Issuer, but subject to receipt by the Trustee and the Agents, as applicable, of a certificate signed by two Authorised Signatories of the Issuer pursuant to this Condition 5(j), the Trustee and the Agents shall (at the request and expense of the Issuer), without any requirement for the consent or approval of the Noteholders, be obliged to concur with the Issuer in effecting any Benchmark Amendments (including, inter alia, by the execution of a deed supplemental to or amending the Trust Deed and the Agency Agreement, as applicable) and shall use reasonable endeavours to effect such Benchmark Amendments whether or not such amendments are prejudicial to the interests of the Noteholders, provided that the Trustee and the Agents, as applicable shall not be obliged so to concur if in the opinion of the Trustee and the Agents, as applicable doing so would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Trustee and the Agents, as applicable in these Conditions, the Trust Deed or the

Agency Agreement, as applicable (including, for the avoidance of doubt, any supplemental trust deed) in any way.

Notwithstanding any other provision of this Condition 5(j), if following the determination of any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (if any), in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 5(j), the Calculation Agent shall promptly notify the Issuer thereof and the Issuer shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided with such direction, or is otherwise unable (other than due to its own gross negligence, willful default or fraud) to make such calculation or determination for any reason, it shall notify the Issuer thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and (in the absence of such gross negligence, willful default or fraud) shall not incur any liability for not doing so.

(v) Notices

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5(j) will be notified immediately by the Issuer to the Trustee and each of the Agents and, in accordance with Condition 17 (*Notices*), the Noteholders and Couponholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

(vi) Survival of Original Reference Rate

Without prejudice to the obligations of the Issuer under Conditions 5(k)(i) to 5(j)(iv), the Original Reference Rate and the fallback provisions provided for in Condition 5(b)(iii) above will continue to apply unless and until a Benchmark Event has occurred and the party determining the Rate of Interest (being the Issuing and Principal Paying Agent, the Calculation Agent or such other party specified in the applicable Final Terms, as applicable) has been notified of the Successor Rate or the Alternative Rate (as the case may be), or, the applicable Adjustment Spread and Benchmark Amendments (if applicable), in accordance with Condition 5(j)(v).

(vii) Definitions

For the purpose of this Condition 5(j):

“Adjustment Spread” means either a spread (which may be positive, negative or zero), or the formula or methodology for calculating a spread, in each case required to be applied to the Successor Rate or the Alternative Rate (as the case may be) as a result of the replacement of the Original Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or (if no such recommendation has been made, or in the case of an Alternative Rate),
- (B) the Independent Adviser or the Issuer (as applicable) determines (acting in good faith and in a commercially reasonable manner), is customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or (if the Issuer or the Independent Adviser determines that no such spread is customarily applied),

- (C) the Independent Adviser or the Issuer (as applicable) determines (acting in good faith and in a commercially reasonable manner), is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be).

Before the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Trustee: (a) a certificate signed by two authorised signatories of the Issuer stating that the obligation referred to in (i) above cannot be avoided by the Issuer taking reasonable measures available to it; and (b) an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of the change or amendment and the Trustee shall be entitled to accept, without enquiry or liability, the certificate as sufficient evidence of the satisfaction of the condition precedent set out in (ii) above in which event it shall be conclusive and binding on all Noteholders and Couponholders.

(e) *Redemption at the Option of Noteholders on the Occurrence of a Material Asset Sale Put Event*

If at any time while any of the Notes remain outstanding (as defined in the Trust Deed), (i) a Material Asset Sale occurs and (ii) within the Material Asset Sale Period a Rating Downgrade in respect of that Material Asset Sale occurs (a "**Material Asset Sale Put Event**"), then the holder of each Note will have the option (the "**Material Asset Sale Put Option**") (unless, prior to the giving of the Material Asset Sale Put Event Notice (as defined below), the Issuer gives

not more than 60 nor less than 30 days' prior notice to the Noteholders in accordance with Condition 17 of its intention to redeem the Notes pursuant to Condition 6(d), 6(f) (if specified in the relevant Final Terms as applicable), Condition 6(g) (if specified in the relevant Final Terms as applicable) or Condition 6(h) (if specified in the relevant Final Terms as applicable) (which notice shall be irrevocable)) to require the Issuer to redeem or, at the Issuer's option, to procure the purchase of that Note on the Material Asset Sale Put Date (as defined below) at its principal amount together with accrued interest up to but excluding the Material Asset Sale Put Date.

For the purpose of these Conditions:

"Formal Material Asset Sale Announcement" means the first of any formal public announcements of the occurrence of the relevant Material Asset Sale in respect of the Issuer.

a **"Material Asset Sale"** shall be deemed to have occurred if, at any time following the Issue Date of the Notes, the Issuer sells, transfers or otherwise disposes of all or some of the shares of a Principal Subsidiary, with the result that the Issuer ceases to have Control over such Principal Subsidiary.

"Material Asset Sale Period" means the period commencing on the date of the Formal Material Asset Sale Announcement and ending 90 days thereafter, or such longer period for which the Notes are under consideration by the relevant Rating Agency or Agencies for rating review (such consideration having been announced publicly within the period ending 90 days after the Formal Material Asset Sale Announcement), such period not to exceed 60 days following the public announcement of such consideration.

"Rating Agency" means S&P Global Ratings Europe Limited, Moody's Investors Service España S.A. Material Asset Sale Period by such Rating Agency or Agencies or (iii) if the rating previously assigned to any of the Notes by any Rating Agency (where at the relevant time the Notes are rated by one or two Rating Agencies) or any two Rating Agencies (where at the relevant time the Notes are rated by three or more Rating Agencies) was below an investment grade rating (as described above), lowered at least one full rating notch (for example, from BB+/Ba1 to BB/Ba2 or their respective equivalents) and is not subsequently upgraded to its earlier credit rating or better by such Rating Agency or Agencies, provided that a Rating Downgrade otherwise arising by virtue of a particular change in rating shall be deemed not to have occurred in respect of a particular Material Asset Sale in respect of the Notes if the Rating Agency or Rating Agencies making the change in rating does not publicly announce or publicly confirm that the reduction was the result, in whole or part, of any event or circumstance comprised in or arising as a result of, or in respect of, such Material Asset Sale.

Promptly upon the Issuer becoming aware that a Material Asset Sale Put Event has occurred, the Issuer shall give notice (a “**Material Asset Sale Put Event Notice**”) to the Noteholders in accordance with Condition 17 (which notice shall be irrevocable) specifying the nature of the Material Asset Sale Put Event and the circumstances giving rise to it and the procedure for exercising the Material Asset Sale Put Option contained in this Condition 6(e)).

The Paying Agent to which such Note and Exercise Notice are delivered will issue to the Noteholder concerned a non-transferable receipt (a “**Material Asset Sale Put Option Receipt**”) in respect of the Note so delivered. Payment by the Issuer in respect of any Note so delivered shall be made, if the holder duly specified in the Exercise Notice a bank account to which payment is to be made, by transfer to that bank account on the Material Asset Sale Put Date, and in every other case, on or after the Material Asset Sale Put Date against presentation and surrender of such Material Asset Sale Put Option Receipt at the specified office of any Paying Agent. Any such modification may be made if sanctioned by a Resolution of the Noteholders.

