

Press Release

PRELIMINARY TRAFFIC FIGURES FOR FIRST QUARTER OF 2016⁽¹⁾

Rome, 21 April 2016 – During the Annual General Meeting of Atlantia's shareholders, the CEO, Giovanni Castellucci, commented on the preliminary traffic figures for the infrastructure operated by the Group in Italy and overseas in the first quarter of 2016.

Traffic using the motorways operated by Autostrade per l'Italia is up 7.3% on the same period of 2015. The figure is not fully comparable with the corresponding period of 2015, as there was one more day in February and Easter fell earlier in 2016 (in March in 2016 and in April in 2015). After adjusting for these differences, the like-for-like increase is estimated at approximately 4.3%.

Traffic on the network operated by the Group's overseas operators shows differing trends for the first quarter of 2016: a 7.0% increase on the Chilean network, compared with a reduction of 1.1% on the Brazilian network, reflecting the impact of the country's continuing economic crisis.

The number of passengers using Aeroporti di Roma's airports in the first quarter of 2016 totals 9.5m, marking growth of 4.0% compared with the same period of 2015.

¹ Preliminary figures for the period 1 January – 31 March 2016.