In relation to the convening of meetings, quorums and the majorities required to pass an Resolution, the following provisions shall apply in respect of the Notes but are subject to compliance with mandatory laws, legislation, rules and regulations of Italy and the by-laws of the Issuer in force from time to time and shall be deemed to be amended, replaced and supplemented to the extent that such laws, legislation, rules and regulations and the by-laws of the Issuer are amended at any time while the Notes remain outstanding:

- (a) a meeting of Noteholders may be convened by the directors of the Issuer, the Noteholders' Representative (as defined below) or the Trustee and such parties shall be obliged to do so upon the request in writing of Noteholders holding not less than one twentieth of the aggregate principal amount of the outstanding Notes. If they default in convening such a meeting following such request or requisition by the Noteholders representing not less than one twentieth of the aggregate principal amount of the Notes outstanding, the same may be convened by decision of the President of the competent court in accordance with Article 2367, paragraph 2 of the Italian Civil Code;
- (b) a meeting of Noteholders will be validly held if (A) in the case of an initial meeting, there are one or more persons being or representing Noteholders holding more than one half of the aggregate principal amount of the outstanding Notes; or (B) in the case of a meeting convened following adjournment of the initial meeting, there are one or more persons present being or representing Noteholders holding more than one third of the aggregate principal amount of the outstanding Notes; and

(b) *Noteholders' Representative:*

A representative of the Noteholders (*rappresentante comune*) (the “**Noteholders' Representative**”), subject to applicable provisions of Italian law, may be appointed pursuant to Article 2417 of the Italian Civil Code in order to represent the Noteholders' interests under these Conditions and to give effect to resolutions passed at a meeting of the Noteholders. If the Noteholders' Representative is not appointed by a meeting of such Noteholders, the Noteholders' Representative shall be appointed by a decree of the court where the Issuer has its registered office at the request of one or more Noteholders or at the request of the directors of the Issuer. The Noteholders' Representative shall remain appointed for a maximum period of three years but may be reappointed again thereafter and shall have the powers and duties set out in Article 2418 of the Italian Civil Code.

(c) *Modification and Waiver:*

In addition, the Trustee may, without the consent of the holders of the Notes, authorise or waive any proposed breach or breach of the Notes or the Trust Deed or determine that any Event of Default shall not be treated as such (other than a proposed breach or breach relating to the subject of a Reserved Matter) if, in the opinion of the Trustee, the interests of the holders of the Notes will not be materially prejudiced thereby.

Unless the Trustee agrees otherwise, any such authorisation, waiver or modification shall be notified to the holders of the Notes as soon as practicable thereafter.

(d) *Threshold Increase*

The Trust Deed also contains provisions according to which the Issuer shall have the right, in its absolute discretion, and without obligation, at any time to increase the Scope 1 and 2 Emissions Percentage Threshold, the EVCP Increase Threshold (as such term is defined in section 1 of the Annex to the Conditions), the Abertis Scope 3 Emissions Percentage Threshold (as such term is defined in section 1 of the Annex to the Conditions), the ADR Scope 3 Emissions Percentage Threshold (as such term is defined in section 2 of the Annex to the Conditions) and/or the SBTi Compliant Target Aircraft Emissions Percentage Threshold, as applicable, with respect to any Series of Step Up Notes or Premium Payment Notes, as applicable. Notice of any such increase shall be given promptly by the Issuer to the Trustee, the Paying Agents, the Registrar (in the case of Registered Notes) and the Noteholders in accordance with Condition 17 (a “**Threshold Increase Notice**”). Any Threshold Increase Notice shall be unconditional and irrevocable (subject only to any subsequent Threshold Increase Notice further increasing the Scope 1 and 2 Emissions Percentage Threshold, the EVCP Increase Threshold, the Abertis Scope 3 Emissions Percentage Threshold, the ADR Scope 3 Emissions Percentage Threshold or the SBTi Compliant Target Aircraft Emissions Percentage Threshold, if applicable) and shall specify the date on which any such increase is effective (the “**Threshold Increase Effective Date**”), which for the avoidance of doubt may be the date of the Threshold Increase Notice or such other date as may be specified. (e) *Substitution:*

The Trust Deed contains provisions permitting the Trustee to agree in circumstances including, but not limited to, circumstances which would constitute a Permitted Reorganisation, subject to such amendment of the Trust Deed and such other conditions as the Trustee may require, but without the consent of the Noteholders or the Couponholders, to the substitution of the Issuer’s successor in business, transferee or assignee or any subsidiary of the Issuer or its successor in business, transferee or assignee in place of the Issuer or of any previous substituted company, as principal debtor under the Trust Deed and the Notes. In addition, notice of any such substitution shall be given to Euronext Dublin and published in accordance with Condition 17.

12. Enforcement

it shall have been so directed by a Resolution or so requested in writing by Noteholders holding at least one quarter in nominal amount of the Notes outstanding and (b) it shall have been indemnified and/or secured and/or prefunded to its satisfaction.

(b) *Limitation on Trustee Actions*

The Trustee may refrain from doing anything which would or might in its opinion be contrary to any law of any jurisdiction or any directive or regulation of any agency of any state which would or might otherwise render it liable to any person and may do anything which is, in its opinion, necessary to comply with such law, directive or regulations.

(c) *Enforcement by Noteholders*

Subject to mandatory provisions of Italian law (including, without limitation, to Article 2419 of the Italian Civil Code), no Noteholder or Couponholder shall be entitled to (i) take any steps or action against the Issuer to enforce the performance of any of the provisions of the Trust Deed, the Notes or the Coupons or (ii) take any other proceedings (including lodging an appeal in any proceedings) in respect of or concerning the Issuer, in each case unless the Trustee, having become bound so to take any such action, steps or proceedings, fails or is unable to do so within a reasonable time and such failure or inability shall be continuing.

13. Indemnification of the Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility. The Trustee is entitled to enter into business transactions with the Issuer and any entity related to the Issuer without accounting for any profit.

Mutilated or defaced Notes, Certificates, Coupons or Talons must be surrendered before replacements will be issued.

In connection with the exercise, under these Conditions or the Trust Deed, of its functions, rights, powers, trusts, authorities and discretions (including but not limited to any modification, consent, waiver or authorisation), the Trustee shall have regard to the interests of the Noteholders as a class and will not have regard to the consequences of such exercise for individual Noteholders or Couponholders, resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory. The Trustee shall not be entitled to require from the Issuer, nor shall any Noteholders or Couponholders be entitled to claim from the Issuer or the Trustee, any indemnification or other payment in respect of any consequence (including any tax consequence) for individual Noteholders or Couponholders of any such exercise, subject to applicable mandatory provisions of Italian law.

16. Further Issues

The Issuer may, from time to time, without the consent of the Noteholders or Couponholders create and issue further securities either having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest on them) and so that such further issue shall be consolidated and form a single series with the outstanding securities of any series (including the Notes) or upon such terms as the Issuer may determine at the time of their issue. References in these Conditions to the Notes include (unless the context requires otherwise) any other securities issued pursuant to this Condition and forming a single series with the Notes. Any further securities forming a single series with the outstanding securities of any series (including the Notes) constituted by the Trust Deed or any deed supplemental to it shall, and any other securities may (with the consent of the Trustee), be constituted by the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Noteholders and the holders of securities of other series where the Trustee so decides.

Any such notice shall be deemed to have been given on the date of such publication or, if published more than once or on different dates, on the first date on which publication is made, as provided above.

Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the holders of Bearer Notes in accordance with this Condition.

Subject as set out in the definition of “KPI 2 Recalculation Event”, as of the relevant KPI 2 Recalculation Date, the updated Relevant Value shall replace the original Relevant Value and any reference to the Relevant Value in these Conditions thereafter shall be deemed to be a reference to the updated Relevant Value, it being understood that in the absence of such confirmation by an Assurance Provider or Abertis Assurance Provider (and subject as set out in the definition of “KPI 2 Recalculation Event”) the original Relevant Value shall continue to apply. By purchasing the Notes, a Noteholder shall be deemed to have consented, for itself and any and all successors or assigns, and to have irrevocably authorised Mundys and Abertis to make any such recalculation or redetermination without the prior consent or consultation of the Noteholders.

Deadline in any Reference Year, Abertis shall be deemed to have failed to satisfy the Abertis Scope 3 Emissions Condition.

“Abertis Scope 3 Emissions Event” occurs if Abertis fails to satisfy the Abertis Scope 3 Emissions Condition, provided that no Abertis Scope 3 Emissions Event shall occur in case of the failure of Abertis to satisfy the Abertis Scope 3 Emissions Condition as a result of (a) a change in law or regulation with an impact on the Abertis SLB Reporting Group’s Abertis Scope 3 Emissions or (b) the application of or a change in law or regulation imposing exceptional or emergency travel restrictions affecting infrastructure operated by the Abertis SLB Reporting Group, in each case, as determined in good faith by Abertis.

“Abertis Scope 3 Emissions Percentage” means, in respect of any Target Observation Period, the percentage (rounded to the nearest whole number, with 0.5 rounded upwards) by which the Abertis Scope 3 Emissions Ratio for such Target Observation Period is reduced in comparison to the then current Abertis Scope 3 Emissions Baseline, as calculated in good faith by Abertis, assured by the Assurance Provider and reported by the Issuer in the relevant SLB Progress Report.

“Abertis Scope 3 Emissions Percentage Threshold” means the threshold (expressed as a percentage) specified in the relevant Final Terms as being the Abertis Scope 3 Emissions Percentage Threshold in respect of the relevant Reference Year(s) or, if applicable, from the Threshold Increase Effective Date specified in a Threshold Increase Notice, such higher threshold as specified in such Threshold Increase Notice, provided that Abertis may, acting in good faith, recalculate the Abertis Scope 3 Emissions Percentage Threshold (including such higher threshold) in accordance with the GHG Protocol Standard (where applicable) to reflect the occurrence of an Abertis Recalculation Event.

“Abertis Scope 3 Emissions Ratio” means the quotient of (a) the amount in tCO₂e of the Abertis Scope 3 Emissions excluding any increase in greenhouse gas emissions related to (i) unforeseeable and non-recurring capital expenditure and/or maintenance works in respect of the Abertis SLB Reporting Group’s infrastructure and (ii) investments by the Abertis SLB Reporting Group for concession extensions and (b) the number of kilometres (calculated in millions) travelled by vehicles on infrastructure operated by the Abertis SLB Reporting Group, in each case, as calculated in good faith by Abertis in respect of each Target Observation Period, assured by the Assurance Provider and reported by the Issuer in the relevant SLB Progress Report; provided that Abertis may, acting in good faith, recalculate the Abertis Scope 3 Emissions Ratio in accordance with the GHG Protocol Standard (where applicable) to reflect the occurrence of an Abertis Recalculation Event.

“Abertis SLB Reporting Group” means in respect of the Baseline Year or any Reporting Year (including any Reference Year):

- (i) in respect of any determination relating to an Abertis Scope 3 Emissions Event, Abertis and the Subsidiaries of Abertis included in the scope of nonfinancial information published by Abertis in respect of such year, and subject to the application of the GHG Protocol Standard and the “operational control” approach described therein, in each case, as determined by Abertis; and
- (ii) in respect of any determination relating to an EVCP Event, the Abertis Group at the relevant time,

provided that if a member of the Abertis Group makes any acquisition, investment, divestment or disposal (a **“Transaction”**), Abertis may exclude such Transaction from the determination of the Abertis SLB Reporting Group for a period that is no longer than two years following the completion of such Transaction (a **“Transaction Exclusion”**).

“**EVCP Baseline**” means 85 EVCPs, being the aggregate number of EVCPs present on infrastructure operated by the Abertis SLB Reporting Group pursuant to Abertis Concession Agreements as at the Baseline Year, provided that Abertis may, acting in good faith, recalculate the EVCP Baseline to reflect the occurrence of a Recalculation Event.

“**EVCP Condition**” means the condition that the EVCP Increase in respect of the Target Observation Date for any Reference Year, as shown in the relevant SLB Progress Report, was equal to or greater than the EVCP Increase Threshold in respect of such Reference Year, and if the requirements above are not met by the relevant Notification Deadline in any Reference Year, the Issuer shall be deemed to have failed to satisfy the EVCP Condition.

“**EVCP Event**” occurs if Abertis fails to satisfy the EVCP Condition, provided that no EVCP Event shall occur in case of the failure of Abertis to satisfy the EVCP Condition as a result of a change in law or regulation with an impact on the installation and/or operation of EVCPs, as determined in good faith by Abertis.

“**EVCP Increase**” means, in respect of any Target Observation Date, the number by which the Number of EVCPs for such Target Observation Date exceeds the then current EVCP Baseline, as calculated in good faith by Abertis, assured by the relevant Assurance Provider and reported by the Issuer in the relevant SLB Progress Report.

“**EVCP Increase Threshold**” means the threshold specified in the relevant Final Terms as being the EVCP Increase Threshold in respect of the relevant Reference Year(s) or, if applicable, from the Threshold Increase Effective Date specified in a Threshold Increase Notice, such higher threshold as specified in such Threshold Increase Notice, provided that Abertis may, acting in good faith, recalculate the EVCP Increase Threshold to reflect the occurrence of an Abertis Recalculation Event.

- (ii) any material adverse effect on the ADR Scope 3 Emissions Amount in respect of the relevant Observation Period arising from an amendment to the Italian legal or regulatory framework applicable, directly and/or indirectly, to the operation of airports,

which in each case accounts for 5% or more of the ADR Scope 3 Emissions Amount, as the case may be, in such Observation Period.

“ADR Scope 3 Emissions” means in KgCO₂ per Passenger, indirect carbon dioxide emissions related to (i) the operation of ground support equipment and handlers’ vehicles; (ii) passenger travels to and from the Fiumicino Airport; (iii) travels to and from the Fiumicino Airport of contractors and other third parties; (iv) goods accessibility (estimate based on tons of goods); (v) waste management, treatment and disposal of solid and liquid waste generated by the operation of the Fiumicino Airport; (vi) business trips of ADR’s directors, managers and employees; (vii) third parties fixed sources emissions from generators and on-site plants); (viii) de-icing operations of aircrafts; and (ix) energy purchased by third parties in each case with respect to the Fiumicino Airport, as defined by the ACA Rules. For the avoidance of doubt, the ADR Scope 3 Emissions do not include the carbon dioxide emissions resulting from cruise, landing and take-off cycles and taxiing of aircrafts.

“ADR Scope 3 Emissions Amount” means in KgCO₂ per Passenger the ADR Scope 3 Emissions as calculated in good faith by ADR in respect of each Observation Period, confirmed by the Assurance Provider and reported by the Issuer in the relevant SLB Progress Report, *provided that* ADR may, acting in good faith, redetermine (also on a *pro forma* basis) the ADR Scope 3 Emissions Amount to reflect the occurrence of an ADR Emission Redetermination Event (such redetermined ADR Scope 3 Emissions Amount, the **“ADR Scope 3 Redetermined Emissions Amount”**) and such redetermination will be effective only if (i) the redetermination is confirmed by the relevant Assurance Provider or ADR Assurance Provider in the relevant Assurance Report (and subject as set out in the definition of “KPI 2 Recalculation Event”) (ii) an explanation of the events requiring the redetermination and the quantum of such redetermination (such quantum, the **“ADR Scope 3 Emissions Redetermination Amount”**) are published by the Issuer in the latest SLB Progress Report in accordance with the

applicable Reporting Requirements; and (iii) the same significant or structural change to the business model and/or perimeter of ADR is not applied to redetermination of the ADR Scope 3 Emissions Baseline.

“ADR Scope 3 Emissions Baseline” means 14.3 KgCO₂ per Passenger, corresponding to the ADR Scope 3 Emissions for the period beginning on 1 January 2019 and ending on 31 December 2019, *provided that* ADR may, acting in good faith, redetermine (also on a *pro forma* basis) the ADR Scope 3 Emissions Baseline to reflect the occurrence of an ADR Baseline Redetermination Event and such redetermination will be effective if (i) the redetermination is confirmed by the relevant Assurance Provider or ADR Assurance Provider in an Assurance Report (and subject as set out in the definition of “KPI 2 Recalculation Event”); (ii) an explanation of the events requiring the redetermination and the quantum of such redetermination are published by the Issuer in the latest SLB Progress Report in accordance with the applicable Reporting Requirements; and (iii) the same significant or structural changes to the business model and/or perimeter of ADR is not applied to the redetermination of the ADR Scope 3 Emissions Amount.

“ADR Scope 3 Emissions Condition” means the condition that the ADR Scope 3 Emissions Percentage in respect of the Observation Period for the Reference Year, as shown in the relevant SLB Progress Reports, was equal to or greater than the ADR Scope 3 Emissions Percentage Threshold in respect of such Reference Year, and if the requirements above are not met in any Reporting Year, the Issuer shall be deemed to have failed to satisfy the ADR Scope 3 Emissions Condition in respect of the Reference Year.

“ADR Scope 3 Emissions Event” occurs if ADR fails to satisfy the ADR Scope 3 Emissions Condition.

“ADR Scope 3 Emissions Percentage” means, in respect of any Observation Period, the percentage (rounded to the nearest whole number, with 0.5 rounded upwards) by which the ADR Scope 3 Emissions Amount or the ADR Scope 3 Redetermined Emissions Amount, as applicable, for such Observation Period are reduced in comparison to the ADR Scope 3 Emissions Baseline, as calculated in good faith by ADR, confirmed by the relevant Assurance Provider and reported by the Issuer in the relevant SLB Progress Report.

“ADR Scope 3 Emissions Percentage Threshold” means the threshold (expressed as a percentage) specified in the applicable Final Terms as being the ADR Scope 3 Emissions Percentage Threshold or, if applicable, from the Threshold Increase Effective Date specified in a Threshold Increase Notice, such higher threshold as specified in such Threshold Increase Notice.

For the avoidance of doubt, the occurrence of any ADR Baseline Redetermination Event or ADR Emissions Redetermination Event will not result in any adjustment to the ADR Scope 3 Emissions Percentage Threshold(s), but may result, as the case may be, in the redetermination (also on a *pro forma* basis) of the ADR Scope 3 Emissions Baseline or the ADR Scope 3 Emissions Amount, as applicable.

“ADR Recalculation Event” means an ADR Baseline Redetermination Event or an ADR Emissions Redetermination Event.

“Fiumicino Airport” means the airport located in Fiumicino, Italy, managed by ADR under the relevant ADR Concession.

“KgCO₂ per Passenger” means kilograms of carbon dioxide equivalent per each passenger.

“Observation Period” means for any Reporting Year (including, for the avoidance of doubt, the Reference Year), the period commencing on 1 January in the previous calendar year and ending on 31 December in the previous calendar year.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each hold securities for its customers and facilitate the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

Transfers of Notes Represented by Registered Global Notes

Transfers of any interests in Notes represented by a Registered Global Note within Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Notes represented by a Registered Global Note to such persons may depend upon the ability to exchange such Notes for Notes in definitive form.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described under “Subscription and Sale and Transfer and Selling Restrictions”, transfers directly or indirectly through Euroclear or Clearstream, Luxembourg or accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Registrar, the Issuing and Principal Paying Agent and any custodian with whom the relevant Registered Global Notes have been deposited.

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Clearstream, Luxembourg and Euroclear will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among participants and accountholders of Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Trustee, the Agents or any Dealer will be responsible for any performance by Clearstream, Luxembourg or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

REPUBLIC OF ITALY

Italian tax treatment of proceeds payable under the securities

As clarified by the Italian tax authorities in Resolution No. 72/E of 12 July 2010, the Italian tax consequences of the purchase, ownership and disposal of securities may be different depending on whether:

- (a) they represent a securitised debt claim, implying a static "use of capital" (*impiego di capitale*), through which the subscriber of the securities transfers to the Issuer a certain amount of capital for the purpose of obtaining a remuneration on the same capital and subject to the right to obtain its (partial or entire) reimbursement at maturity; or
- (b) they represent a securitised derivative financial instrument or bundle of derivative financial instruments not entailing a "use of capital" (*impiego di capitale*), through which the subscriber of the securities invests indirectly in underlying financial instruments for the purpose of obtaining a profit deriving from the negotiation of such underlying financial instruments.

Tax Treatment of Interest and proceeds payable under the Notes qualifying as bonds or debentures similar to bonds

Decree 239 sets forth the Italian tax regime applicable to interest, premium and other income (including the difference between the redemption amount and the issue price, hereinafter collectively referred to as "**Interest**") from notes that are issued, inter alia, by:

- (a) joint-stock corporations that are resident in Italy for tax purposes and whose shares are admitted to trading on a regulated market or on a multilateral trading facility of (i) an EU Member State, or (ii) a State that is a party to the European Economic Area Agreement ("EEA State") and is included in the list of countries and territories that allow an adequate exchange of information as contained (I) as at the date of this Base Prospectus in the Decree of the Ministry of Economy and Finance of 4 September 1996, as subsequently amended and restated, including the amendments enacted by the Decree of the Ministry of Economy and Finance of 9 August 2016, published in the Official Gazette on 22 August 2016 ("White List"), or (II) once effective in any other decree or regulation that may be issued in the future under the authority of Article 11(4)(c) of Decree 239 to provide the list of such countries and territories ("New White List"), including any country or territory that will be deemed listed therein for the purpose of any interim rule;

- (b) other companies that are resident for tax purposes in Italy if the notes are admitted to trading on a regulated market or on a multilateral trading facility of (i) an EU Member State, or (ii) an EEA State that is included in the White List (or in the New White List once this is effective); or
- (c) subscribed, transferred to and held by qualified investors (as defined under Article 100 of Decree 58, as amended) only,

provided that the notes fall within the category of bonds (*obbligazioni*) or bond-like securities (*titoli similari alle obbligazioni*).

For these purposes, under Article 44(2)(c) of Presidential Decree No. 917 of 22 December 1986 (“**Decree 917**”), bonds and bond-like securities (*titoli similari alle obbligazioni*) are securities that:

- (a) incorporate an unconditional obligation for the Issuer to pay, at maturity (or at any earlier full redemption of the securities), an amount not lower than their nominal/par value/principal;
- (b) do not grant the holder any direct or indirect right of participation in (or control on) the management of the Issuer or of the business in connection with which these securities are issued; and
- (c) do not provide for a remuneration which is entirely linked to the profits of the Issuer, or other companies belonging to the same group or to the business in respect of which the securities have been issued.

Italian resident Noteholders

Where an Italian resident beneficial owner of the Notes (a “**Noteholder**”) is:

- (a) an individual not engaged in an entrepreneurial activity to which the Notes are connected;
- (b) a partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership) or a *de facto* partnership not carrying out commercial activities;
- (c) a non-commercial private or public entity (other than companies), a trust not carrying out mainly or exclusively commercial activities or the Italian State or other public and territorial entity; or
- (d) an investor exempt from Italian corporate income tax,

then Interest derived from the Notes, and accrued during the relevant holding period, is subject to a tax withheld at source (*imposta sostitutiva*) levied at the rate of 26% (either when Interest is paid or when payment thereof is obtained by the holder upon disposal of the Notes), unless the relevant Noteholder holds the Notes in a discretionary investment portfolio managed by an authorised intermediary and, if meeting the relevant conditions, has validly opted for the application of the “*Risparmio Gestito*” regime provided for by Article 7 of Legislative Decree No. 461 of 21 November 1997 (“**Decree 461**”). In such latter case the Noteholder is subject to a 26% annual substitute tax on the increase in value of the managed assets accrued at the end of each fiscal year (which increase would include Interest accrued on the Notes). The substitute tax is applied on behalf of the taxpayer by the managing authorised intermediary. For more information, see also “*Tax Treatment of Capital Gains*” below.

Subject to certain conditions (including minimum holding period requirement) and limitations, Interest relating to the Notes may be exempt from any income taxation (including from the 26% *imposta sostitutiva*) if the Noteholders are Italian resident individuals not engaged in entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 and the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets all the requirements from time to time applicable as set forth under Italian law.

Noteholders Engaged in an Entrepreneurial Activity

In the event that the Italian resident Noteholders described under clauses (a) to (c) above are engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax. Interest will be subject to *imposta sostitutiva* on a provisional basis and will then be included in the relevant beneficial owner’s income tax return. As a consequence, Interest will be subject to the ordinary income tax and *imposta sostitutiva* may be recovered as a credit that can be offset against the income tax due.

If a Noteholder is an Italian resident company or similar commercial entity, a business partnership, or a permanent establishment in Italy of a non-resident company to which the Notes are effectively connected, and the Notes are deposited with an Intermediary (as defined below), Interest from the Notes will not be subject to *imposta sostitutiva*. Interest must, however, be included in the relevant Noteholder's income tax return and is therefore subject to general Italian corporate income tax ("**IRES**"), generally applying at the current ordinary rate of 24%, and, in certain circumstances, depending on the "status" of the Noteholder, also to the regional tax on productive activities ("**IRAP**"), generally applying at the rate of 3.9%.

Italian Real Estate Alternative Investment Funds (Real Estate Investment Funds and Real Estate SICAFs)

Under Law Decree No. 351 of 25 September 2001 ("**Decree 351**"), converted into law with amendments by Law No. 410 of 23 November 2001, Article 32 of Law Decree No. 78 of 31 May 2010, converted into law with amendments by Law No. 122 of 30 July 2010, and Article 2(1)(c) of Decree 239, payments of Interest deriving from the Notes to Italian resident real estate investment funds are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of the Italian real estate investment fund, provided that the Notes, together with the relevant coupons, are timely deposited with an Intermediary (as defined below). However, a withholding tax or a substitute tax at the rate of 26% will generally apply to income realised by unitholders in the event of distributions, redemption or sale of the units.

Subject to certain conditions, income realised by Italian real estate investment funds is attributed pro rata to the Italian resident unitholders irrespective of any actual distribution on a tax transparency basis.

Under Article 9 of Legislative Decree No. 44 of 4 March 2014 ("**Decree 44**"), the above regime applies also to Interest payments made to closed-ended real estate investment companies (*società di investimento a capitale fisso immobiliari*, or "**Real Estate SICAFs**") which meet the requirements expressly provided by applicable law.

Undertakings for Collective Investment (Funds, SICAFs and SICAVs)

If an Italian resident Noteholder is an open-ended or a closed-ended collective investment fund ("**Fund**") other than a real estate investment fund, a closed-ended investment company (*società di investimento a capitale fisso*, or "**SICAF**") other than a Real Estate SICAF or an open-ended investment company (*società di investimento a capitale variabile*, or "**SICAV**") established in Italy and either (i) the Fund, the SICAF or the SICAV or (ii) their manager is subject to supervision by the competent regulatory authority and the Notes are deposited with an Intermediary (as defined below), Interest accrued during the holding period on the Notes will not be subject to *imposta sostitutiva*. Interest must, however, be included in the management results of the Fund, the SICAF or the SICAV accrued at the end of each tax period. The Fund, the SICAF or the SICAV will not be subject to *imposta sostitutiva*, but a withholding tax of 26% will be levied, in certain circumstances, on proceeds distributed in favour of unitholders or shareholders by the Fund, the SICAF or the SICAV or in case of redemption or sale of the units or shares in the Fund, the SICAF or the SICAV.

Pension Funds

If an Italian resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an Intermediary (as defined below), Interest relating to the Notes and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the pension fund as calculated at the end of the tax period, which will be subject to a 20% substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, interest, premium and other income relating to the Notes may be excluded from the taxable base of the 20% substitute tax if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Application of Imposta Sostitutiva

Under Decree 239, *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* ("**SIM**"), fiduciary companies, *società di gestione del risparmio* ("**SGR**"), stockbrokers and other entities identified by a decree of the Ministry of Economy and Finance (each, an "**Intermediary**").

An Intermediary must (a) be resident in the Republic of Italy or be a permanent establishment in the Republic of Italy of a non-Italian resident financial intermediary or an organisation or a company not resident in the Republic of Italy, acting through a system of centralised administration of securities and directly connected with the Department of Revenue of the Ministry of Economy and Finance (which includes Euroclear and Clearstream) having appointed an Italian representative for the purposes of Decree 239, (b) intervene, in any way, in the collection of interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Notes or in a change of the Intermediary with which the Notes are deposited. If the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any Italian financial intermediary (or permanent establishment in Italy of a non-resident financial intermediary) paying Interest to a Noteholder or, absent that, by the Issuer and gross recipients that are Italian resident corporations or permanent establishments in Italy of foreign corporations to which the Notes are effectively connected are entitled to deduct the suffered *imposta sostitutiva* from income taxes due.

Non-Italian Resident Noteholders

If the Noteholder is a non-Italian resident without a permanent establishment in the Republic of Italy to which the Notes are effectively connected, an exemption from the *imposta sostitutiva* applies provided that the non-Italian resident beneficial owner (certain types of institutional investors are deemed to be beneficial owners by operation of law) is:

- (a) resident, for tax purposes, in a country which is included in the White List (or in the New White List once this is effective); or
- (b) an international body or entity set up in accordance with international agreements which have entered into force in the Republic of Italy; or
- (c) a central bank or an entity which manages, *inter alia*, official reserves of a foreign State (including sovereign wealth funds); or
- (d) an “institutional investor”, whether or not subject to tax, which is established in a country included in the White List (or in the New White List once this is effective), even if it does not possess the status of a taxpayer in its own country of establishment.

In order to ensure gross payment, non-Italian resident Noteholders without a permanent establishment in the Republic of Italy to which the Notes are effectively connected must be the beneficial owners of the payments of Interest (certain types of institutional investors are deemed to be beneficial owners by operation of law) and must:

- (a) deposit the Notes in due time together with the coupons relating to such Notes, directly or indirectly, with an resident bank or SIM, or a permanent establishment in Italy of a non-Italian resident bank or SIM, or with a non-Italian resident entity participating in a centralised securities management system which is in contact via computer with the Ministry of Economy and Finance having appointed an Italian representative for the purposes of Decree 239 (Euroclear and Clearstream qualify as such latter kind of depository); and
- (b) file with the relevant depository a statement (*autocertificazione*) in due time stating, *inter alia*, that he or she is resident, for tax purposes, in one of the countries included in the White List. This affidavit, which is required neither for international bodies or entities set up in accordance with international agreements that have entered into force in Italy nor for foreign central banks or entities which manage, *inter alia*, official reserves of a foreign State, must comply with the requirements set forth by the Italian Ministerial Decree of 12 December 2001 and is valid until withdrawn or revoked (unless some information provided therein has changed). The affidavit need not be submitted if a certificate, declaration or other similar document for the same or equivalent purposes was previously submitted to the same depository.

The *imposta sostitutiva* will be applicable at the rate of 26% to Interest paid to Noteholders who do not qualify for the exemption or do not timely and properly comply with set requirements.

Noteholders who are subject to the *imposta sostitutiva* might, nevertheless, be eligible for full or partial relief under an applicable tax treaty, provided that the relevant conditions are satisfied (including documentary fulfilments).

Atypical securities

Interest payments relating to notes that are not deemed to be bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*) under Article 44 of Decree. 917 and qualify as *titoli atipici* (“atypical securities”) pursuant to Article 5 of Law Decree No. 512 of 30 September 1983, as amended, may be subject to a withholding tax, levied at the rate of 26%.

Where the holder of such note is (a) an Italian individual engaged in an entrepreneurial activity to which the Notes are connected, (b) an Italian company or a similar Italian commercial entity, (c) a permanent establishment in Italy of a foreign entity, (d) an Italian commercial partnership or (e) an Italian commercial private or public institution, such withholding tax is a provisional withholding tax. In all other cases the withholding tax is a final withholding tax. For non-Italian resident holders of the notes, the withholding tax rate may be reduced by any applicable tax treaty (to the extent the conditions for its application are met).

Tax Treatment of Capital Gains

Italian Resident (and Italian Permanent Establishment) Noteholders

Noteholders Not Engaged in an Entrepreneurial Activity

If an Italian resident Noteholder is (i) an individual not engaged in an entrepreneurial activity to which the Notes are connected, (ii) a non-commercial partnership, (other than a *società in nome collettivo* or a *società in accomandita semplice* or a similar partnership) or a *de facto* partnership not carrying out commercial activities (iii) a non-commercial private or public entity (other than a company), a trust not carrying out mainly or exclusively commercial activities, any capital gain realised by such Noteholder from the sale or redemption of the Notes would be subject to a capital gain tax (“CGT”), levied at the rate of 26%. Under certain conditions Noteholders may set off any losses against their capital gains subject to certain conditions.

In respect of the application of CGT, taxpayers may opt for any of the three regimes described below.

- (a) Under the tax declaration regime (“*regime della dichiarazione*”), which is the default regime for Italian resident Noteholders under (i) to (iii) above, CGT on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains (net of any incurred capital loss) realised by the Italian resident individual Noteholder holding the Notes. In this instance, “capital gains” means any capital gain not connected with an entrepreneurial activity pursuant to all sales or redemptions of the Notes carried out during any given fiscal year. The relevant Noteholders must indicate the overall capital gains realised in any fiscal year, net of any relevant incurred capital loss of the same kind, in the annual tax return and pay CGT on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward and offset against capital gains realised in any of the four following fiscal years.
- (b) As an alternative to the tax declaration regime, Italian resident Noteholders under (i) to (iii) holding the Notes not in connection with an entrepreneurial activity may elect to pay CGT separately on capital gains realised on each sale or redemption of the Notes (nondiscretionary investment portfolio regime, “*regime del risparmio amministrato*” provided for by article 6 of Decree 461) (optional). Such separate taxation of capital gains is allowed subject to:
 - (i) the Notes being deposited with Italian banks, SIMs or certain authorised financial intermediaries (including permanent establishments in Italy of non-resident intermediaries); and
 - (ii) an express election for the nondiscretionary investment portfolio regime being timely made in writing by the relevant Noteholder.

The depository must account for CGT in respect of capital gains realised on each sale or redemption of the Notes (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss. The depository must also pay CGT to the Italian tax authorities on behalf of the Noteholder, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the nondiscretionary investment portfolio regime, any possible capital loss resulting from a sale or redemption of the Notes may be deducted from capital gains subsequently realised, within the same securities management, in the same fiscal year or in the following fiscal years up to the fourth. Under the nondiscretionary investment portfolio regime, the Noteholder is not required to declare the capital gains / losses in the annual tax return.

- (c) Under the discretionary investment portfolio regime (*regime del risparmio gestito* provided for by Article 7 of Decree 461) (optional), any capital gains realised by Italian Noteholders under (i) to (iii) above holding the Notes not in connection with an entrepreneurial activity who have entrusted the management of their financial assets (including the Notes) to an authorised intermediary will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26% substitute tax, to be paid by the managing authorised intermediary. Any decrease in value of the managed assets accrued at the year-end may be carried forward and offset against any increase in value of the managed assets accrued in any of the four following fiscal years. The Noteholder is not required to declare the capital gains realised in the annual tax return.

Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains on the Notes may be exempt from any income taxation (including from the 26% CGT) if the Noteholders are Italian resident individuals not engaged in entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 and the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets all the requirements from time to time applicable as set forth under Italian law.

Noteholders Engaged in an Entrepreneurial Activity

Any gain realised upon the sale or the redemption of the Notes would be treated as part of the taxable business income subject to IRES (and, in certain circumstances, depending on the “status” of the Noteholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company, a similar commercial entity (including the Italian permanent establishment of non-resident entities to which the Notes are connected), a commercial partnership or an Italian resident individual engaged in an entrepreneurial activity to which the Notes are connected.

Italian Real Estate Alternative Investment Funds (Real Estate Investment Funds and Real Estate SICAFs)

Any capital gains realised by a Noteholder which is an Italian real estate investment fund or an Italian Real Estate SICAF to which the provisions of Decree 351 or Decree 44 apply will be subject neither to CGT nor to any other income tax at the level of the real estate investment fund or the Real Estate SICAF (see “*Tax Treatment of Interest and proceeds payable under the Notes qualifying as bonds or debentures similar to bonds*”). However a withholding tax or a substitute tax at the rate of 26% will generally apply to income realised by unitholders/shareholders in the event of distributions, redemption or sale of units / shares. Subject to certain conditions, income realised by Italian real estate investment fund or an Italian Real Estate SICAF is attributed pro rata to the Italian resident unitholders irrespective of any actual distribution on a tax transparency basis.

Undertakings for Collective Investment (Funds, SICAFs and SICAVs)

Any capital gains realised by a Noteholder which is a Fund, a SICAF (other than a Real Estate SICAF) or a SICAV will not be subject to CGT but will be included in the result of the relevant portfolio accrued at the end of the relevant fiscal year. Such result will not be taxed at the level of the Fund, the SICAF or the SICAV, but income realised by the unitholders or shareholders in case of distributions, redemption or sale of the units / shares may be subject to a withholding tax of 26% (see “*Tax Treatment of Interest and proceeds payable under the Notes qualifying as bonds or debentures similar to bonds*”).

Pension Funds

Any capital gains realised by a Noteholder that is an Italian pension fund (subject to the regime provided for by Article 17 of Decree 252 of 5 December 2005) will be included in the result of the pension fund as calculated at the end of the fiscal year, to be subject to a 20% substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains on the Notes may be excluded from the taxable base of the 20% substitute tax if the Notes are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Non-Italian Resident Noteholders

Capital gains realised by non-Italian resident Noteholders without a permanent establishment in the Republic of Italy to which the Notes are effectively connected upon the sale or the redemption of Notes issued by an Italian resident issuer and traded on regulated markets are subject neither to CGT nor to any other Italian income tax. The exemption applies provided that the non-Italian resident Noteholders file in due course with the authorised financial intermediary an appropriate affidavit (*autocertificazione*) stating that the Noteholder is not resident in the Republic of Italy for tax purposes and has no permanent establishment in Italy to which the Notes are effectively connected.

The Italian tax authorities have clarified that the notion of multilateral trading facility (**MTF**) under EU Directive 2014/65/CE (so called MiFID II) can be assimilated to that of “regulated market” for income tax purposes; conversely, organized trading facilities (OTF) cannot be assimilated to “regulated market” for Italian income tax purposes.

Capital gains realised by non-Italian resident Noteholders without a permanent establishment in the Republic of Italy to which the Notes are effectively connected upon the sale or the redemption of Notes issued by an Italian resident issuer not traded on regulated markets are not subject to CGT, provided that the beneficial owner (certain types of institutional investors are deemed to be beneficial owners by operation of law) is:

- (a) resident in a country included in the White List (or in the New White List once this is effective);
- (b) an international entity or body set up in accordance with international agreements which have entered into force in the Republic of Italy;
- (c) a central Bank or an entity which manages, inter alia, the official reserves of a foreign State (including sovereign wealth funds); or
- (d) an “institutional investor”, whether or not subject to tax, which is established in a country included in the White List (or in the New White List once this is effective), even if it does not possess the status of a taxpayer in its own country of establishment,

in any case, to the extent all the requirements and procedures set forth in Decree 239 and in the relevant implementation rules, as subsequently amended, in order to benefit from the exemption from *imposta sostitutiva* are met or complied with in due time, if applicable. In this case, if the non-Italian resident Noteholders have opted for the *risparmio amministrato* regime or the Asset Management Regime, exemption from Italian capital gains tax will apply upon condition that they file in due course with the authorised financial intermediary an appropriate self-declaration (*autocertificazione*) stating that they meet the requirements indicated above.

If none of the conditions above is met, capital gains realised by non-Italian resident Noteholders without a permanent establishment in the Republic of Italy to which the Notes are effectively connected upon the sale or the redemption of Notes issued by an Italian resident issuer and not traded on regulated markets may be subject to CGT at the current rate of 26%. However, Noteholders may benefit from an applicable tax treaty with the Republic of Italy providing that capital gains realised upon the sale or the redemption of the Notes may be taxed only in the country of residence of the transferor.

Tax treatment of derivative financial instruments

Based on the principles stated by the Italian tax authorities in Resolution No. 72/E of 12 July 2010, payments in respect of Notes qualifying as securitised derivative financial instruments not entailing a "use of capital" (*impiego di capitale*) as well as capital gains realised through the sale of the same Notes would be subject to Italian taxation according to the same rules described under the section headed "*Capital gains tax*" above.

Fungible issues for Notes qualifying as qualifying as bonds or debentures similar to bonds

Pursuant to Article 11(2) of Decree 239, where the Issuer issues a new tranche of notes forming part of a single series with a previous tranche of notes, for the purposes of calculating the amount of Interest subject to *imposta sostitutiva* (if any), the issue price of the new tranche of notes will be deemed to be the same as the issue price of the original tranche of notes. This rule applies where (a) the new tranche of notes is issued within 12 months from the issue date of the previous tranche of notes and (b) the difference between the issue price of the new tranche of notes and that of the original tranche of notes does not exceed 1% of the nominal value of the Notes multiplied by the number of years of the duration of the Notes.

Italian Inheritance and Gift Tax

Subject to certain exceptions, Italian inheritance and gift tax is generally payable on transfers of assets and rights, including the Notes, (i) by reason of death or gift by Italian resident persons (or other transfers for no consideration and the creation of liens on such assets for a specific purpose, including the segregation of assets into a trust), even if the transferred assets are held outside Italy, and (ii) by reason of death or gift by non-Italian resident persons (or other transfers for no consideration and the creation of liens on such assets for a specific purpose, including the segregation of assets into a trust), but only if the transferred assets are held in Italy.

In such event, Italian inheritance and gift tax applies as follows:

- (a) at a rate of 4% in case of transfers in favour of the spouse or relatives in direct line on the portion of the global net value of the transferred assets exceeding, for each beneficiary, €1,000,000;
- (b) at a rate of 6% in case of transfers in favour of relatives up to the fourth degree or relatives in-law up to the third degree on the entire value of the transferred assets. Transfers in favour of brothers / sisters are subject to the 6% inheritance and gift tax on the value of the transferred assets exceeding, for each beneficiary, €100,000; and
- (c) at a rate of 8% in any other case.

If the beneficiary of any such transfer is a disabled individual, whose handicap is recognised under Law No. 104 of 5 February 1992, the tax is applied only on the value of the assets (including the Notes) received in excess of €1,500,000 at the rates illustrated above, depending on the type of relationship existing between the deceased or the donor and the beneficiary.

With respect to Notes listed on a regulated market, the value for inheritance and gift tax purposes is the average trading price of the last quarter preceding the date of the succession or of the gift (including any accrued interest). The transfer of financial instruments (including the Notes) as a result of death is exempt from inheritance tax when such financial instruments are included in a long-term savings account (*piano di risparmio a lungo termine*) that meets the requirements from time to time applicable as set forth under Italian law.

Transfer Tax

Contracts relating to the transfer of securities are subject to a €200 registration tax as follows: (i) public deeds and private deeds with notarized signatures (*atti pubblici e scritture private autenticate*) are subject to mandatory registration; and (ii) private deeds (*scritture private non autenticate*) are subject to registration only in the case of voluntary registration (*registrazione volontaria*), upon occurrence of an "explicit reference" (*enunciazione*) or if the so-called "*caso d'uso*" occurs.

Stamp Duty

Under Article 13(2bis-2ter) of Presidential Decree No. 642 of 26 October 1972 (“**Decree 642**”), a 0.20% stamp duty generally applies on communications and reports that Italian financial intermediaries periodically send to their clients in relation to the financial products that are deposited with such intermediaries in Italy. The Notes are included in the definition of financial products for these purposes. Communications and reports are deemed to be sent at least once a year even if the Italian financial intermediary is under no obligation to either draft or send such communications and reports. In case of reporting periods of less than 12 months, the stamp duty is payable on a pro-rata basis.

The stamp duty cannot exceed €14,000.00 for Noteholders other than individuals.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy and Finance on 24 May 2012, the 0.20% stamp duty does not apply to communications and reports that the Italian financial intermediaries send to investors who do not qualify as “clients” according to the regulations issued by the Bank of Italy. Communications and reports sent to this type of investors are subject to the ordinary €2.00 stamp duty for each copy.

The taxable base of the stamp duty is the market value or, in the lack thereof, the nominal value or the redemption amount of any financial product or in the case the face or redemption values cannot be determined, on the basis of purchase value of the financial assets held.

Stamp duty applies both to Italian resident and to non-Italian resident investors, to the extent that the relevant securities (including the Notes) are held with an Italian-based financial intermediary (and not directly held by the investor outside Italy), in which case Italian wealth tax (see below under “*Wealth tax on financial products held abroad*”) applies to Italian resident Noteholders only.

Wealth Tax on Financial Products Held Abroad

Under Article 19(18) of Law Decree No. 201 of 6 December 2011, resident individuals non-commercial entities and certain partnerships (*società semplici* or similar partnerships in accordance with Article 5 of Decree No. 917) resident in Italy for tax purposes holding financial products – including the Notes – outside the Republic of Italy are required to declare in its own annual tax return and pay a wealth tax at the rate of 0.2% (**IVAFE**). Article 1(91) of Law 30 December 2023, No. 213 provided for an increase of the rate from 0.20% to 0.40%, only in the circumstance that the Notes are held in black list countries, listed in the Ministerial Decree No.107 of 4 May 1999. For taxpayers other than individuals, IVAFE cannot exceed Euro 14,000 per year.

The tax is determined in proportion to the period of ownership. This tax is calculated on the market value at the end of the relevant year (or, in the lack thereof, on the nominal value or redemption value, or in the case the face or redemption values cannot be determined, on the purchase price of any financial product (including the Notes) held abroad of Italy). If the financial products are no longer held on 31 December of the relevant year, reference is made to the value in the period of ownership. A tax credit is generally granted for foreign wealth taxes levied abroad on such financial products. The tax credit cannot be greater than the amount of the Italian tax due.

Financial assets (including the Notes) held abroad are excluded from the scope of IVAFE if they are administered by Italian financial intermediaries pursuant to an administration agreement and the items of income derived from the such instruments have been subject to tax by the same intermediaries. In this case, the above mentioned stamp duty provided for by Article 13 of the Tariff attached to Decree 642 does apply.

Certain Reporting Obligations for Italian Resident Noteholders

Under Law Decree No. 167 of 28 June 1990, as subsequently amended and supplemented, individuals, non-commercial entities and non-commercial partnerships that are resident in Italy and, during the fiscal year, hold investments abroad or have financial assets abroad (including possibly the Notes) must, in certain circumstances, disclose these investments or financial assets to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return), regardless of the value of such assets (save for deposits or bank accounts

having an aggregate value not exceeding €15,000 threshold throughout the year, which per se do not require such disclosure).

The requirement applies also where the persons above, being not the direct holder of the financial assets, are the actual economic owners thereof for the purposes of anti-money laundering legislation.

No disclosure requirements exist for investments and financial assets (including the Notes) under management or administration entrusted to Italian resident intermediaries (Italian banks, SIMs, fiduciary companies or other professional intermediaries, indicated in Article 1 of Law Decree No. 167 of 28 June 1990) and for contracts concluded through their intervention, provided that the cash flows and the income derived from such activities and contracts have been subjected to Italian withholding or substitute tax by the such intermediaries.

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

Notes may be sold from time to time by the Issuer to any one or more of the Dealers. The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in a Dealer Agreement dated on or about the date hereof (the “**Dealer Agreement**”) and made between the Issuer and the Dealers. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of the existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

Selling Restrictions

Prohibition of Sales to EEA Retail Investors

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area.

For the purposes of this provision:

Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Until 40 days after the commencement of the offering of any Series of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal adviser.

- (b) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made under the SFO.
